

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

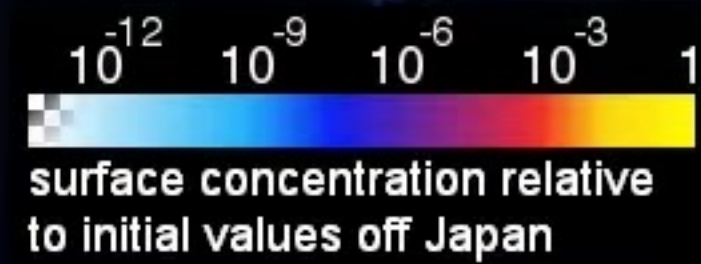

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

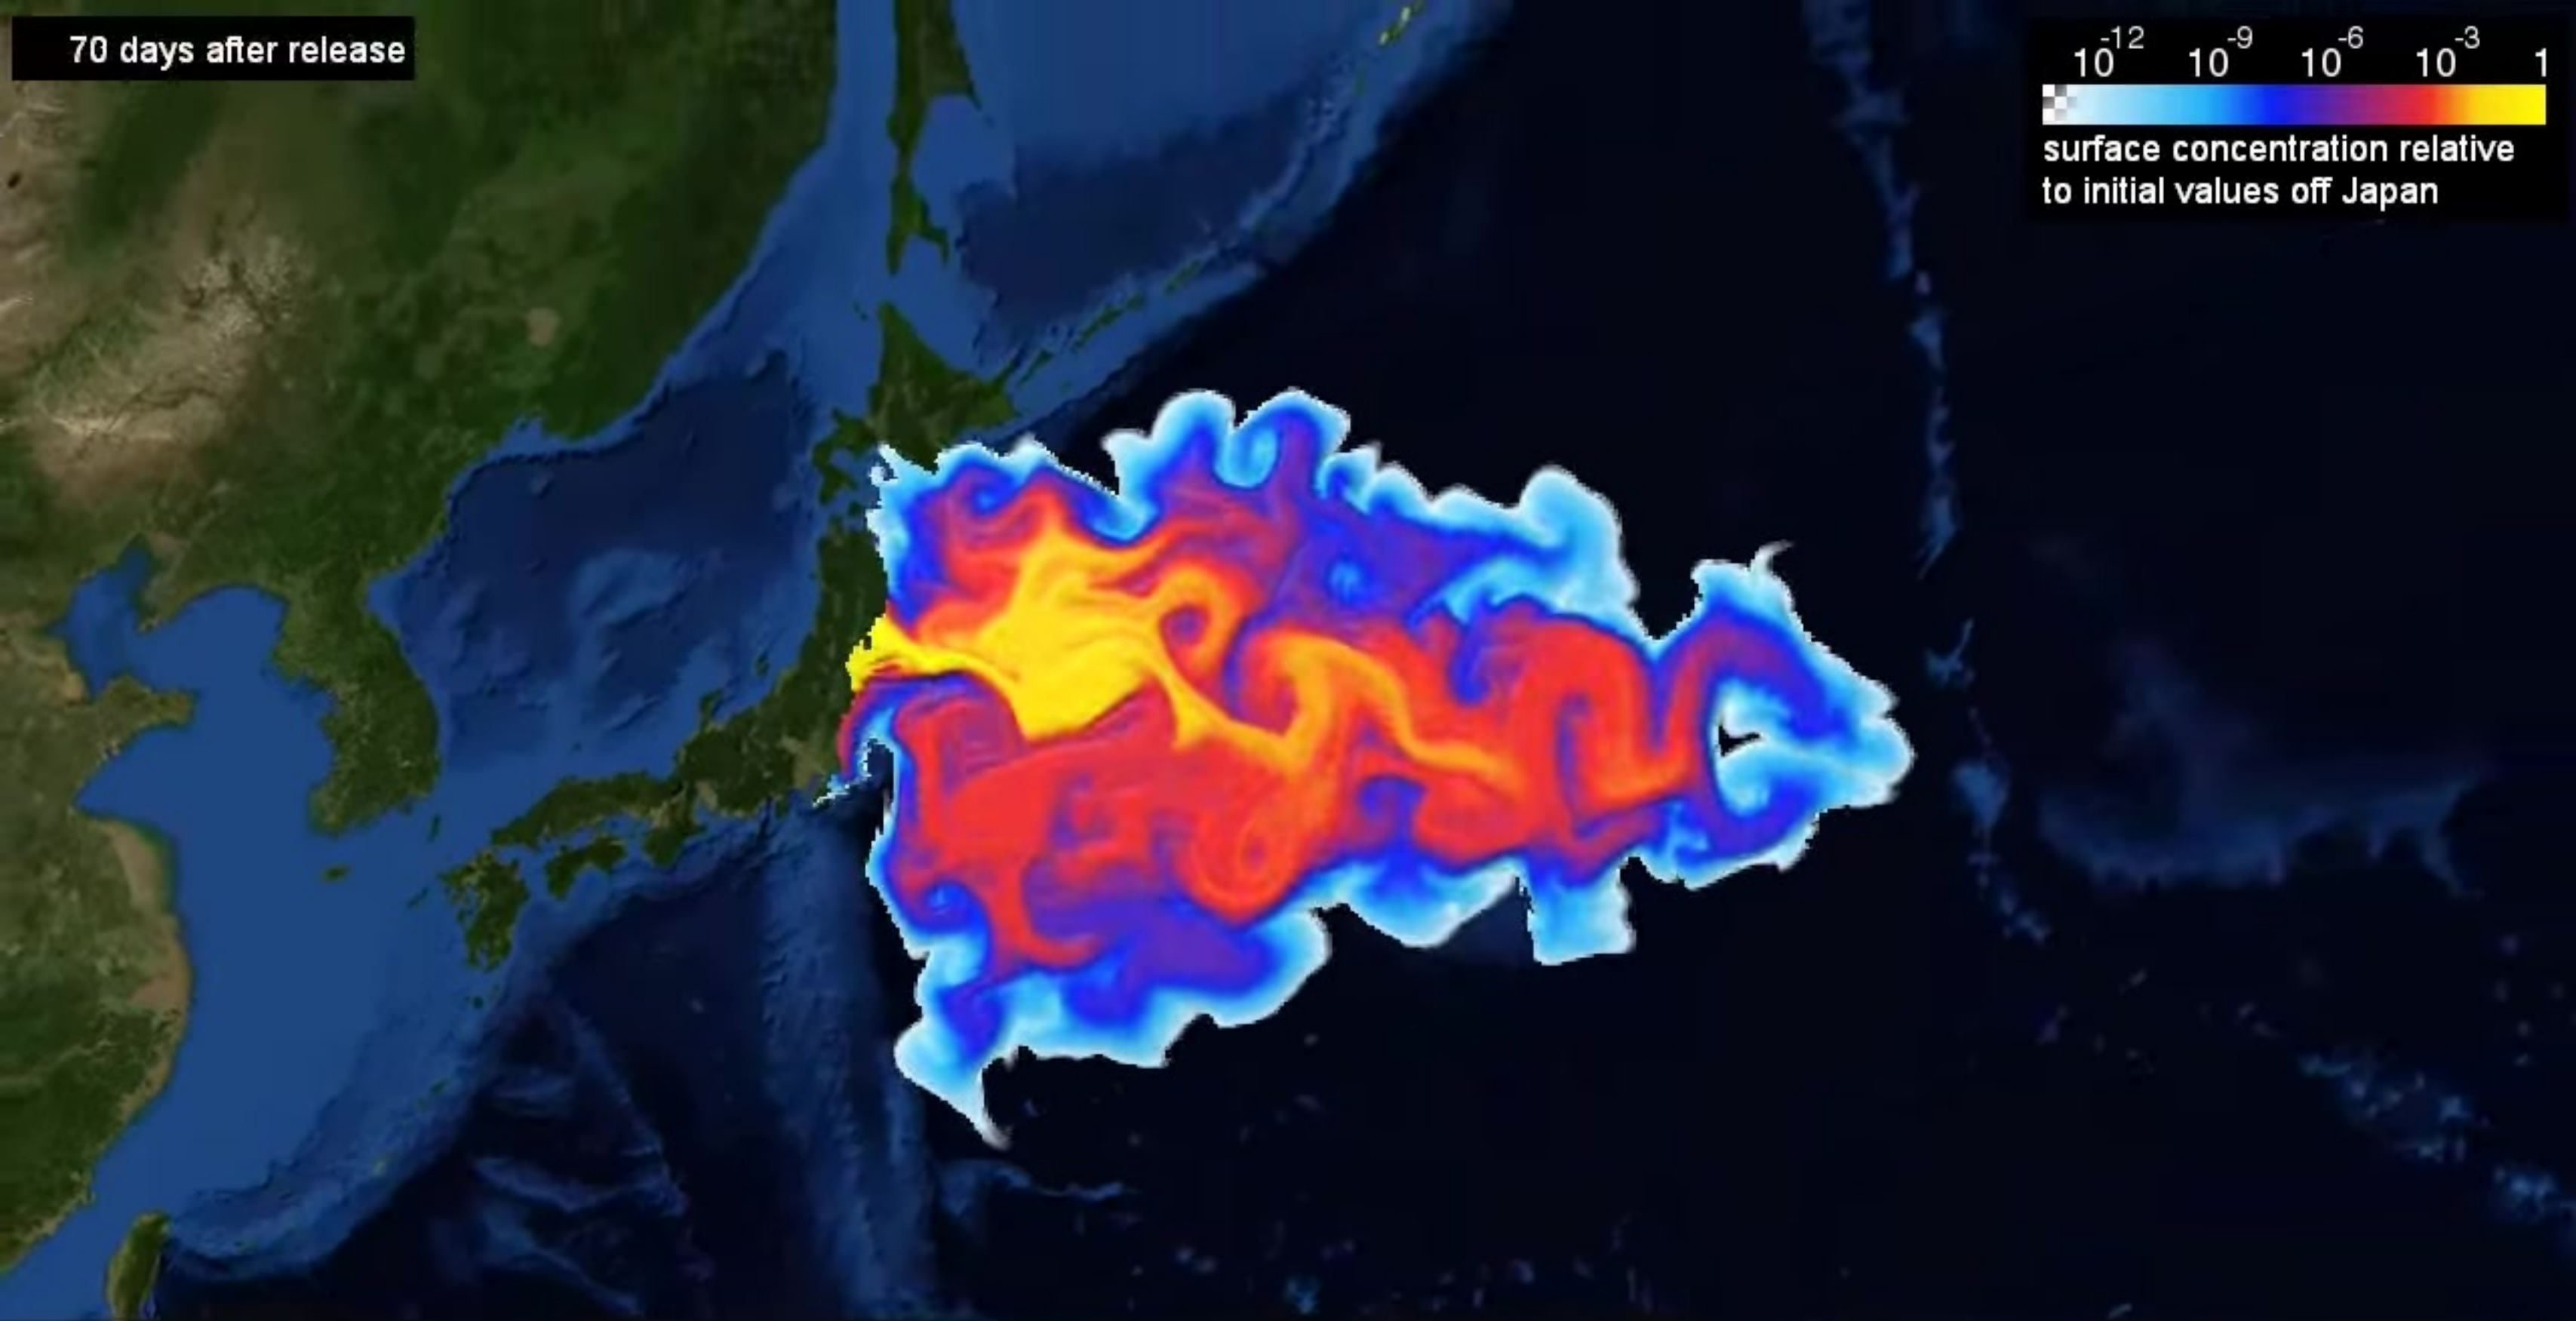

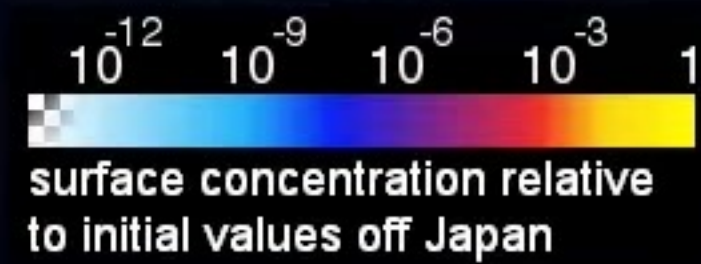

10 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

70 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

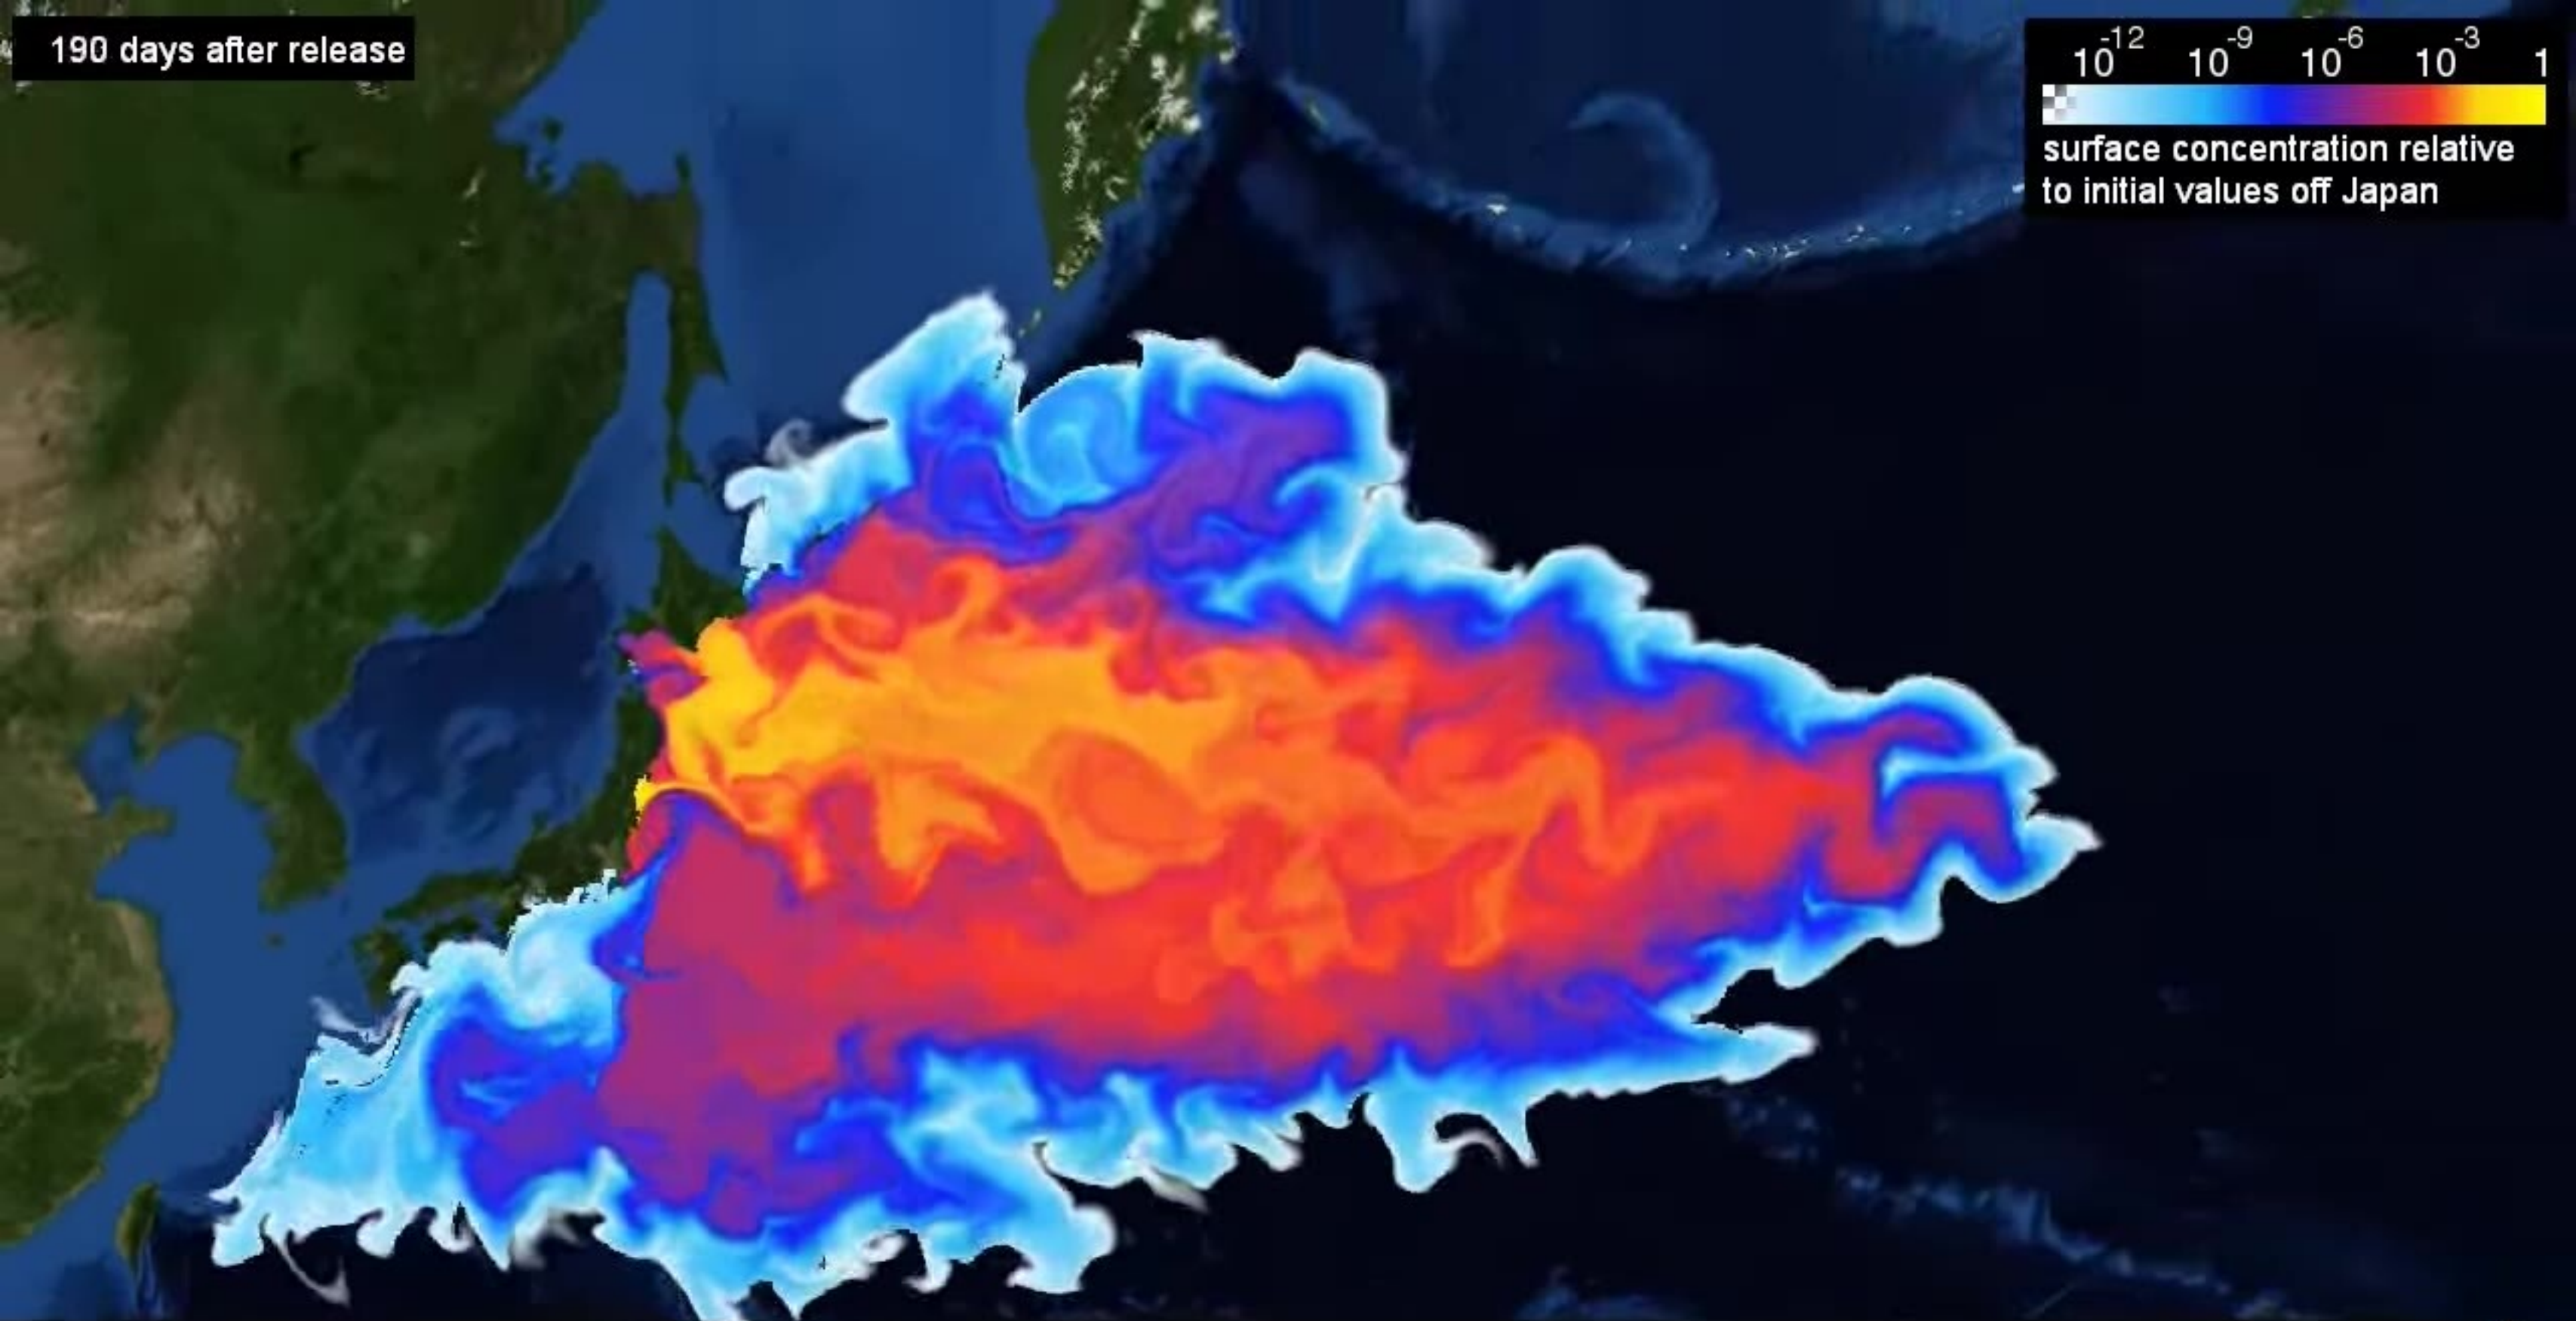

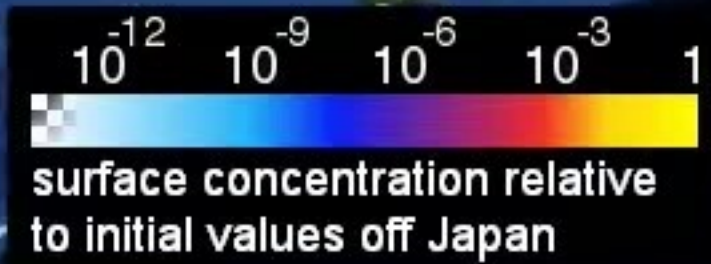

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

130 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

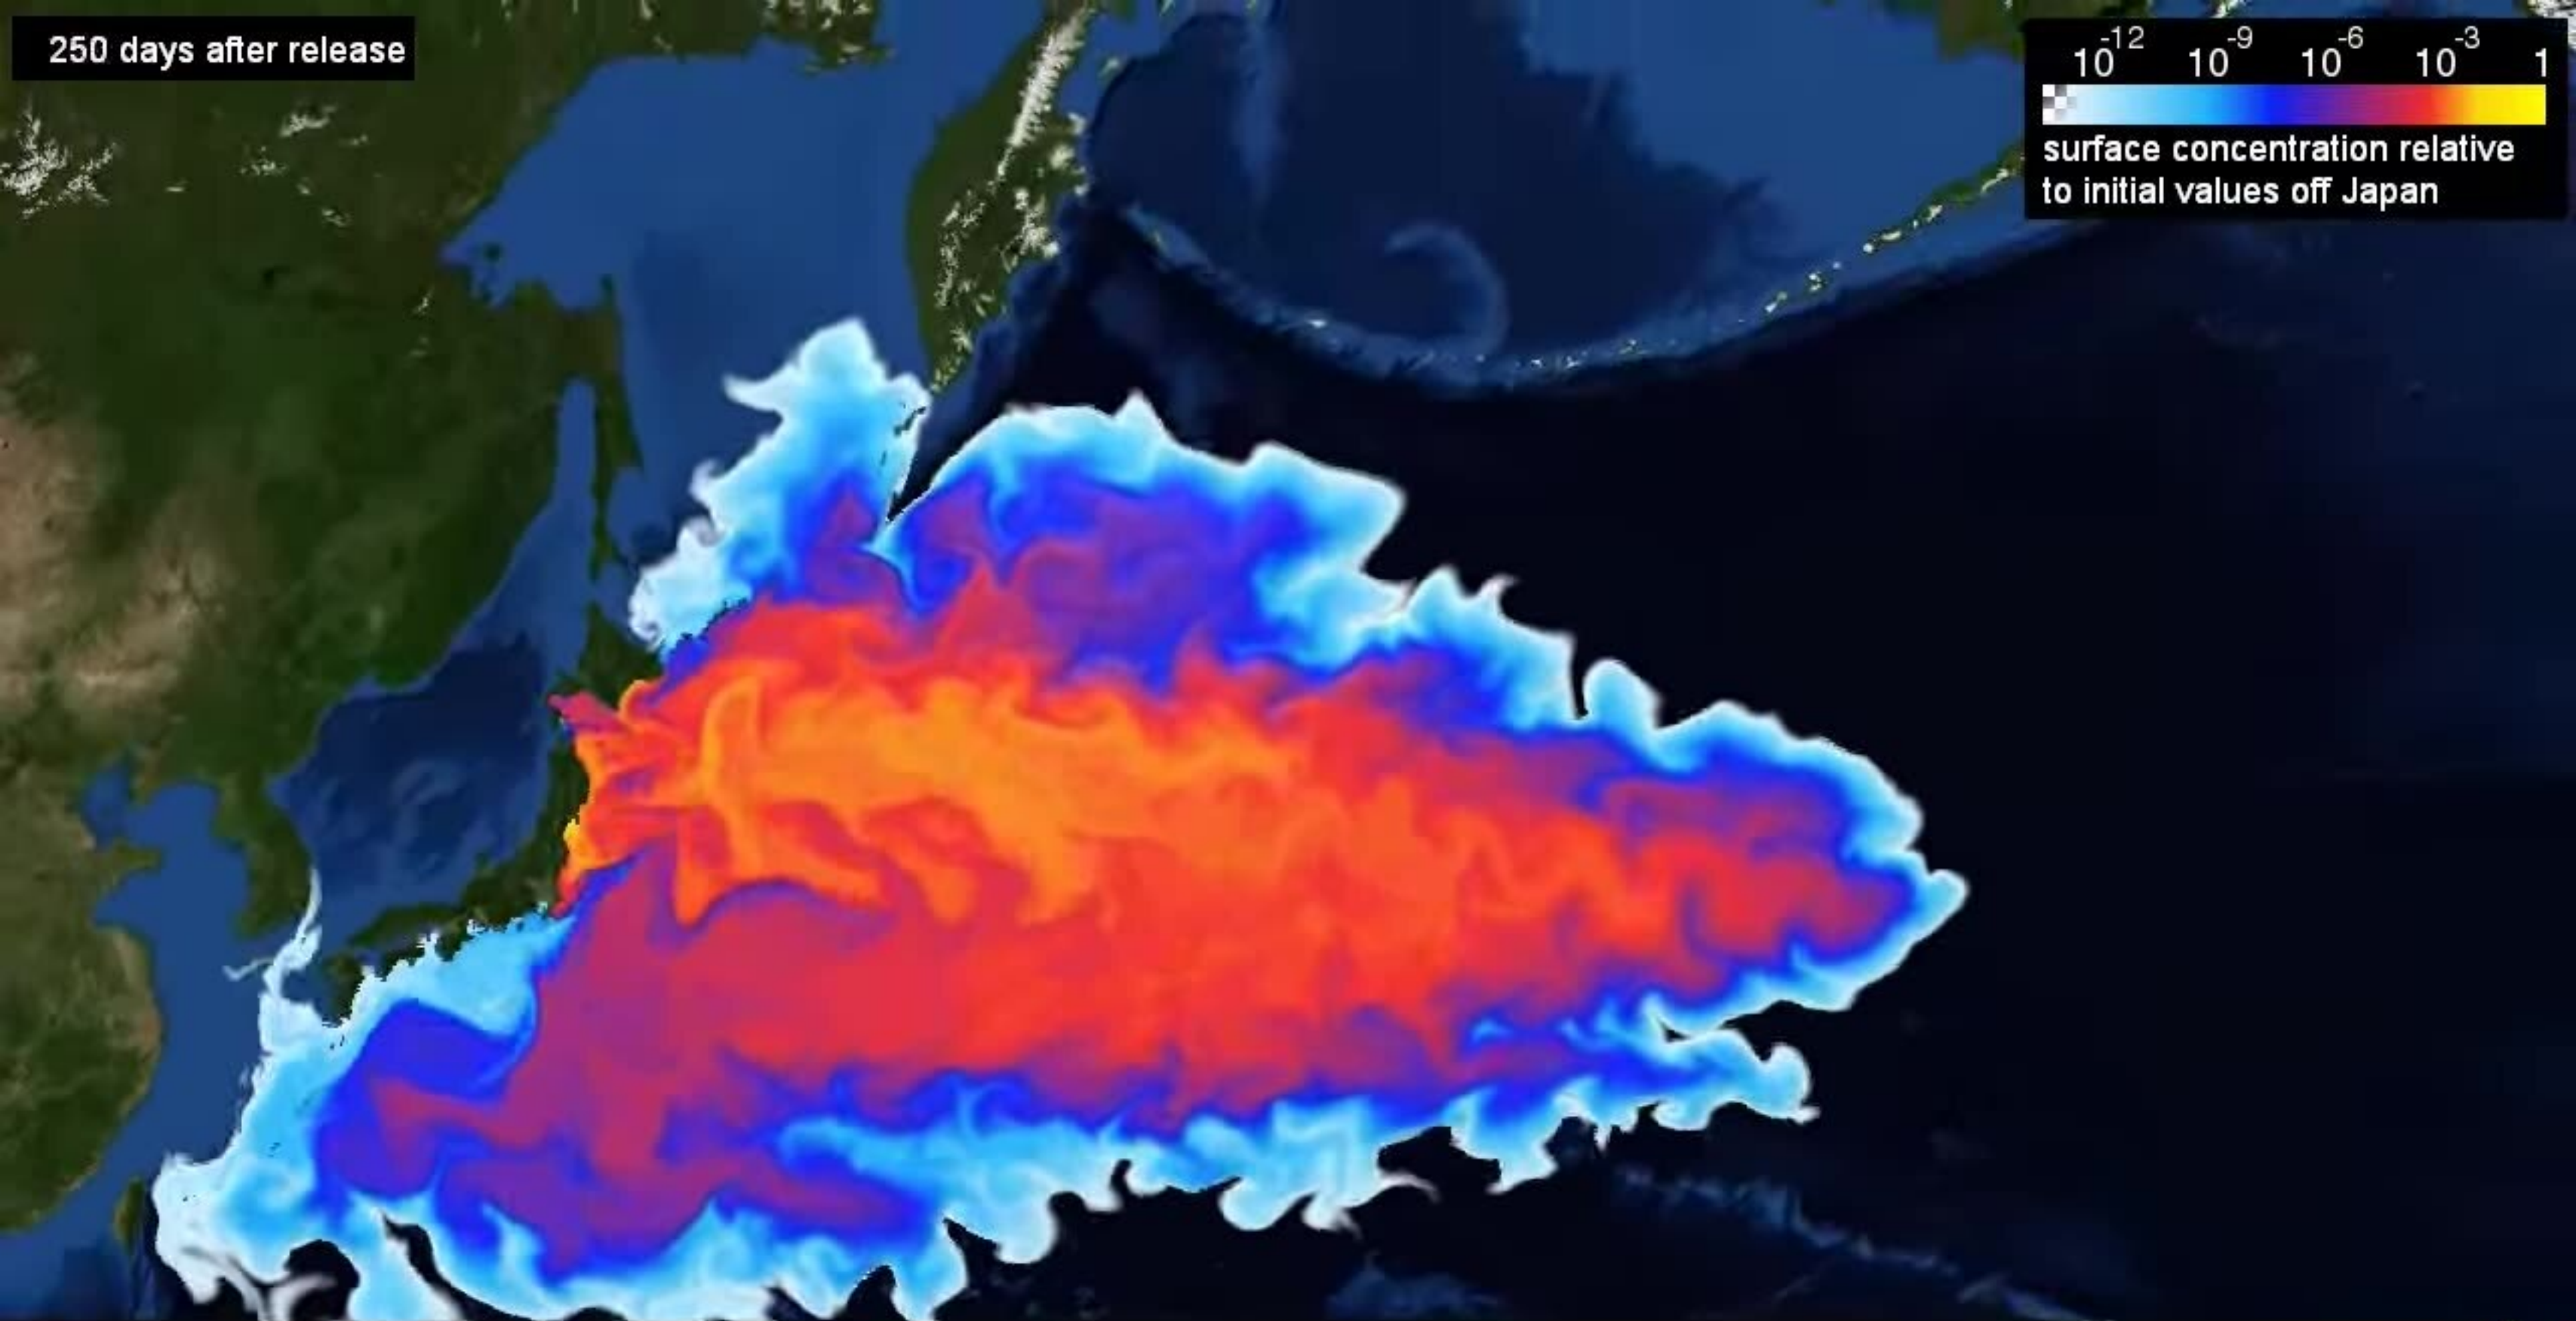

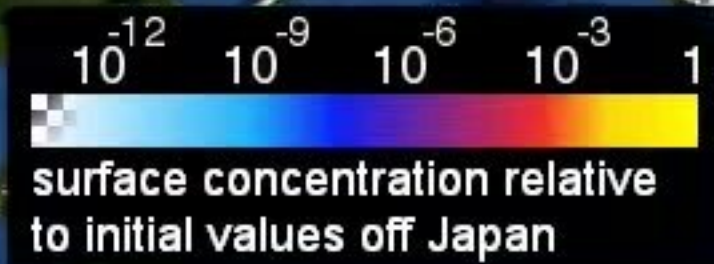

190 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

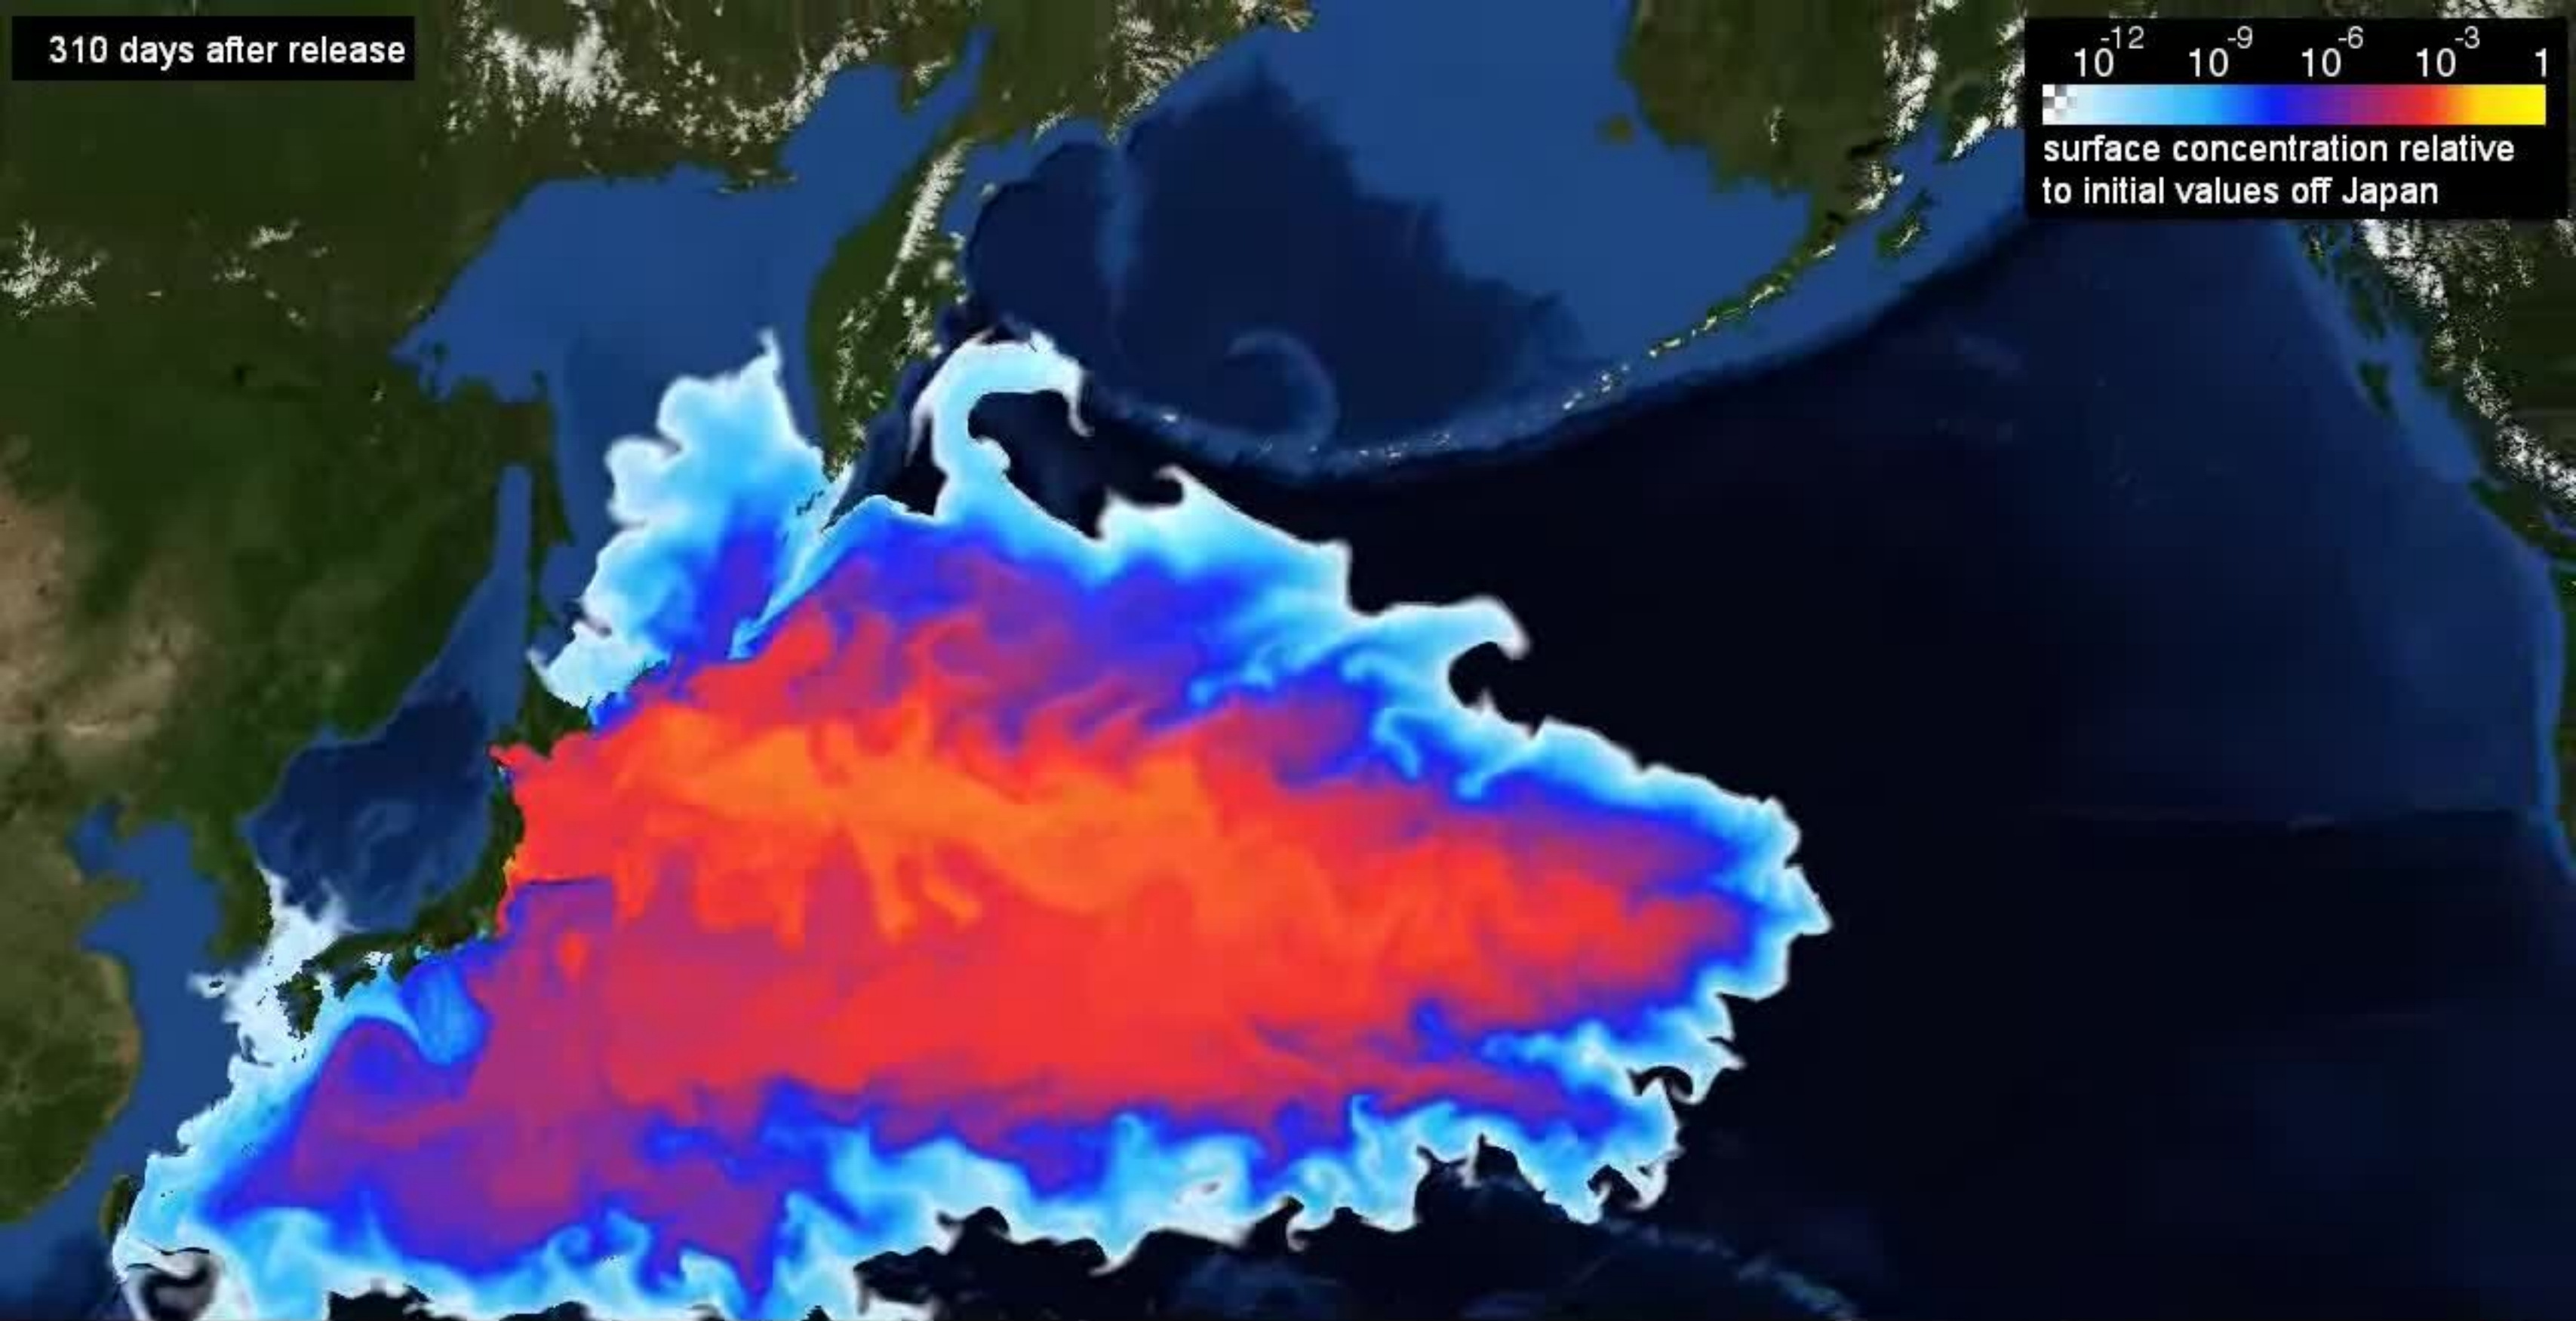

250 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

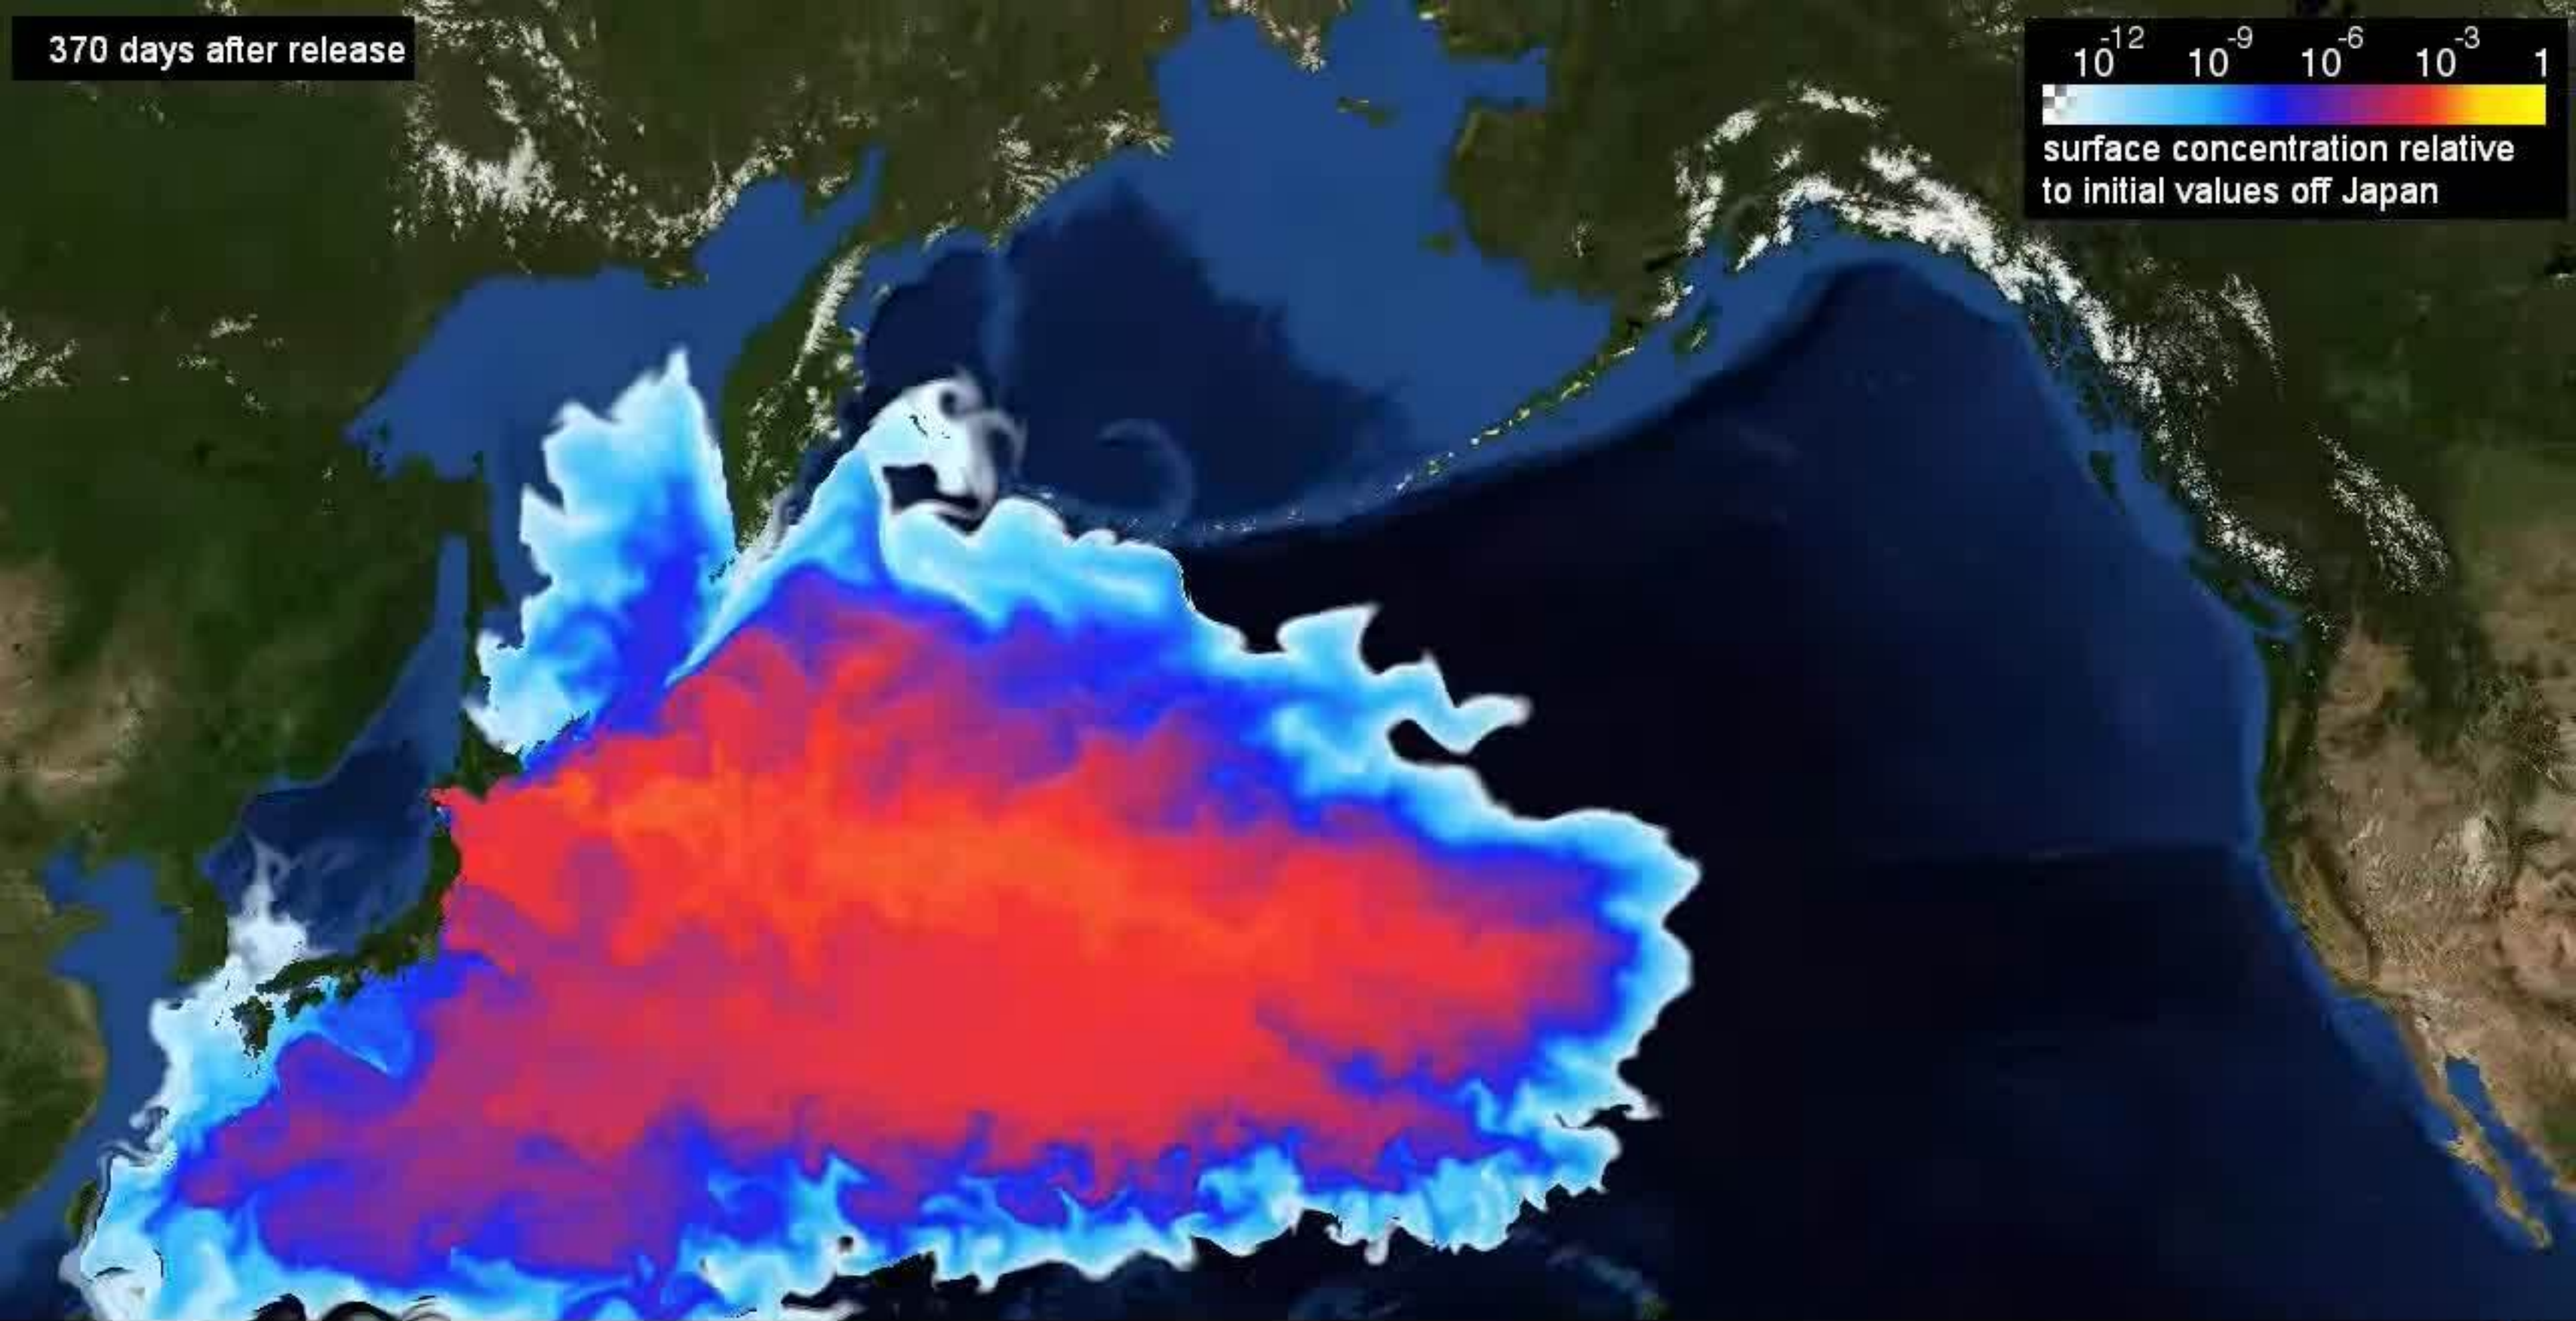

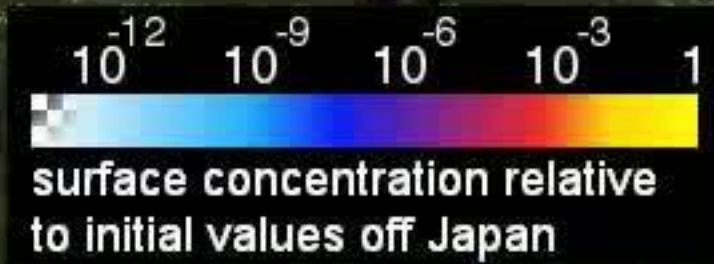

310 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

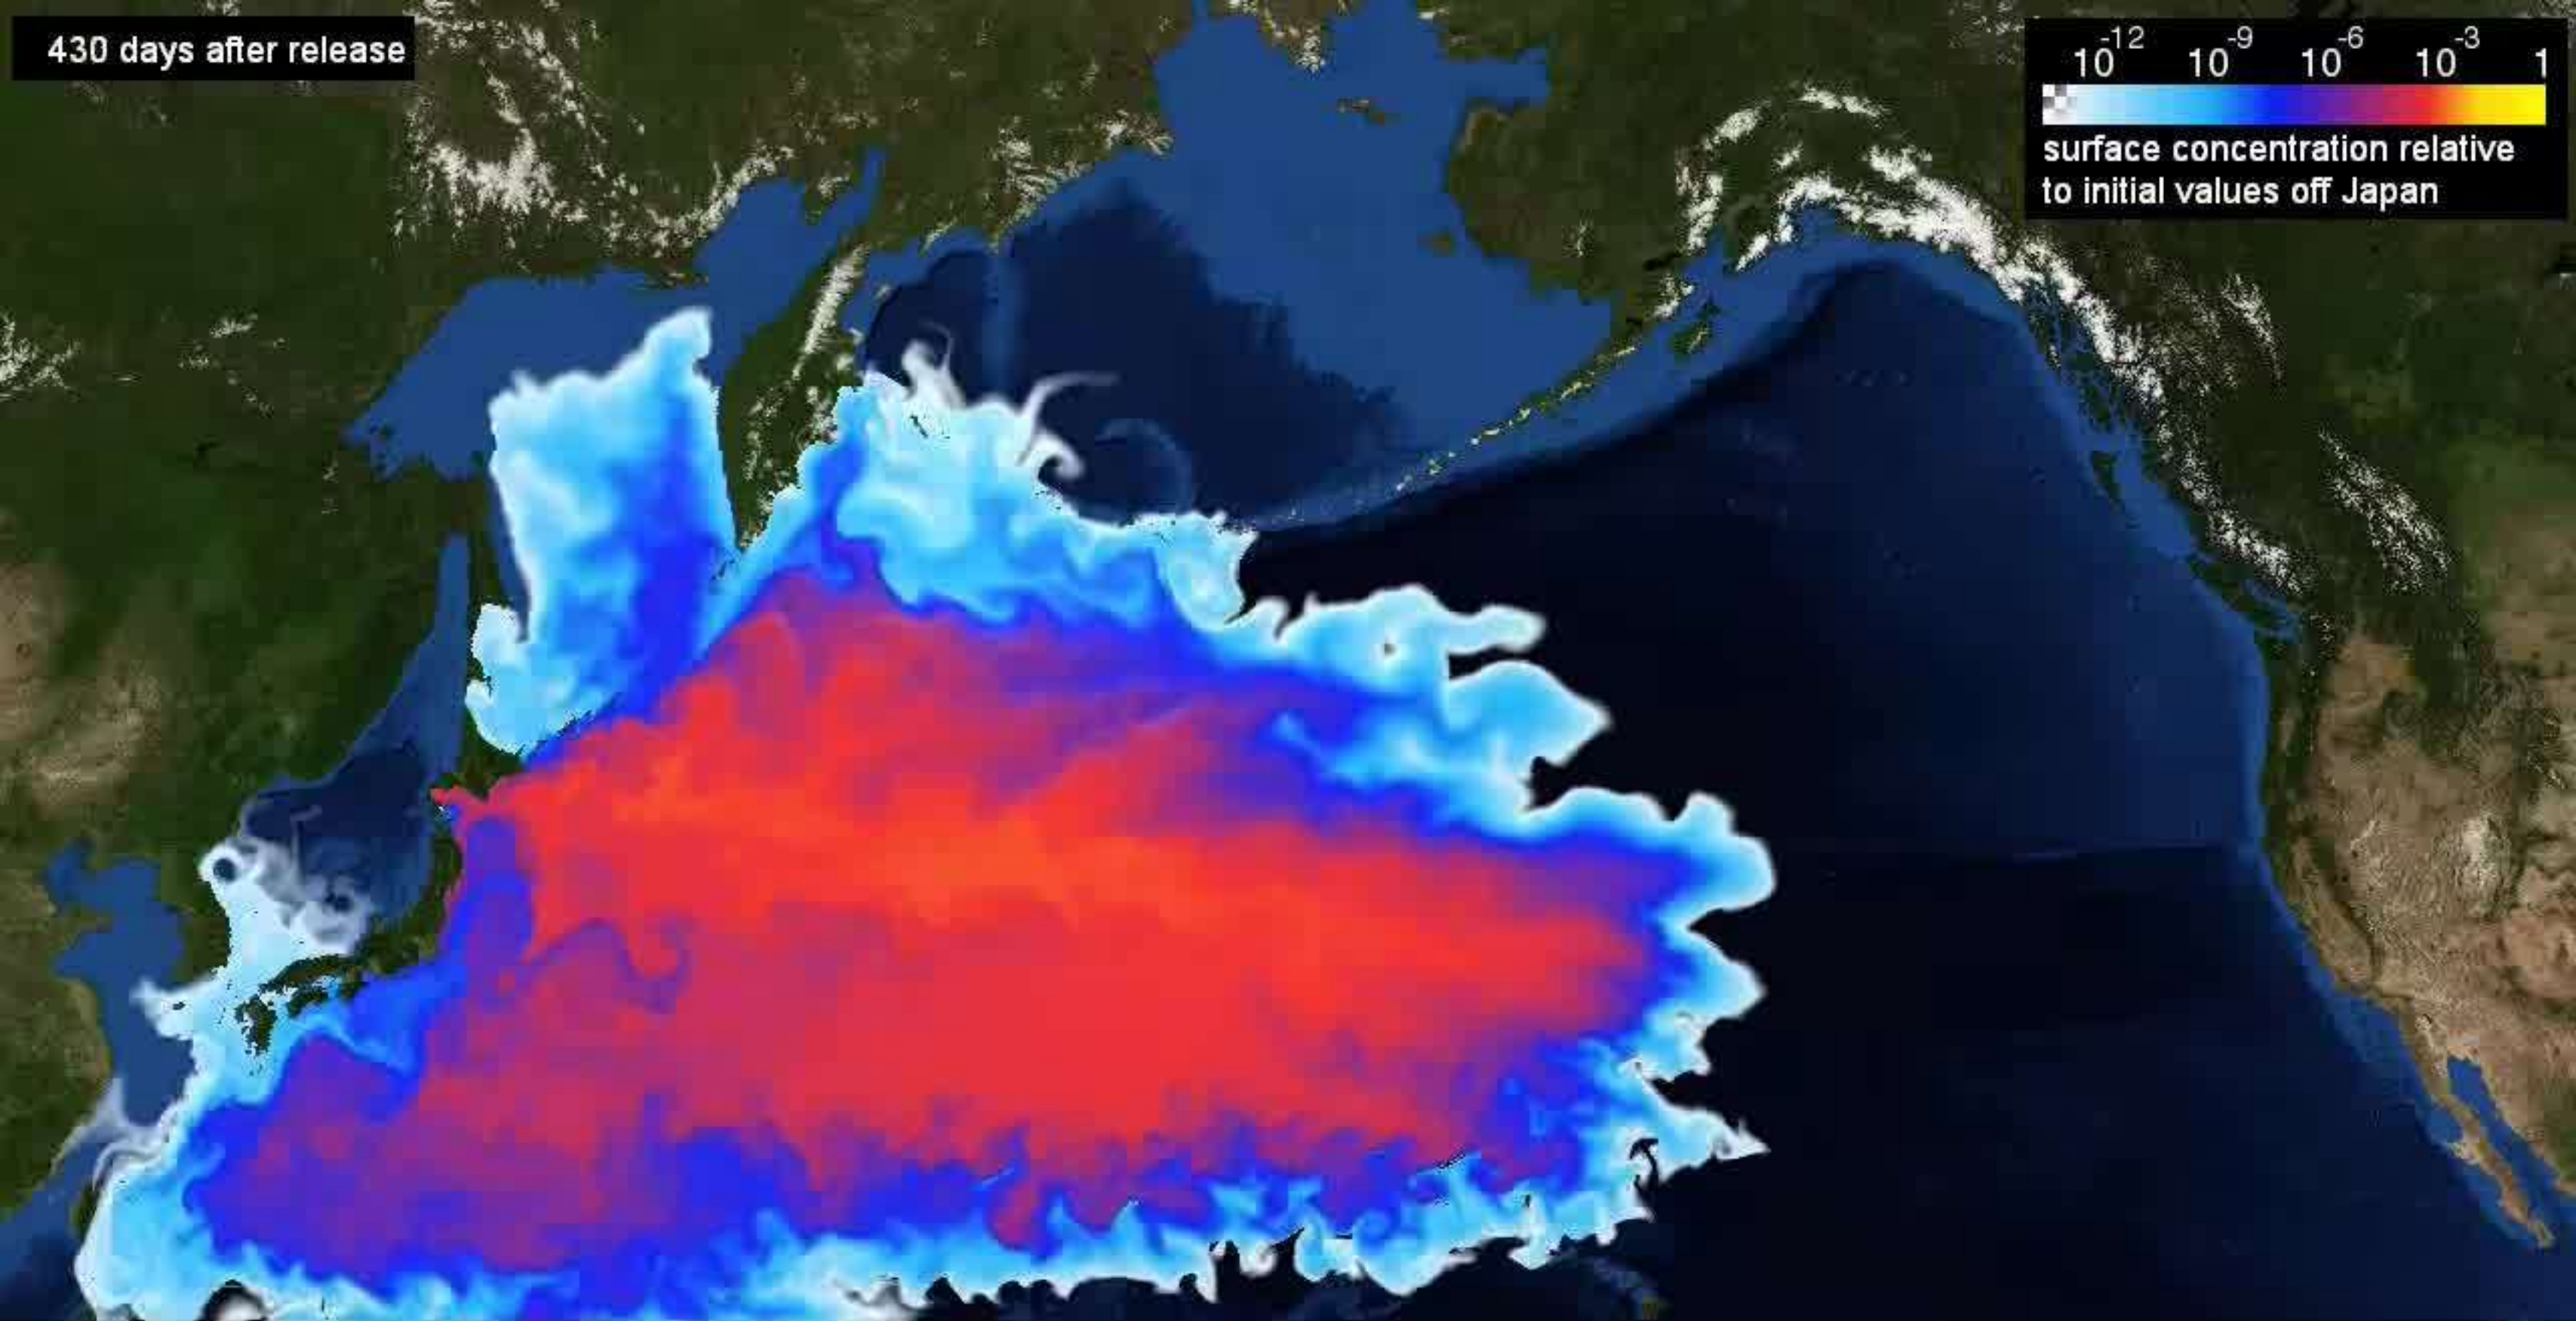

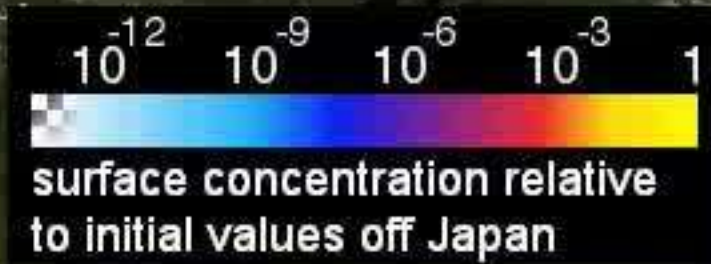

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

370 days after release

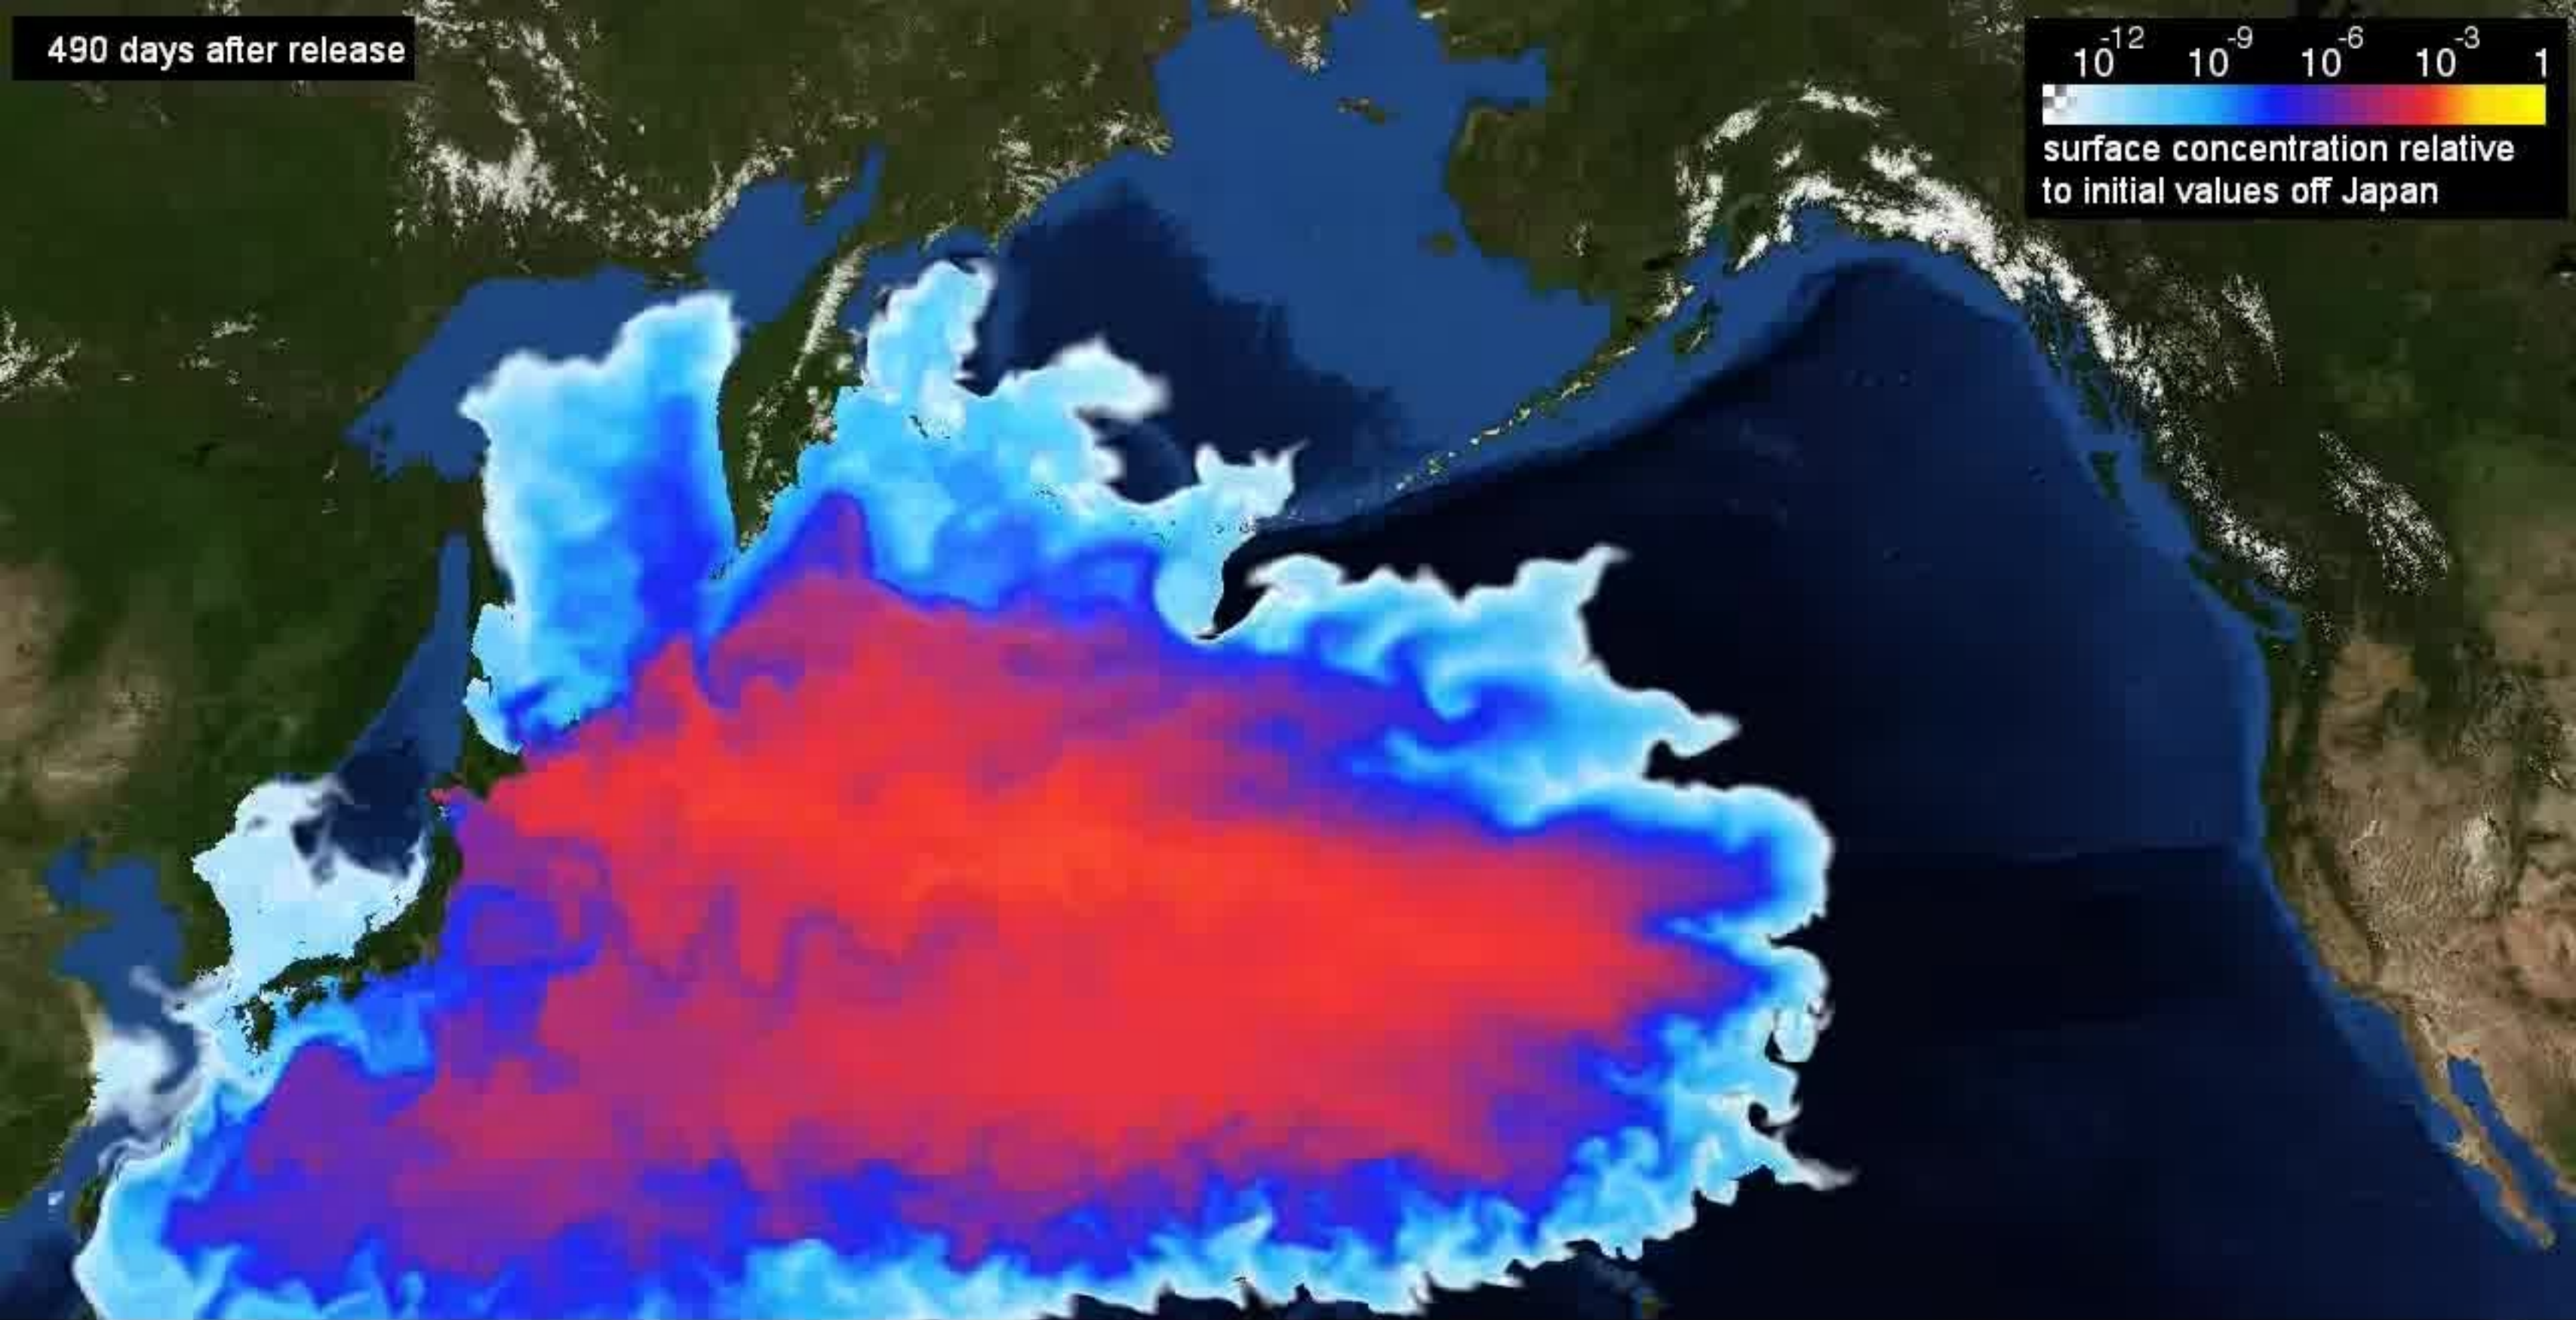

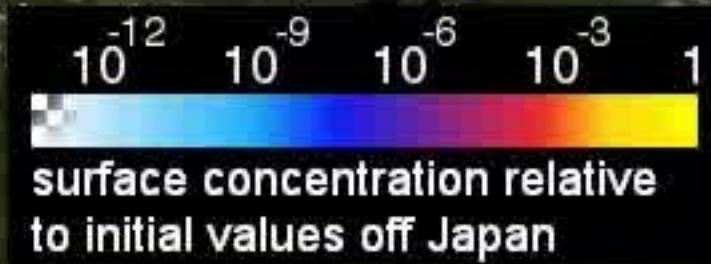

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

430 days after release

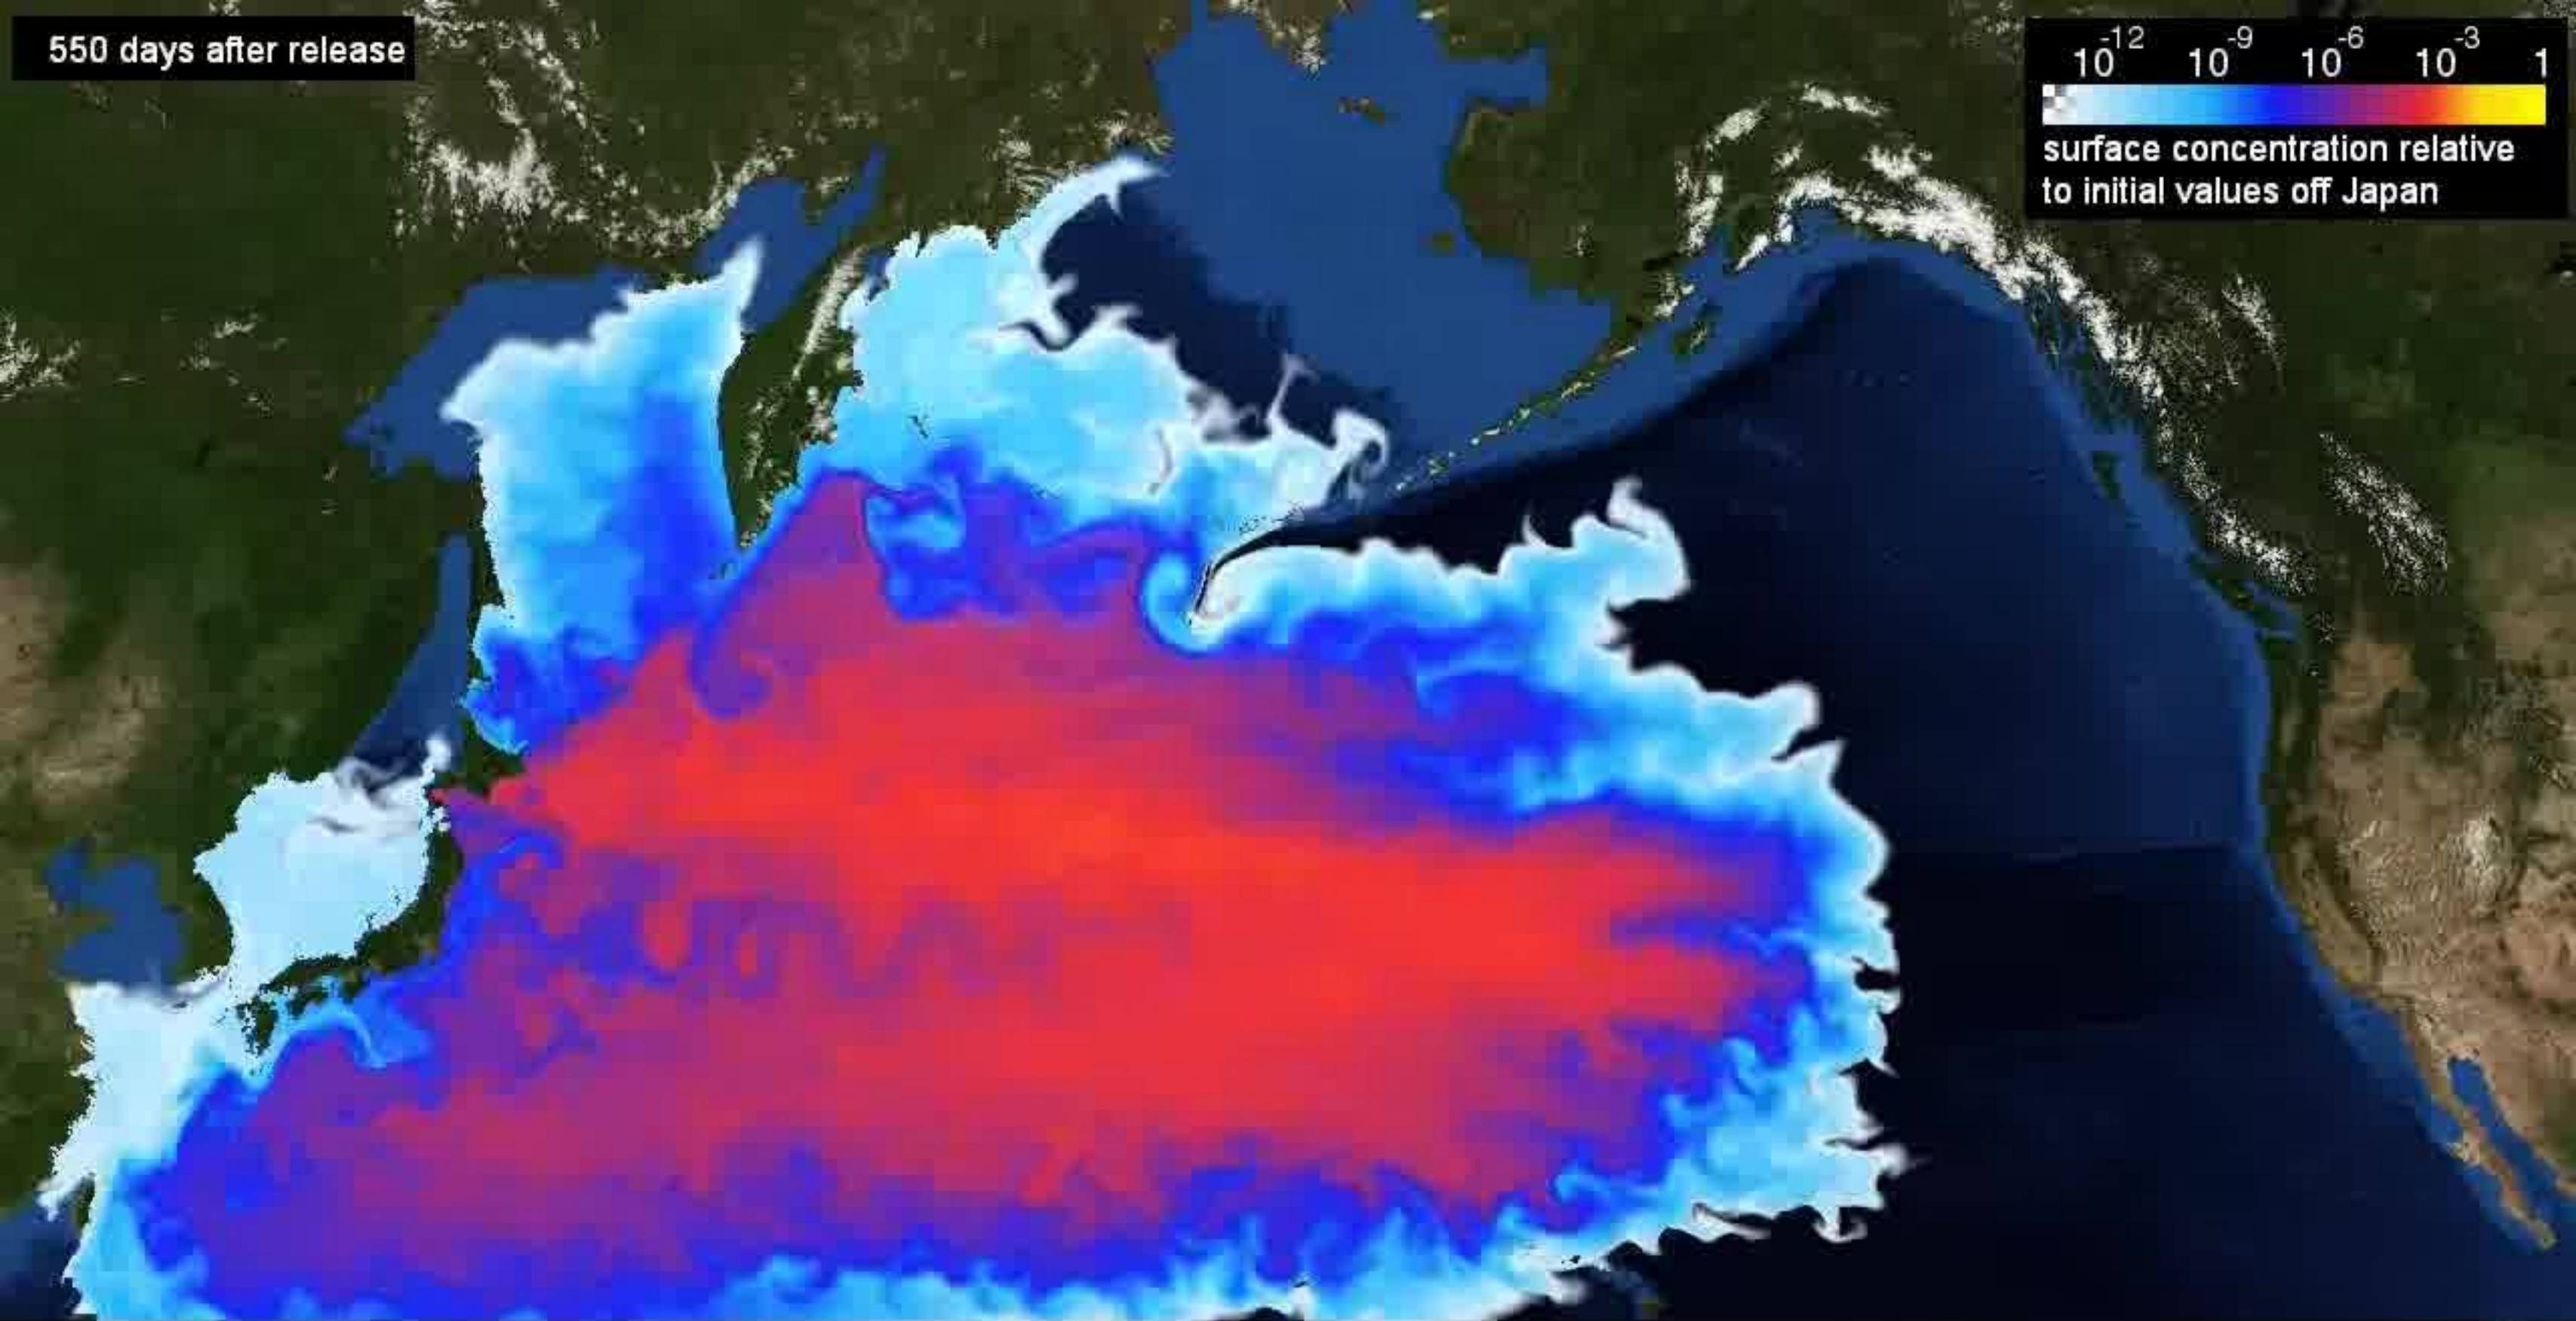

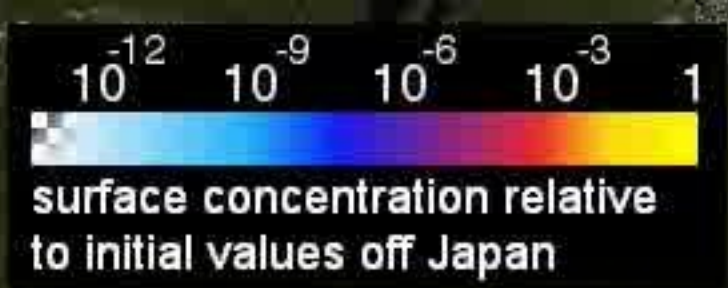

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

490 days after release

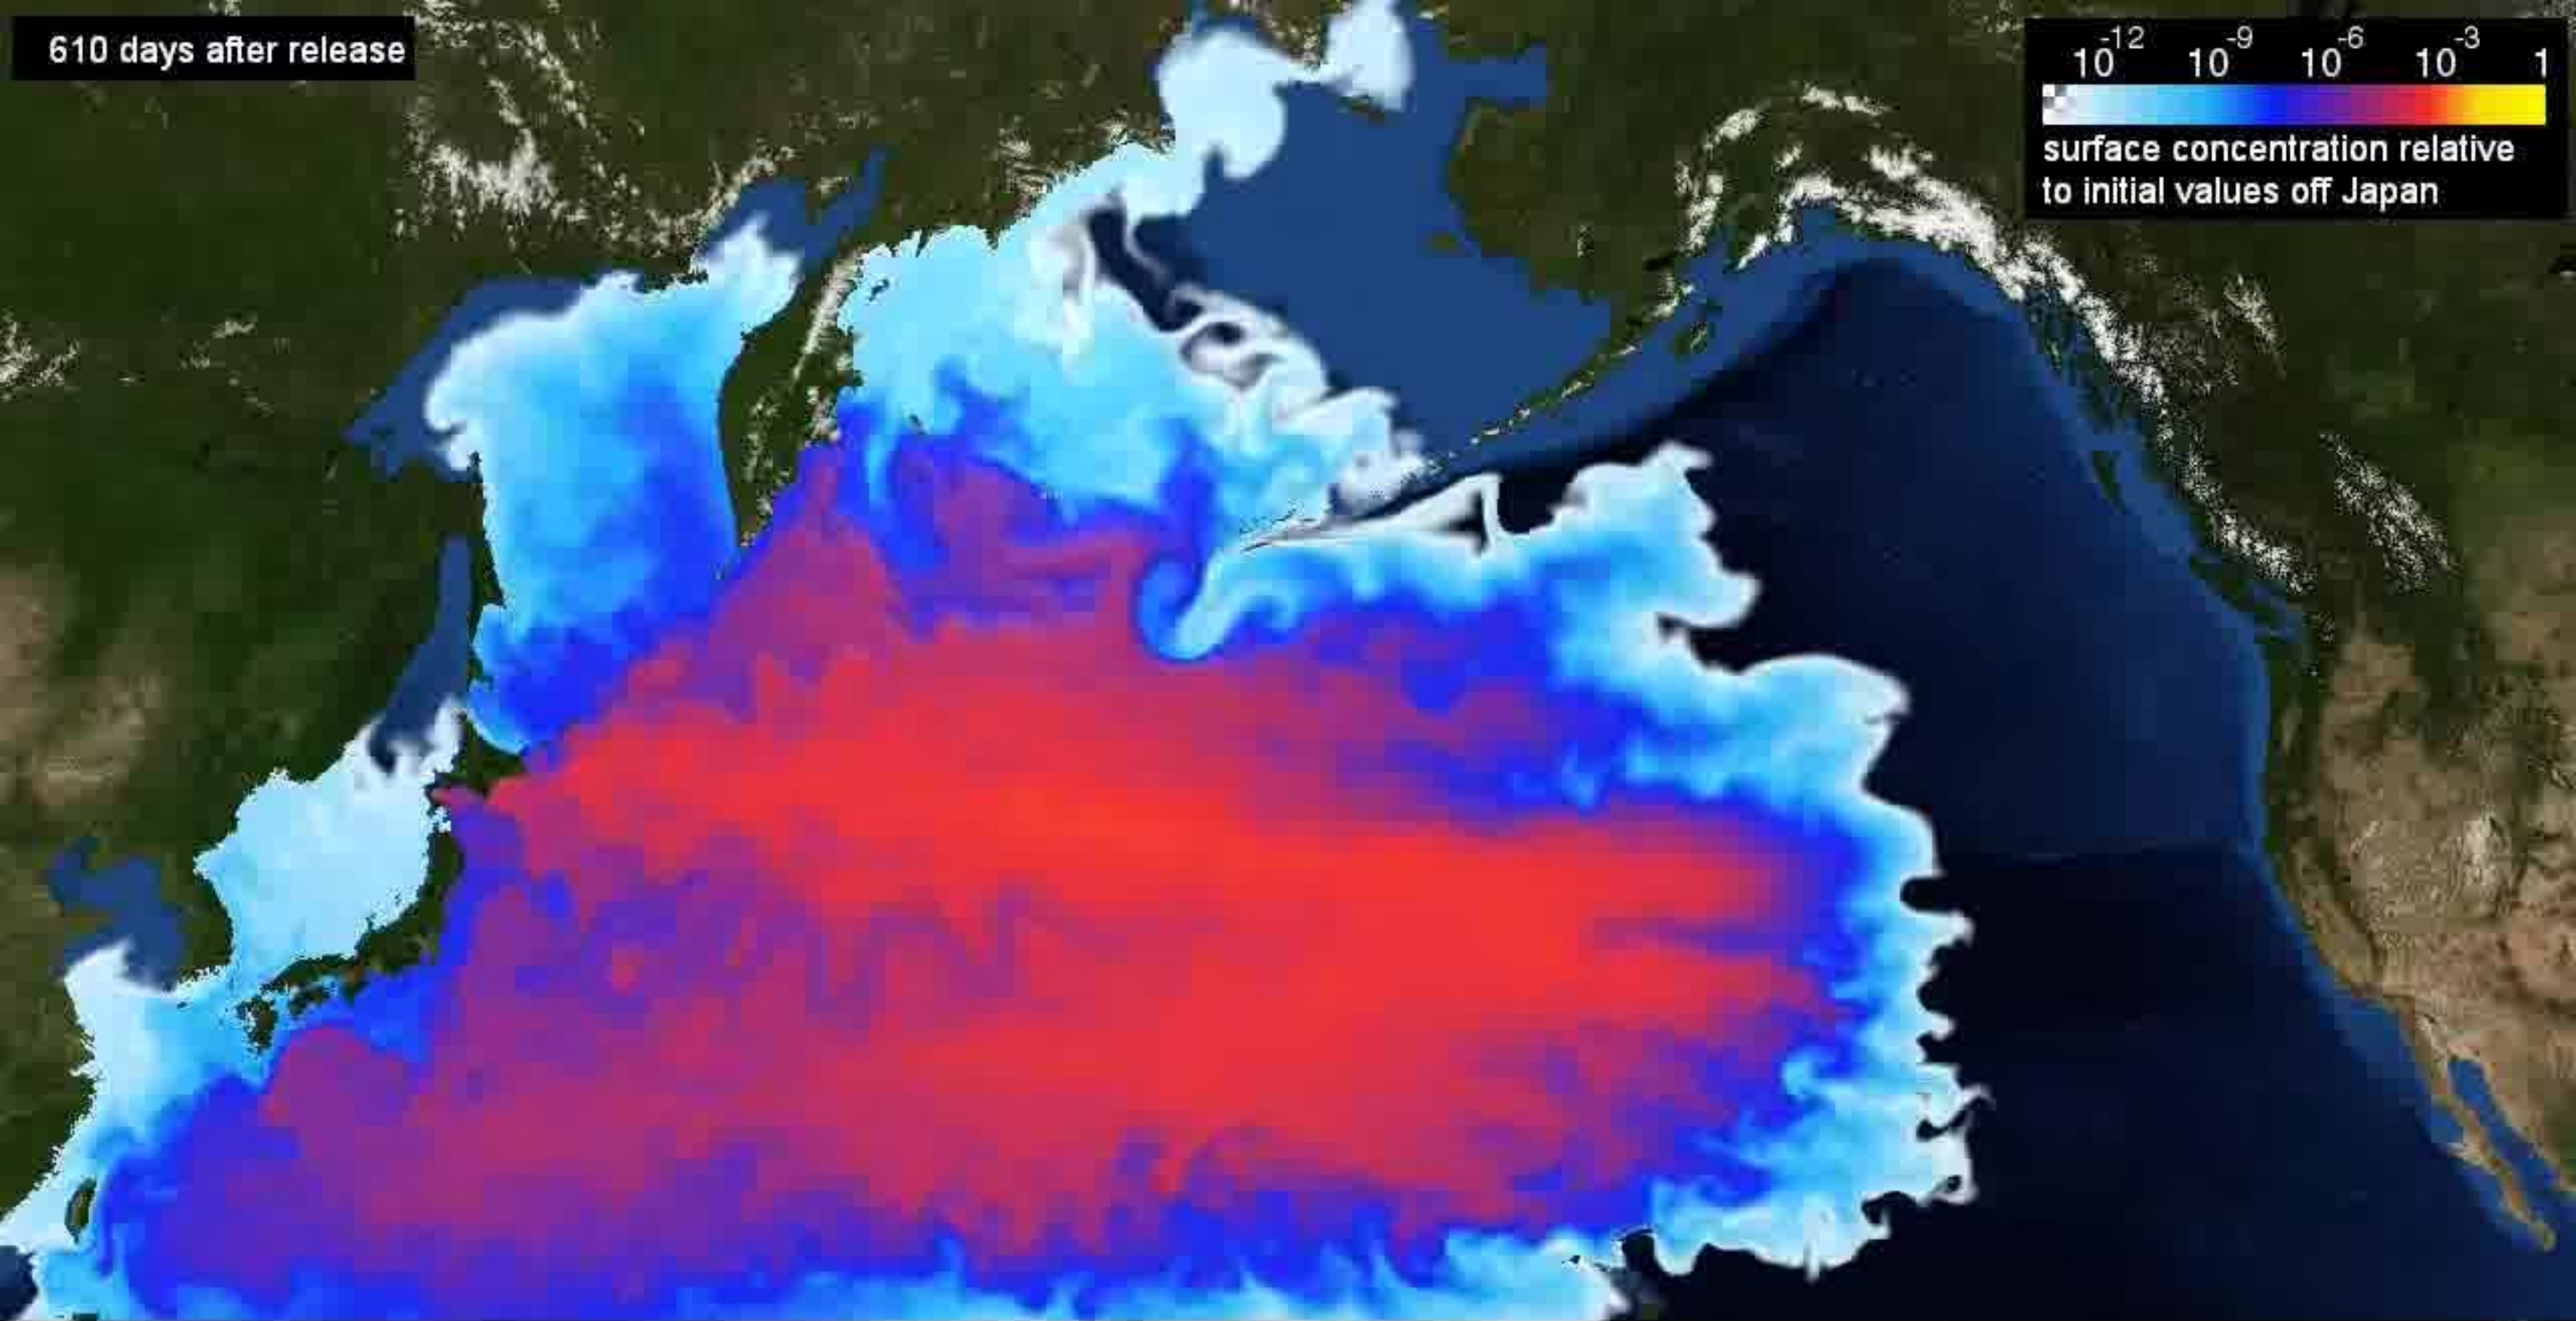

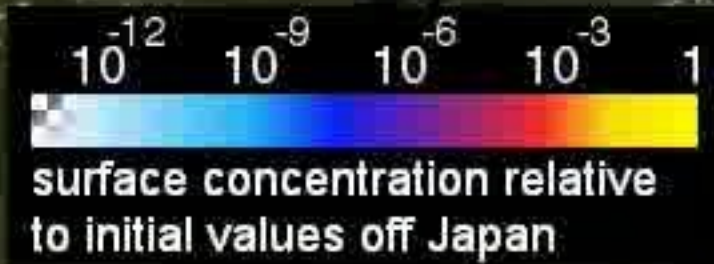

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

550 days after release

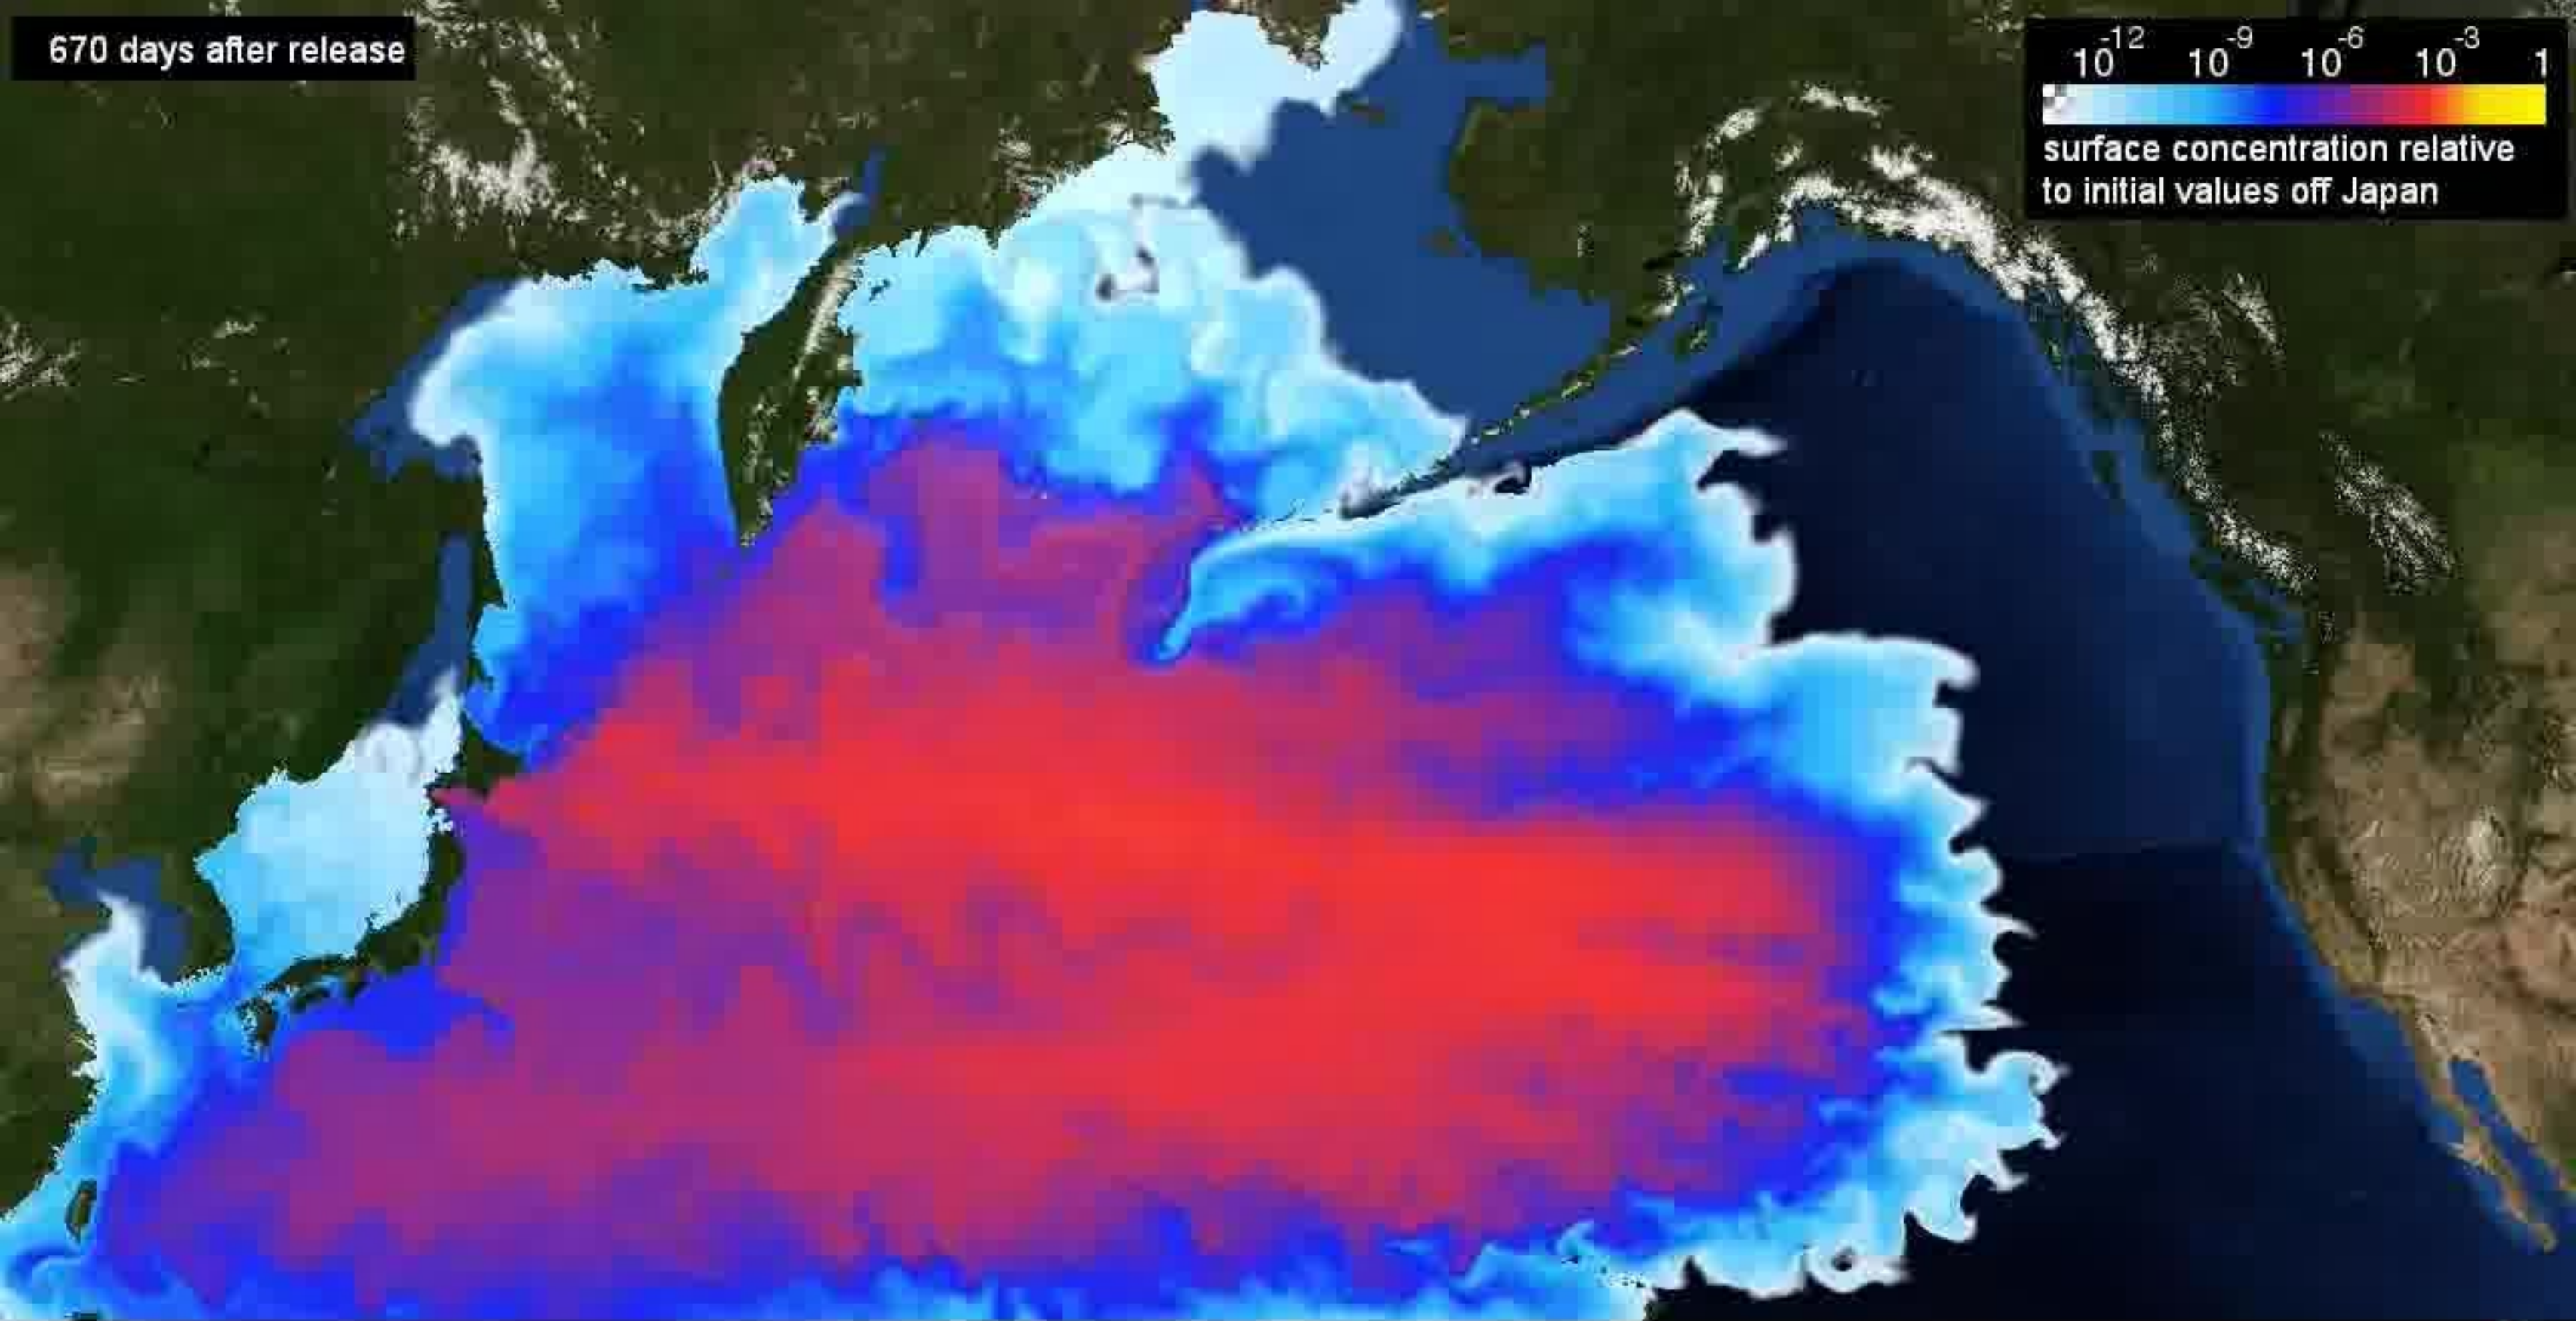

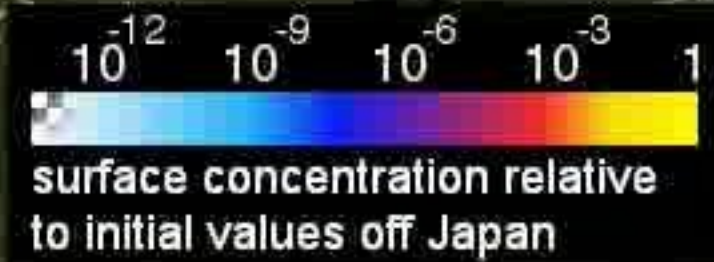

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

610 days after release

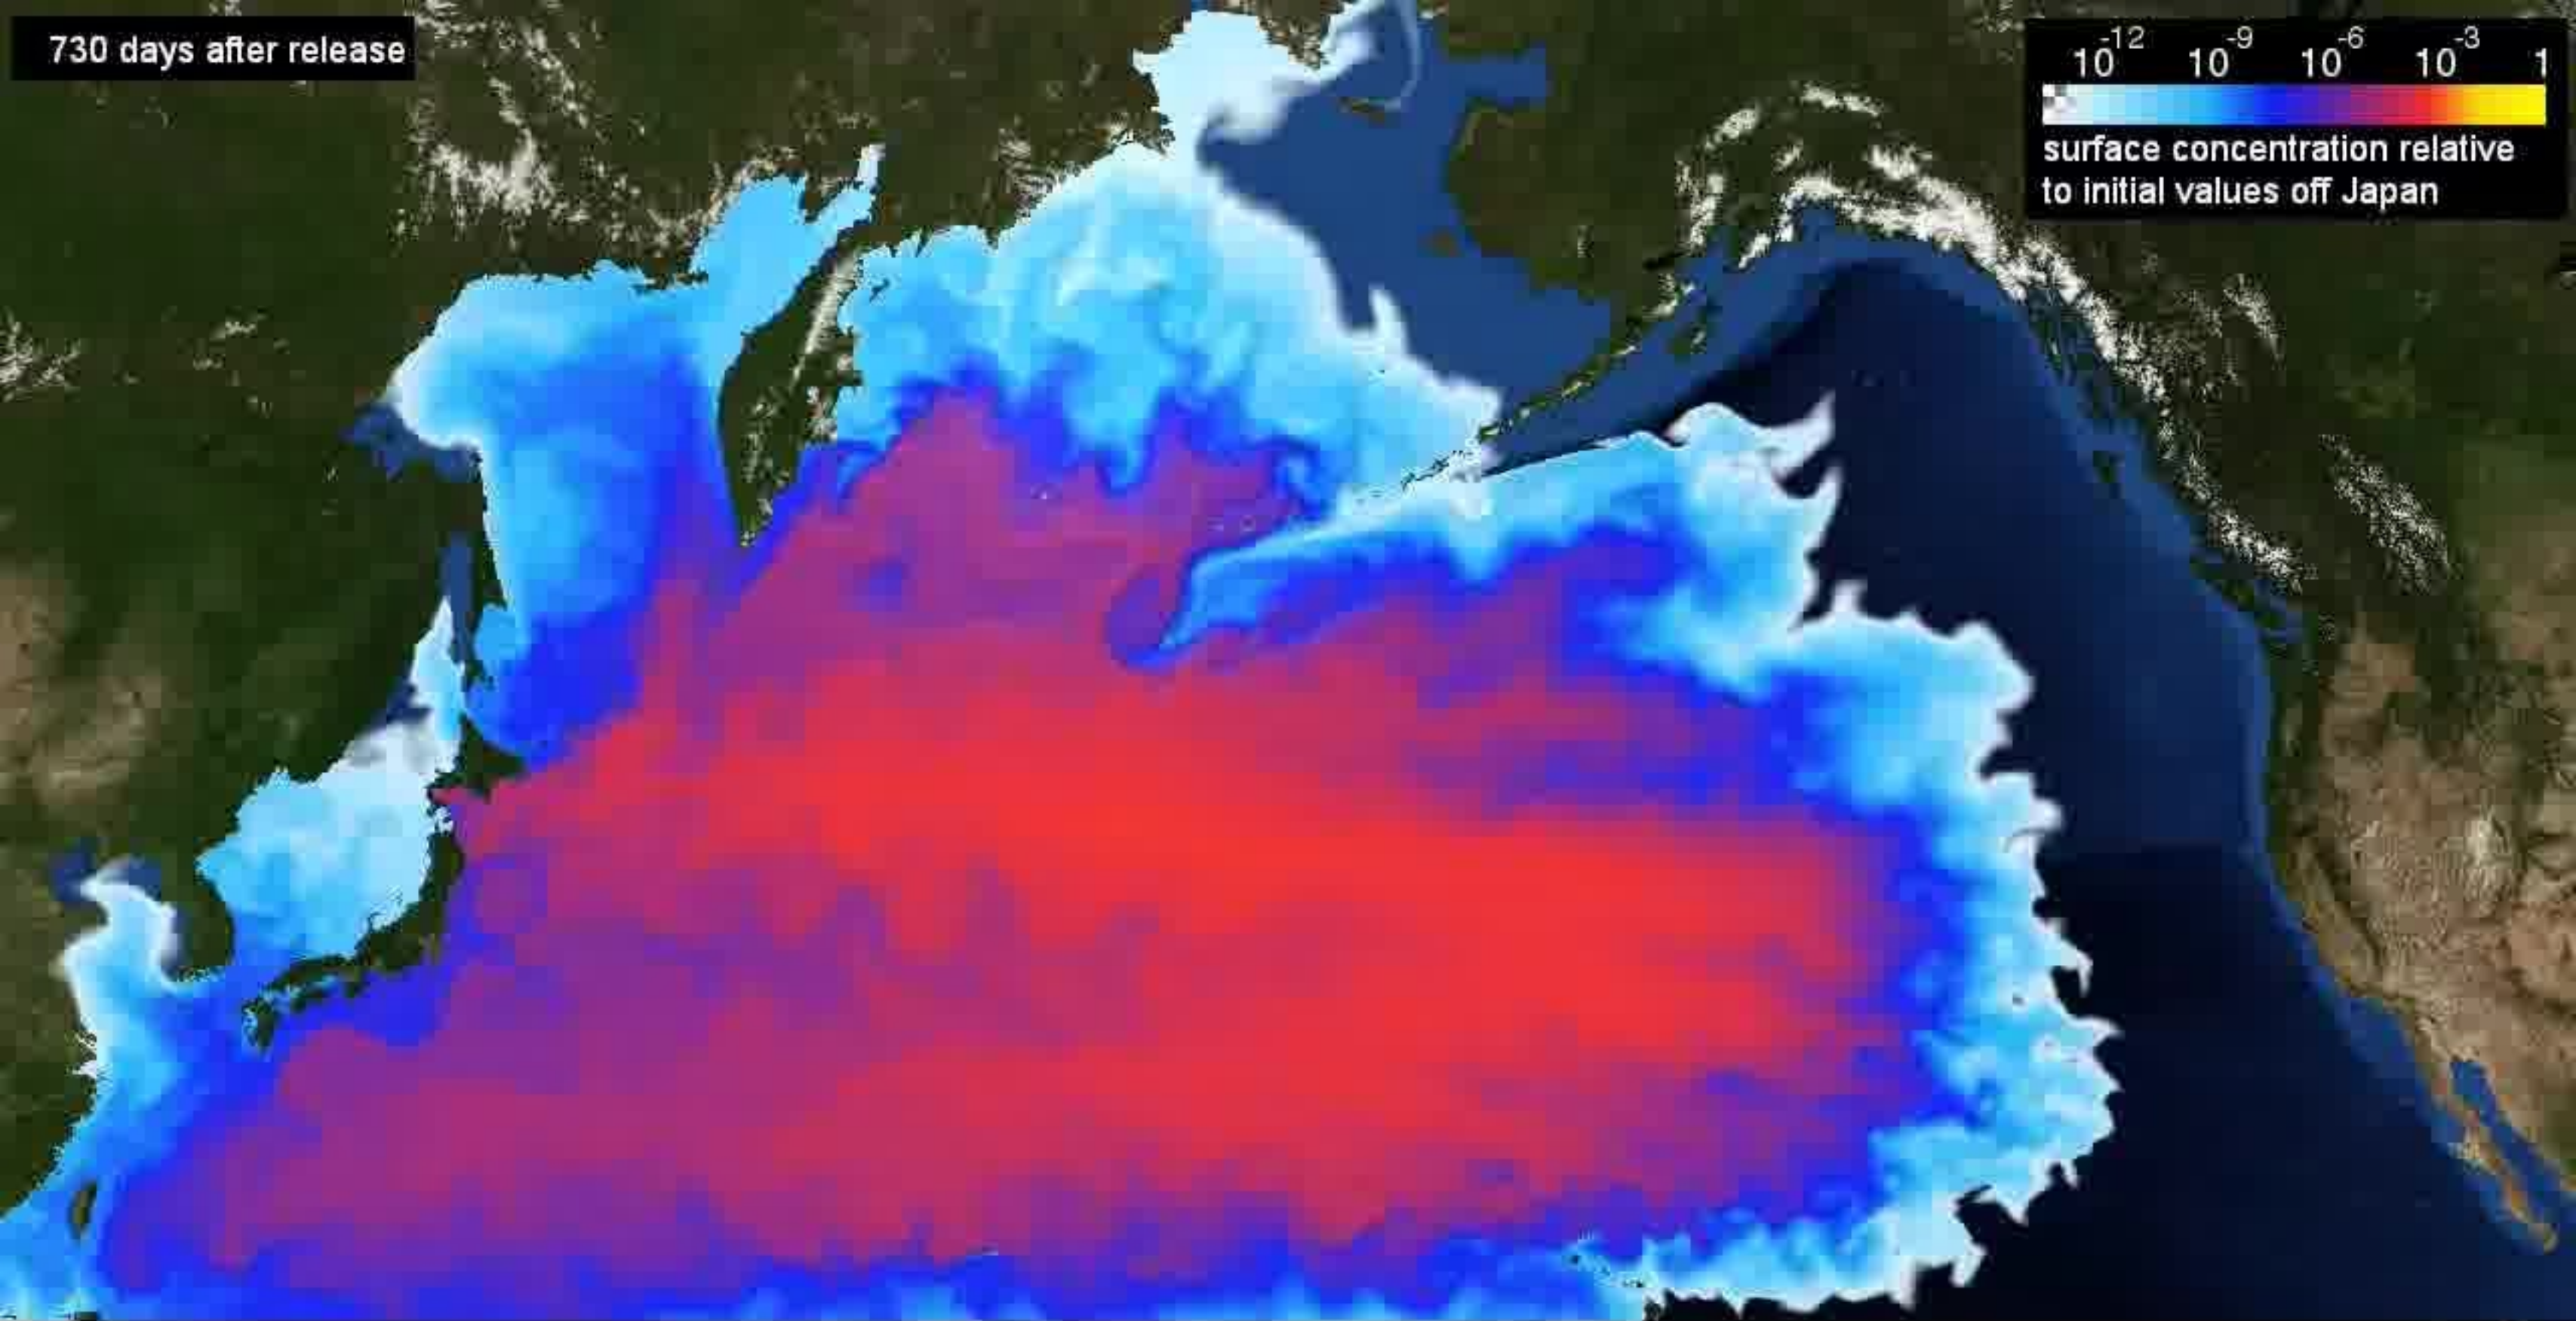

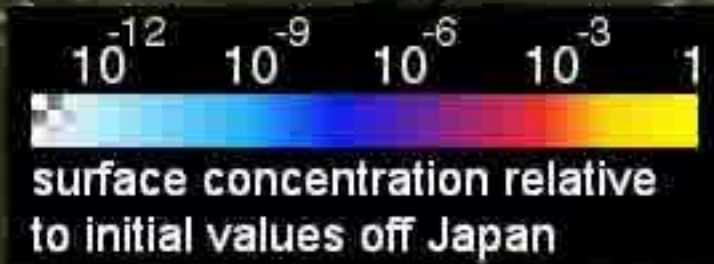

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

670 days after release

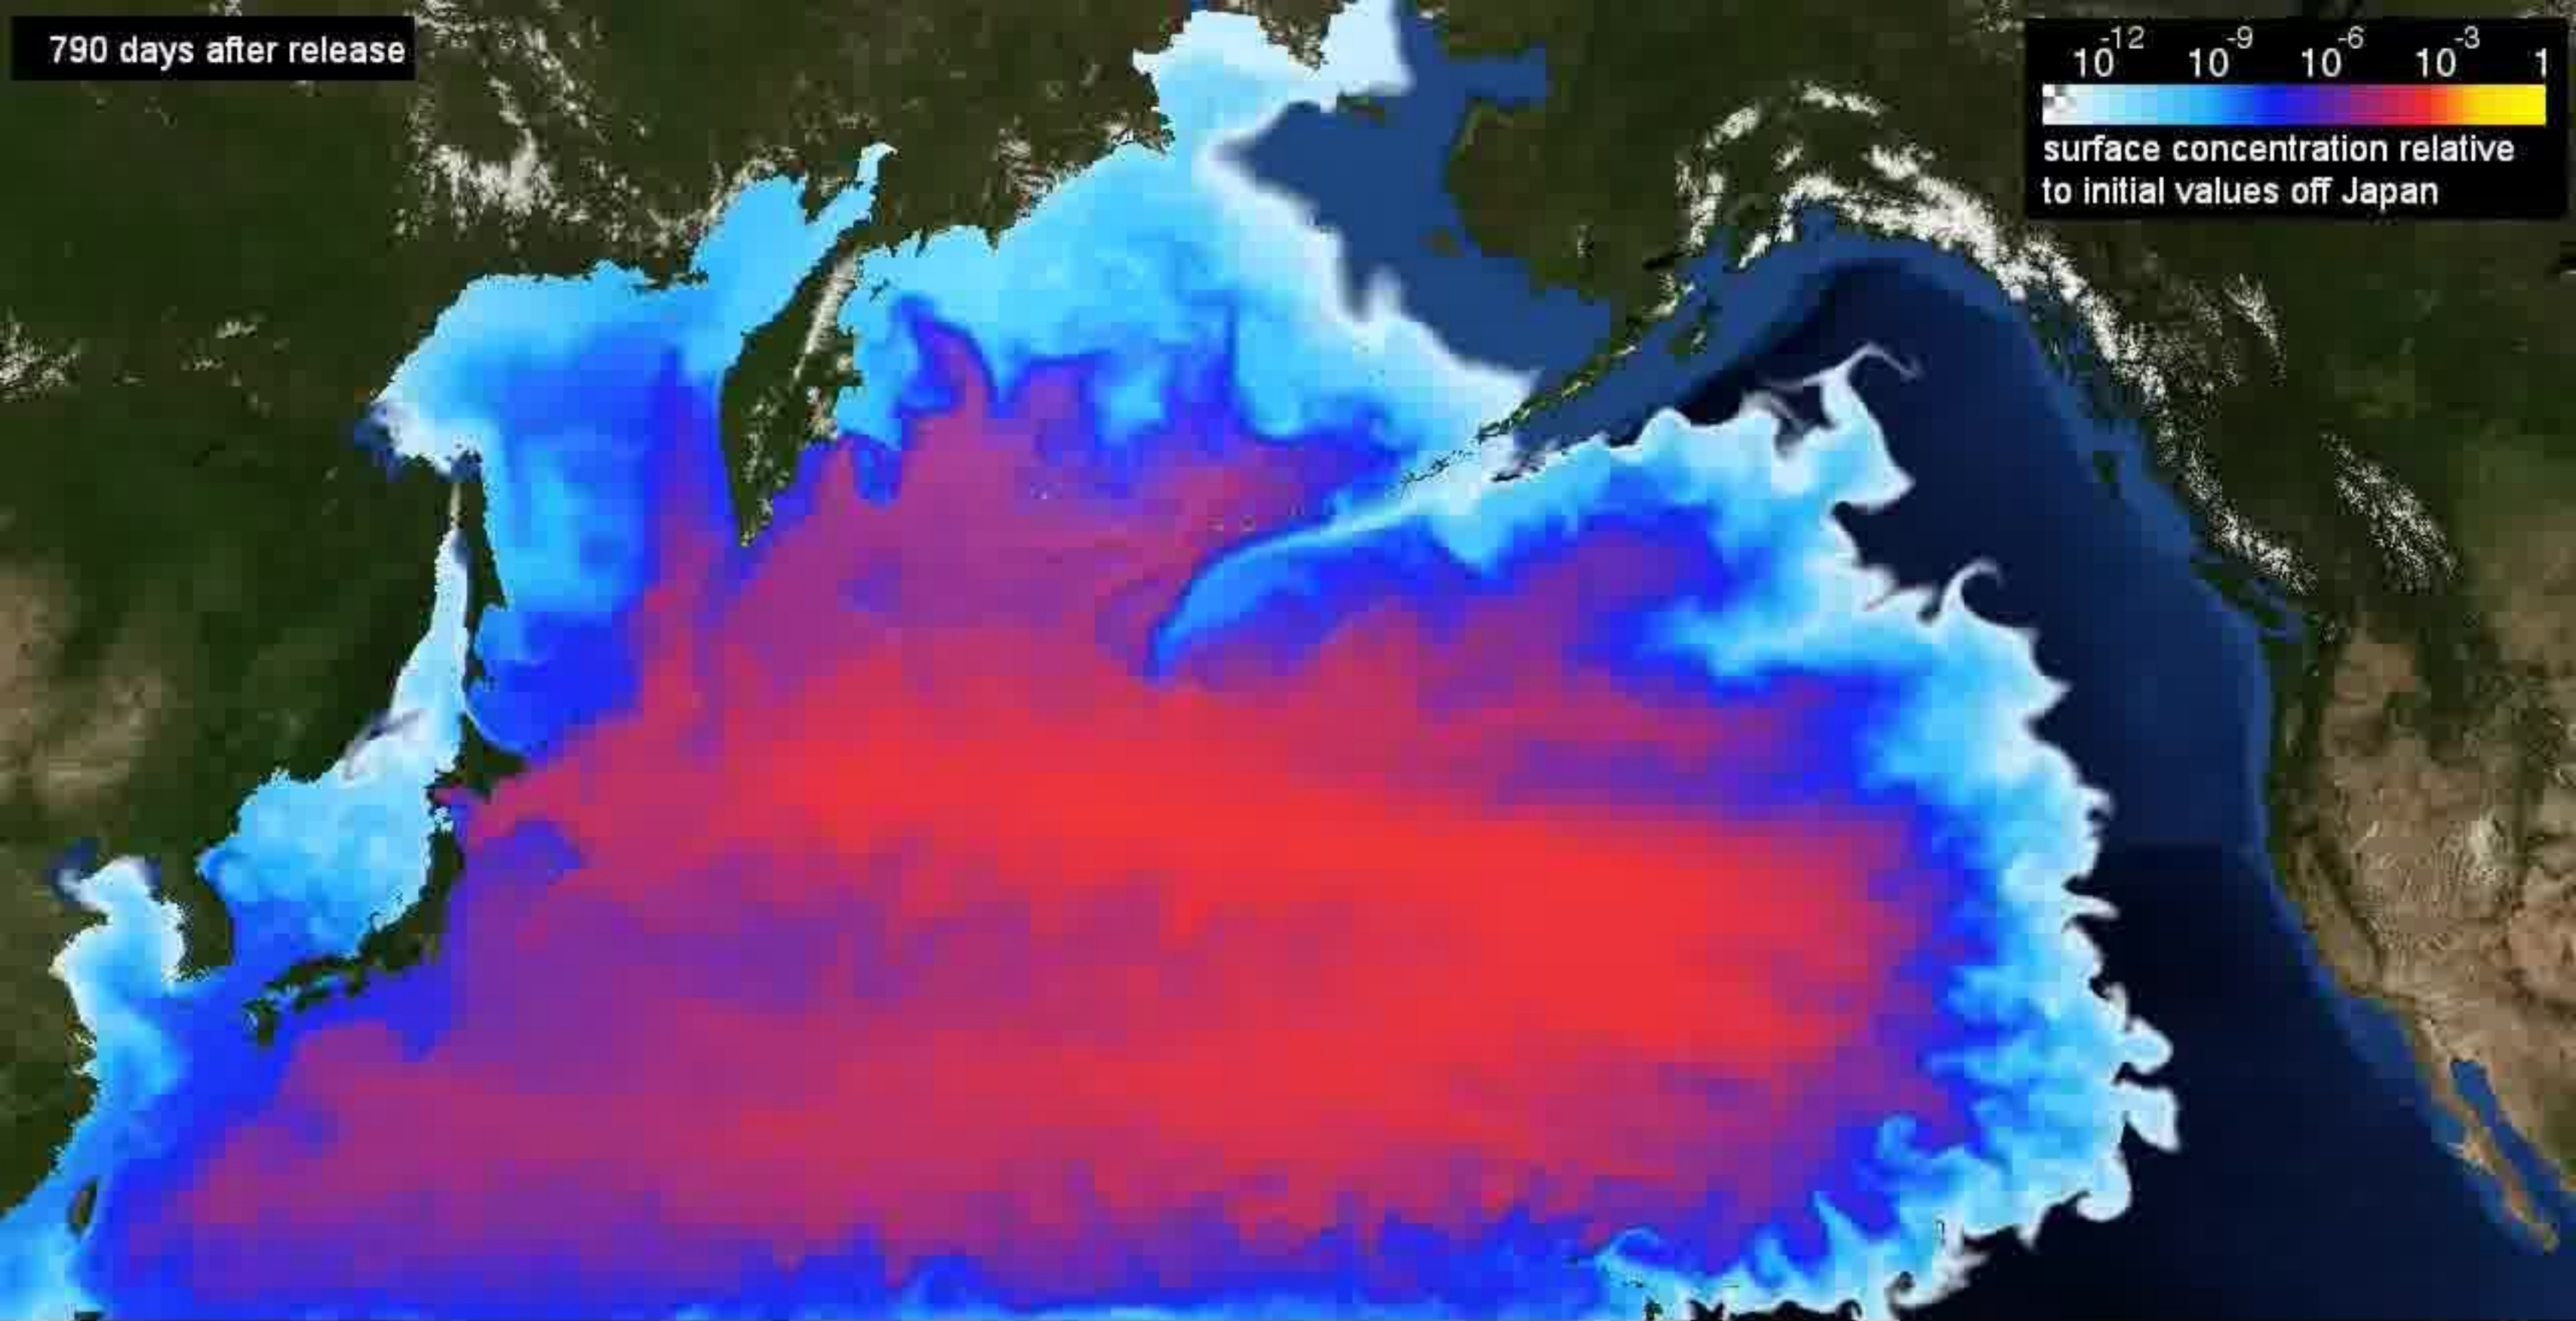

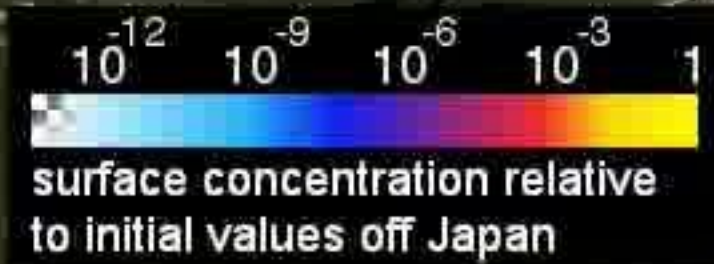

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

730 days after release

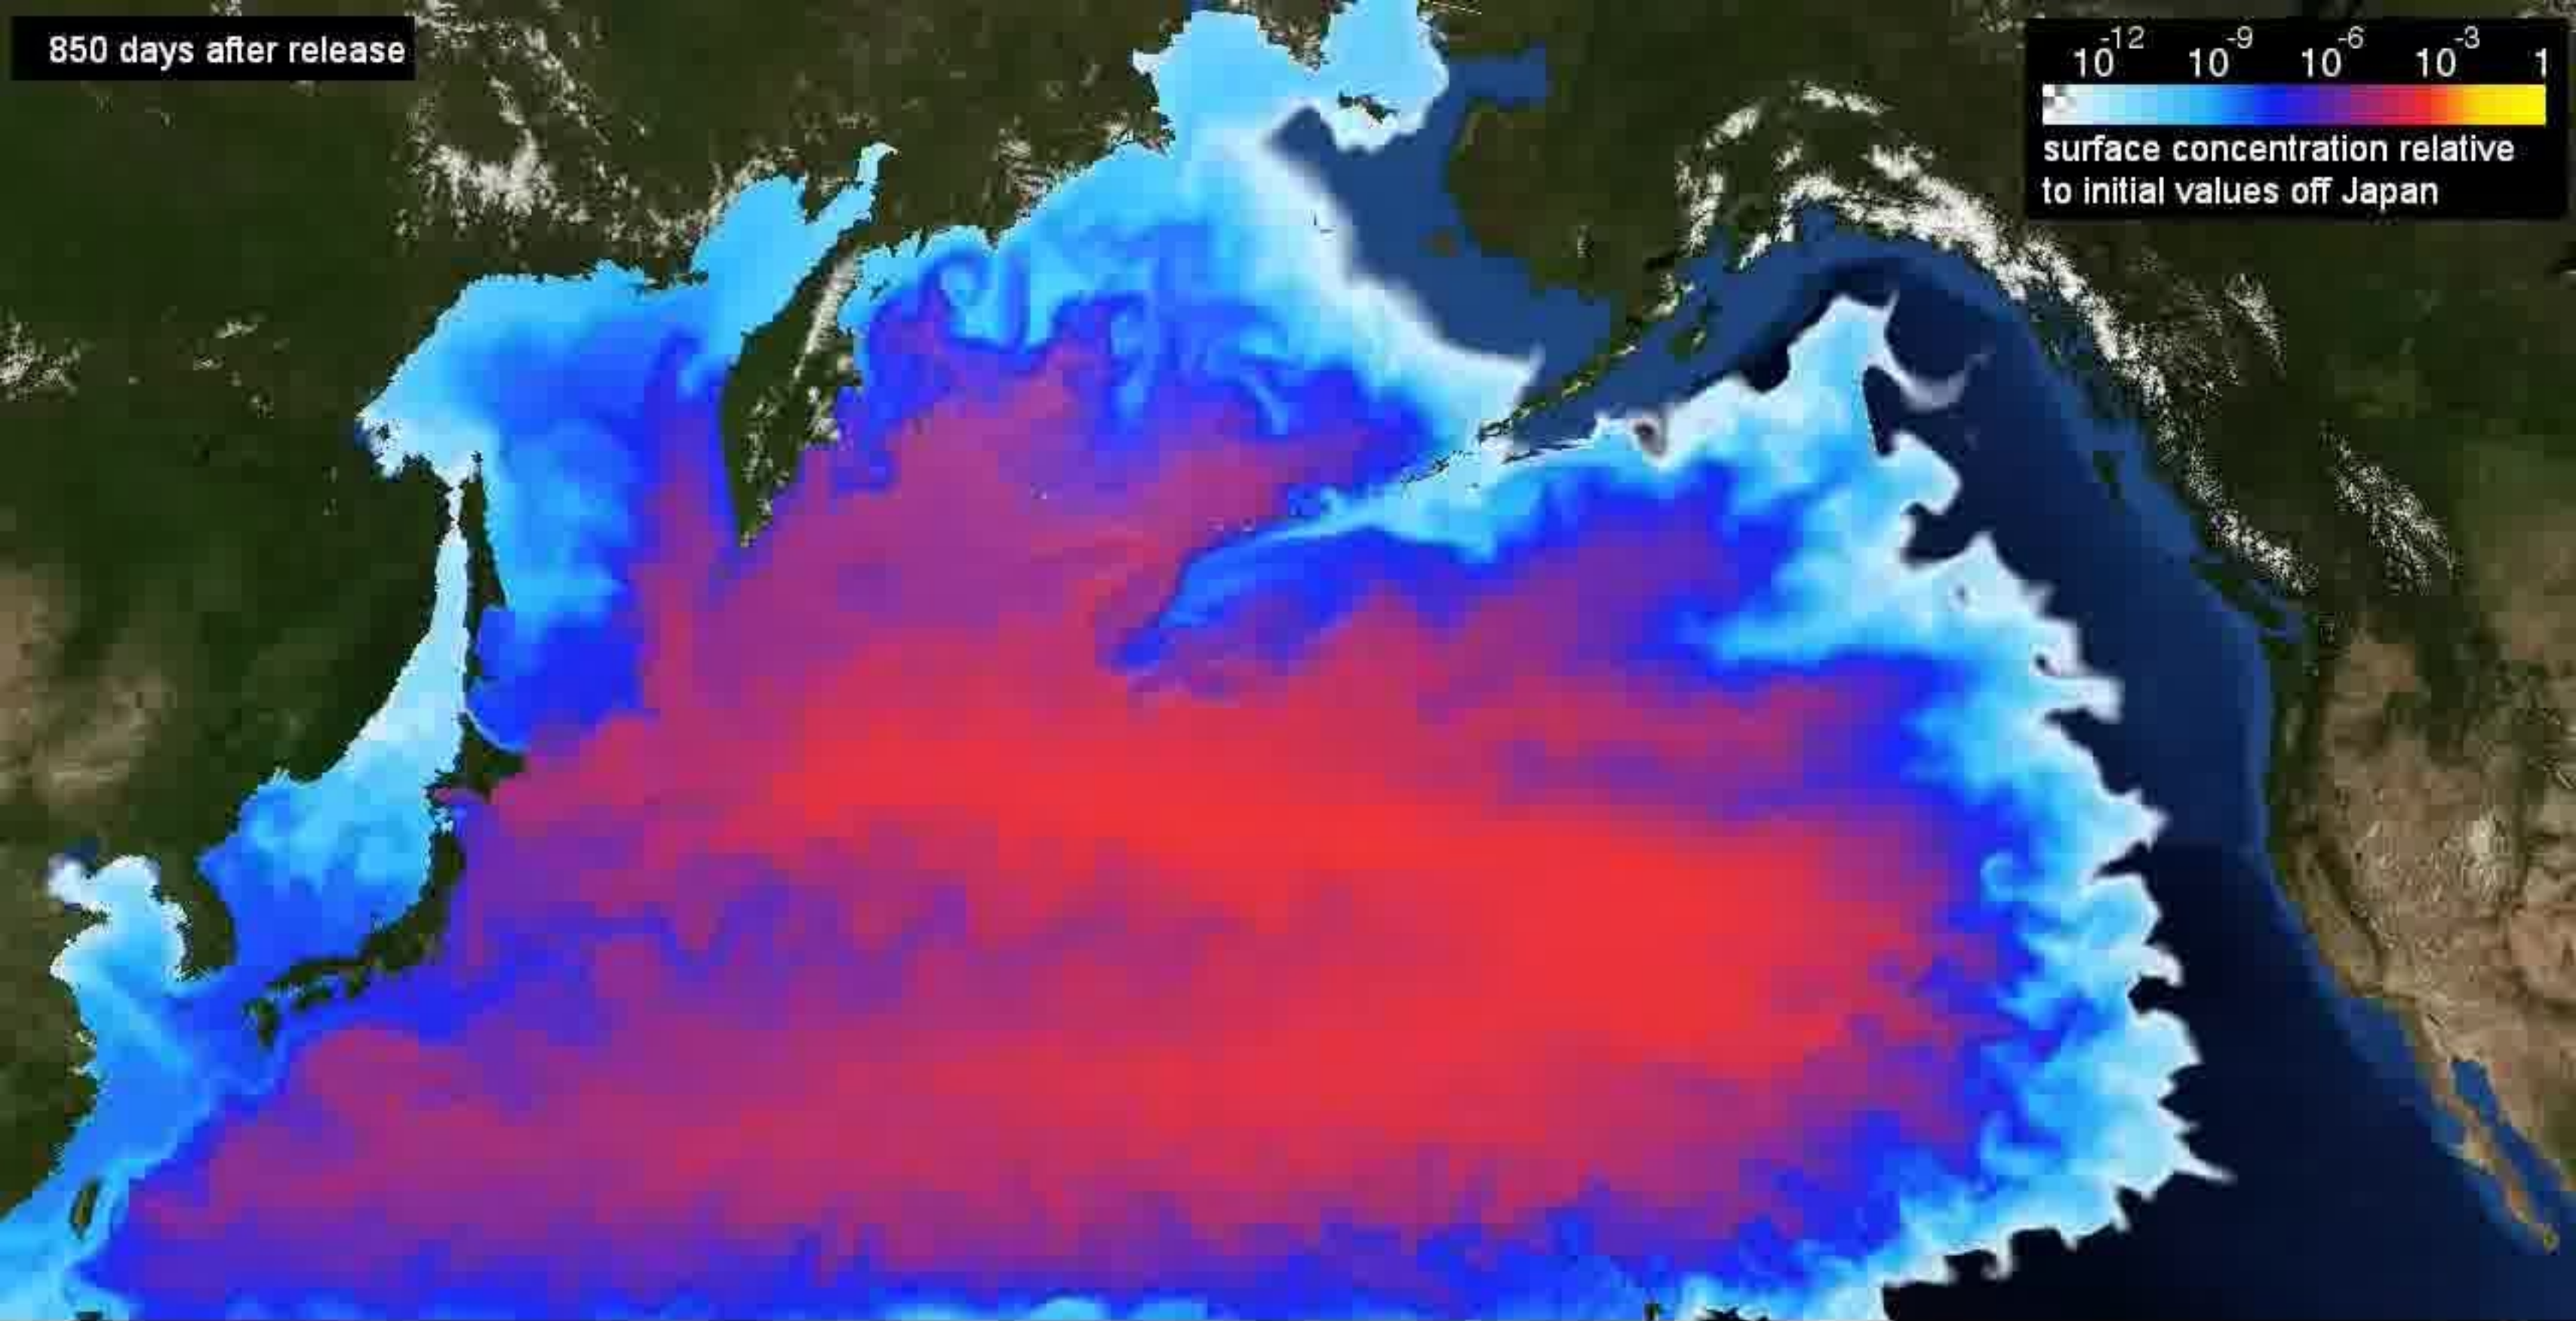

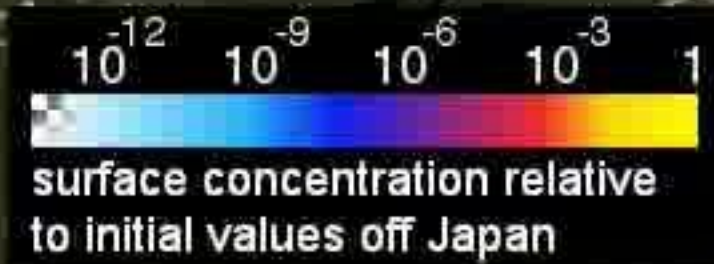

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

790 days after release

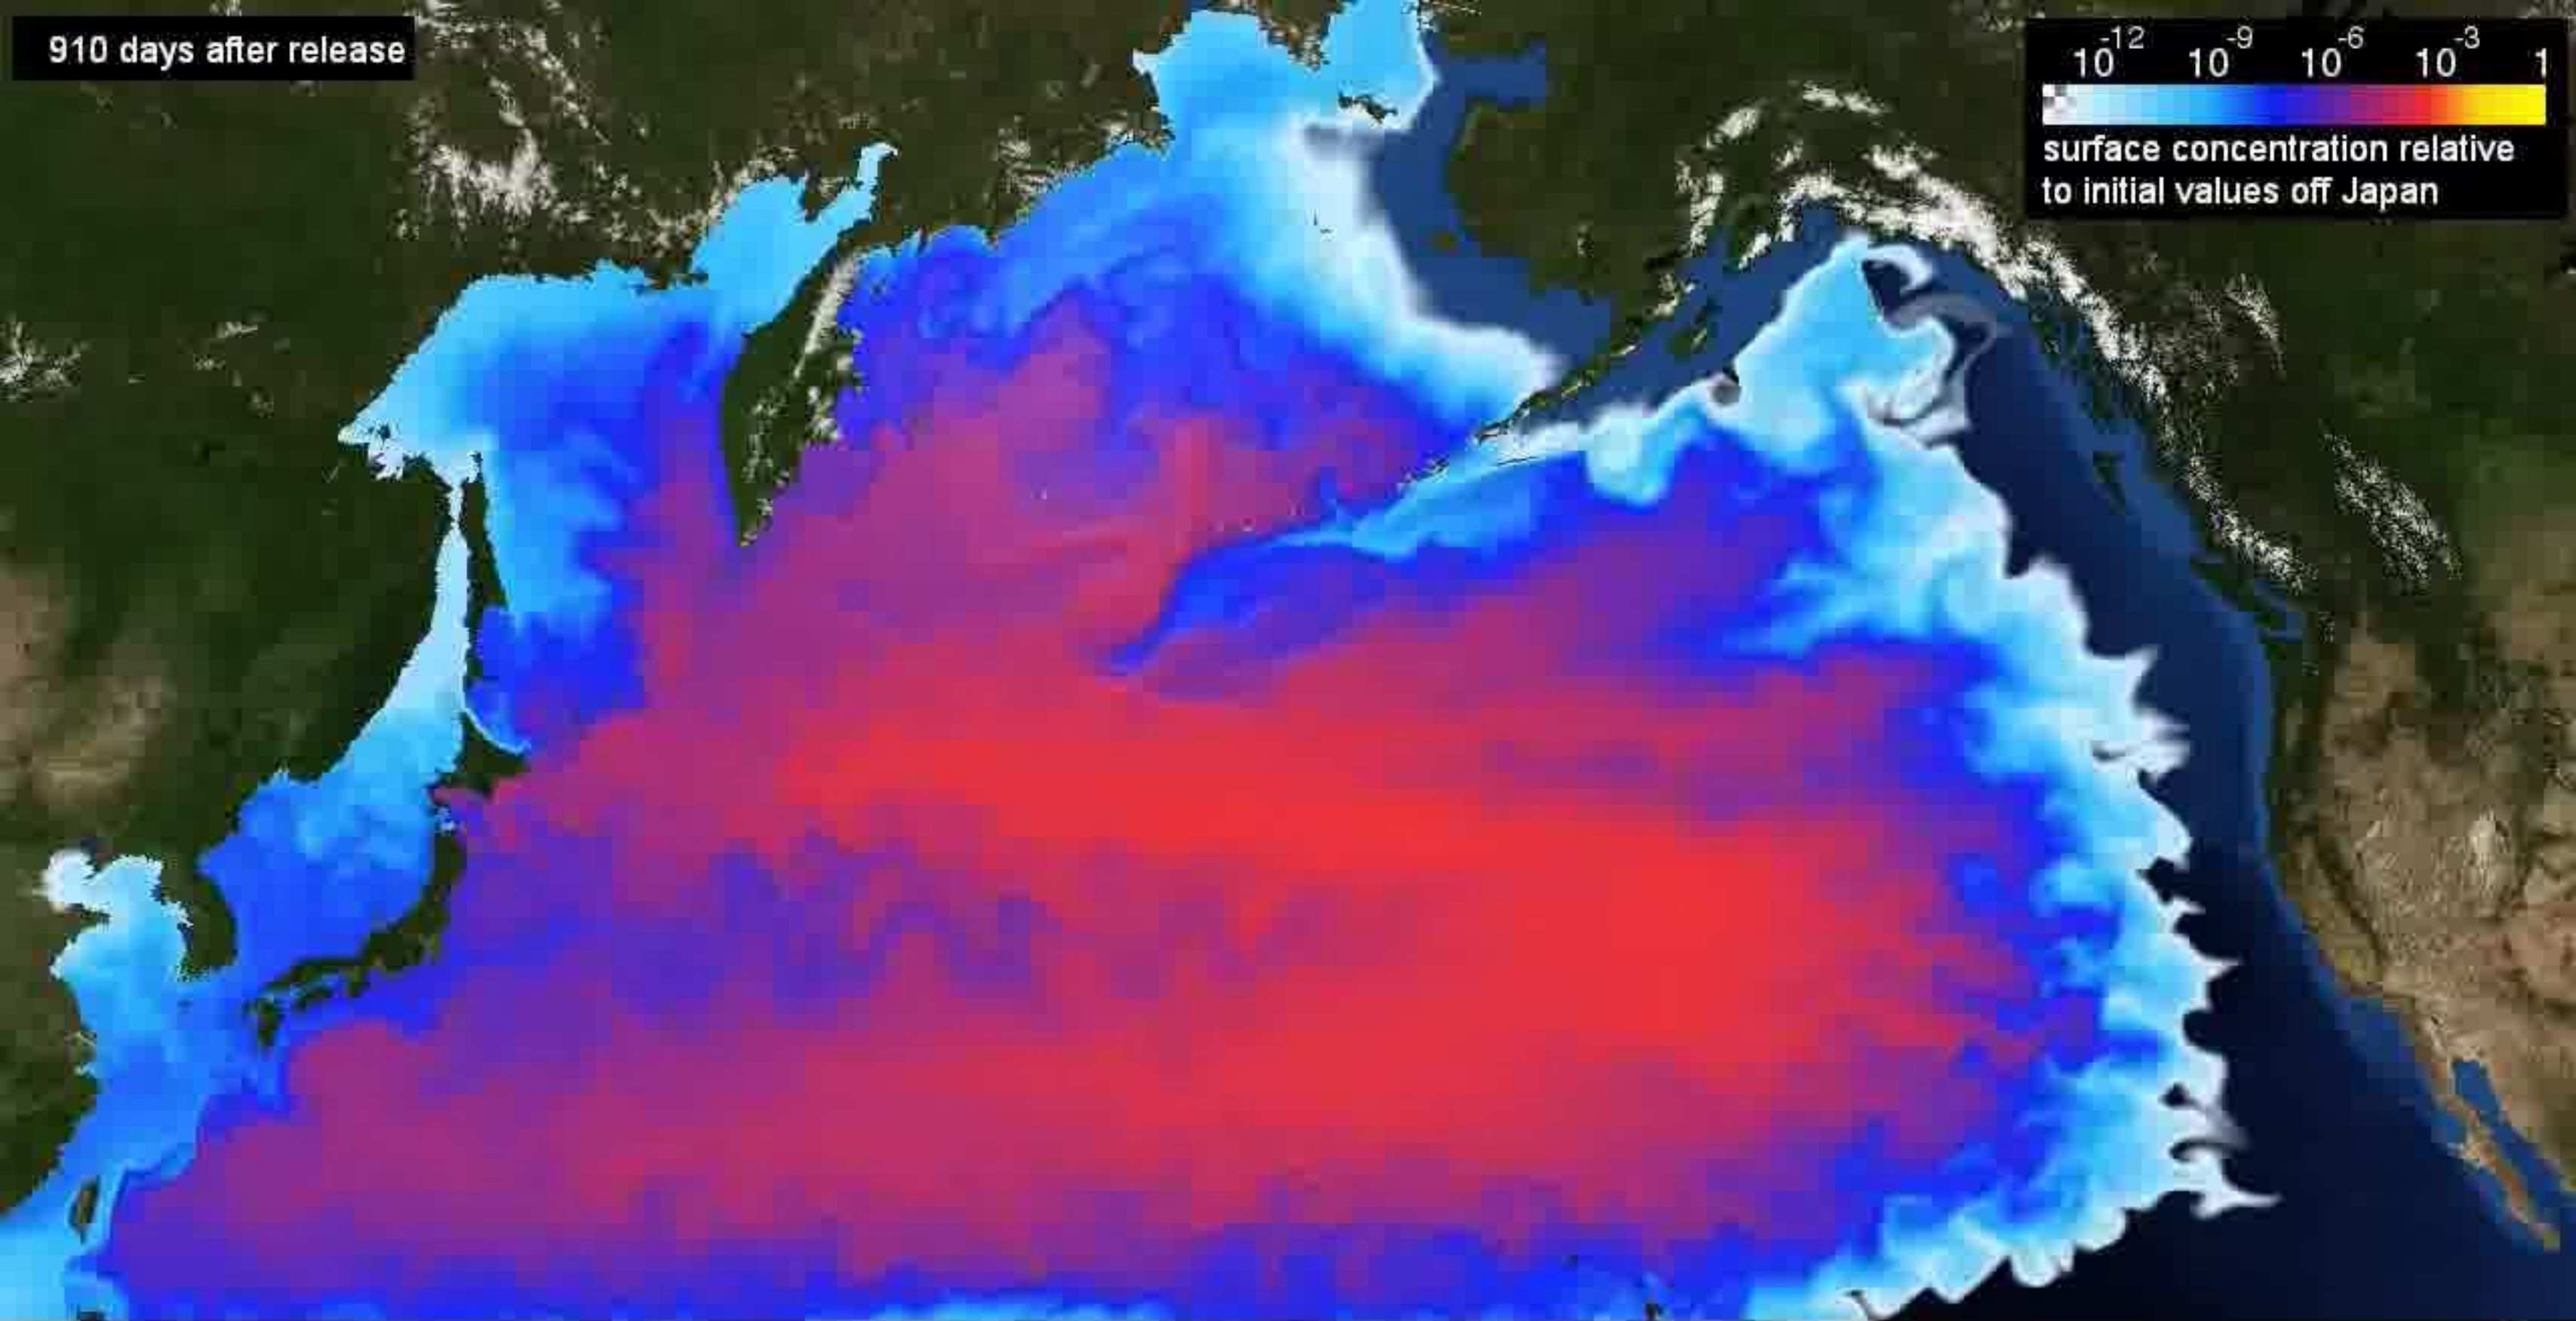

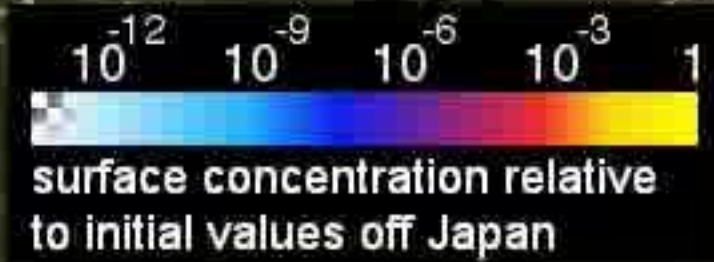

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

850 days after release

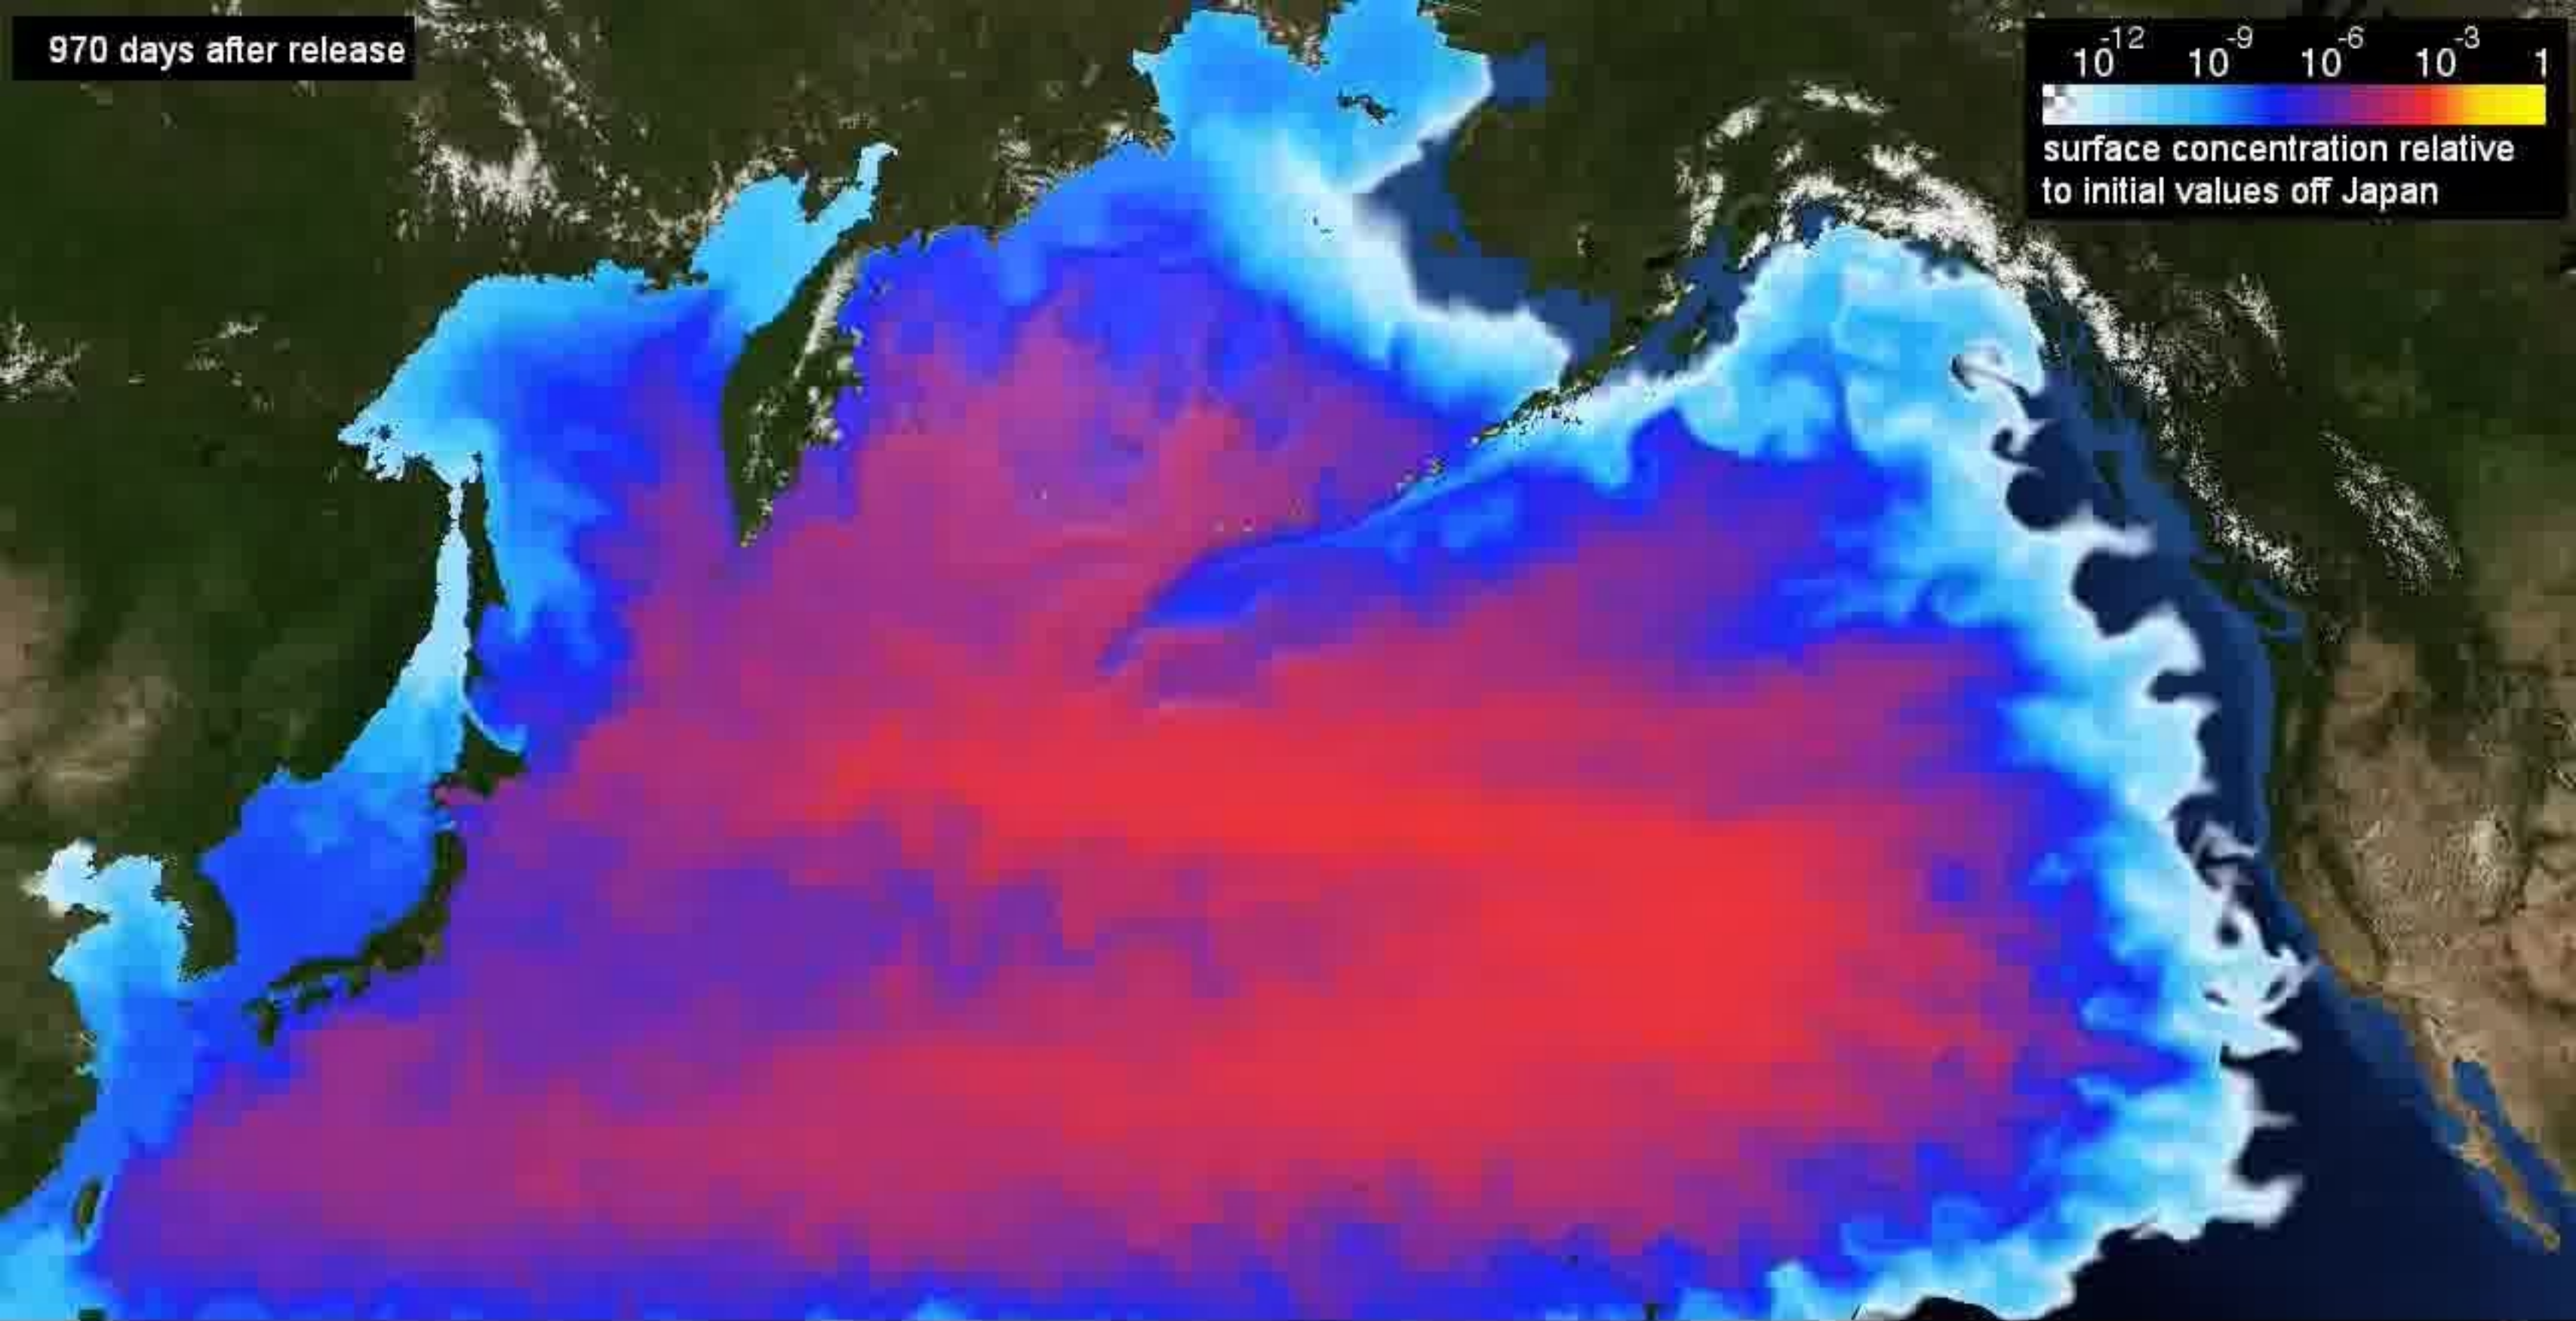

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

910 days after release

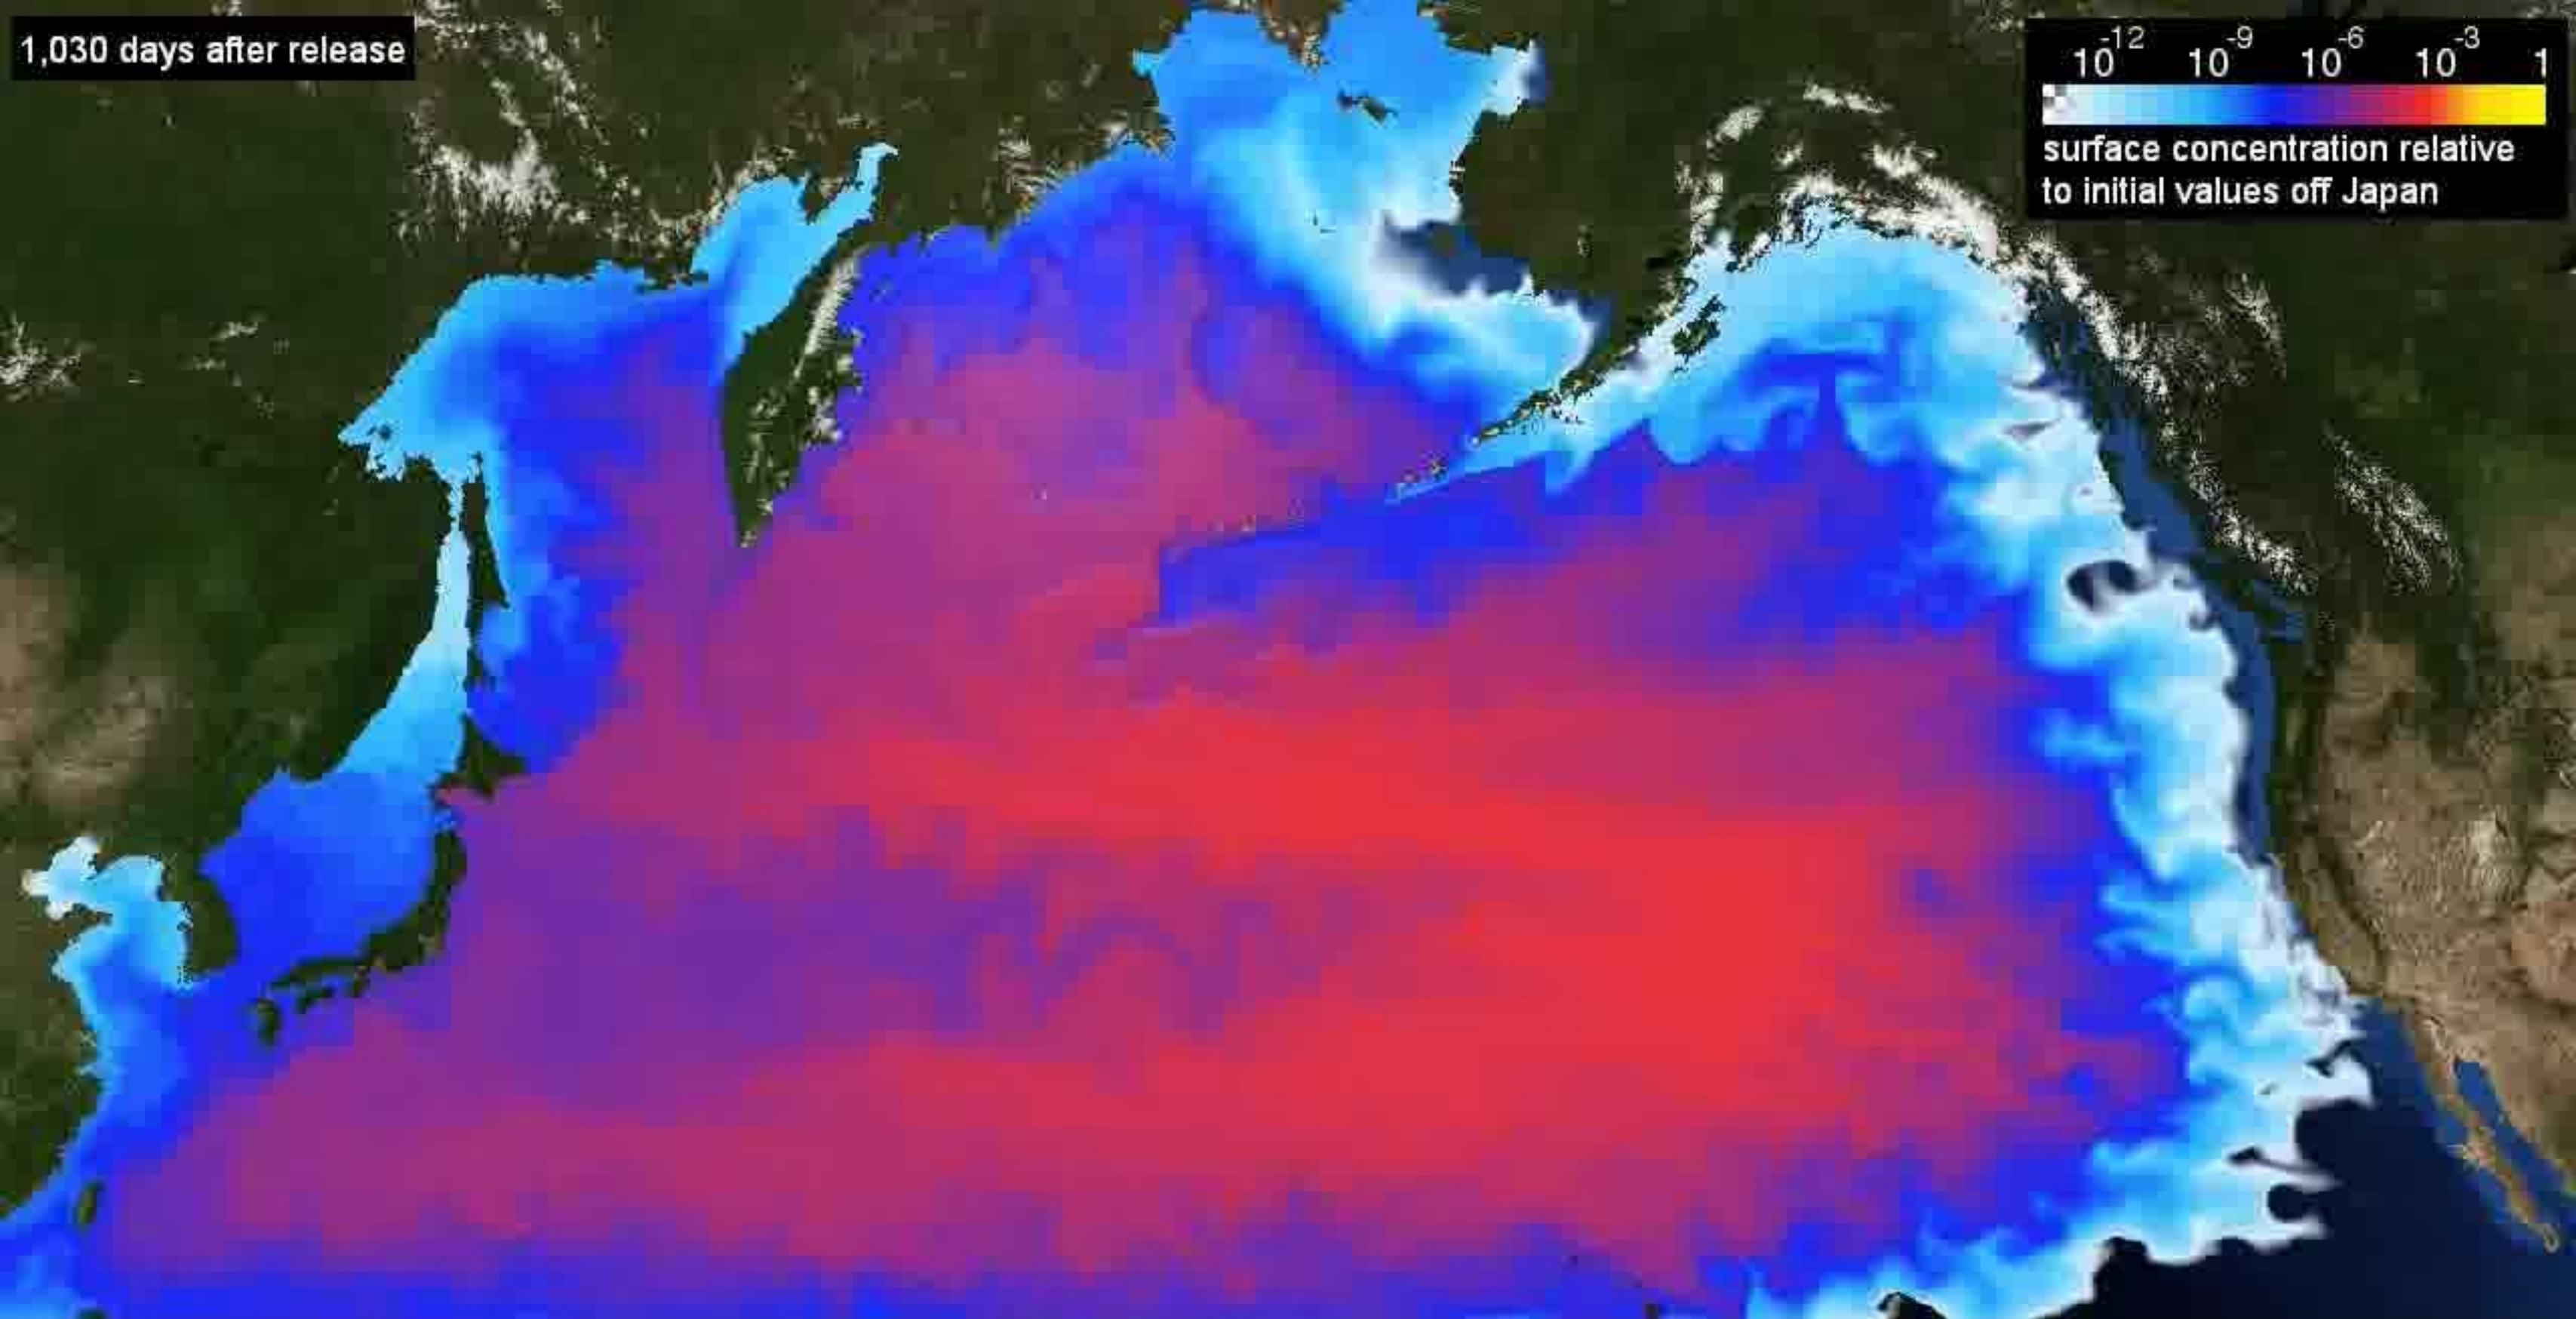

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

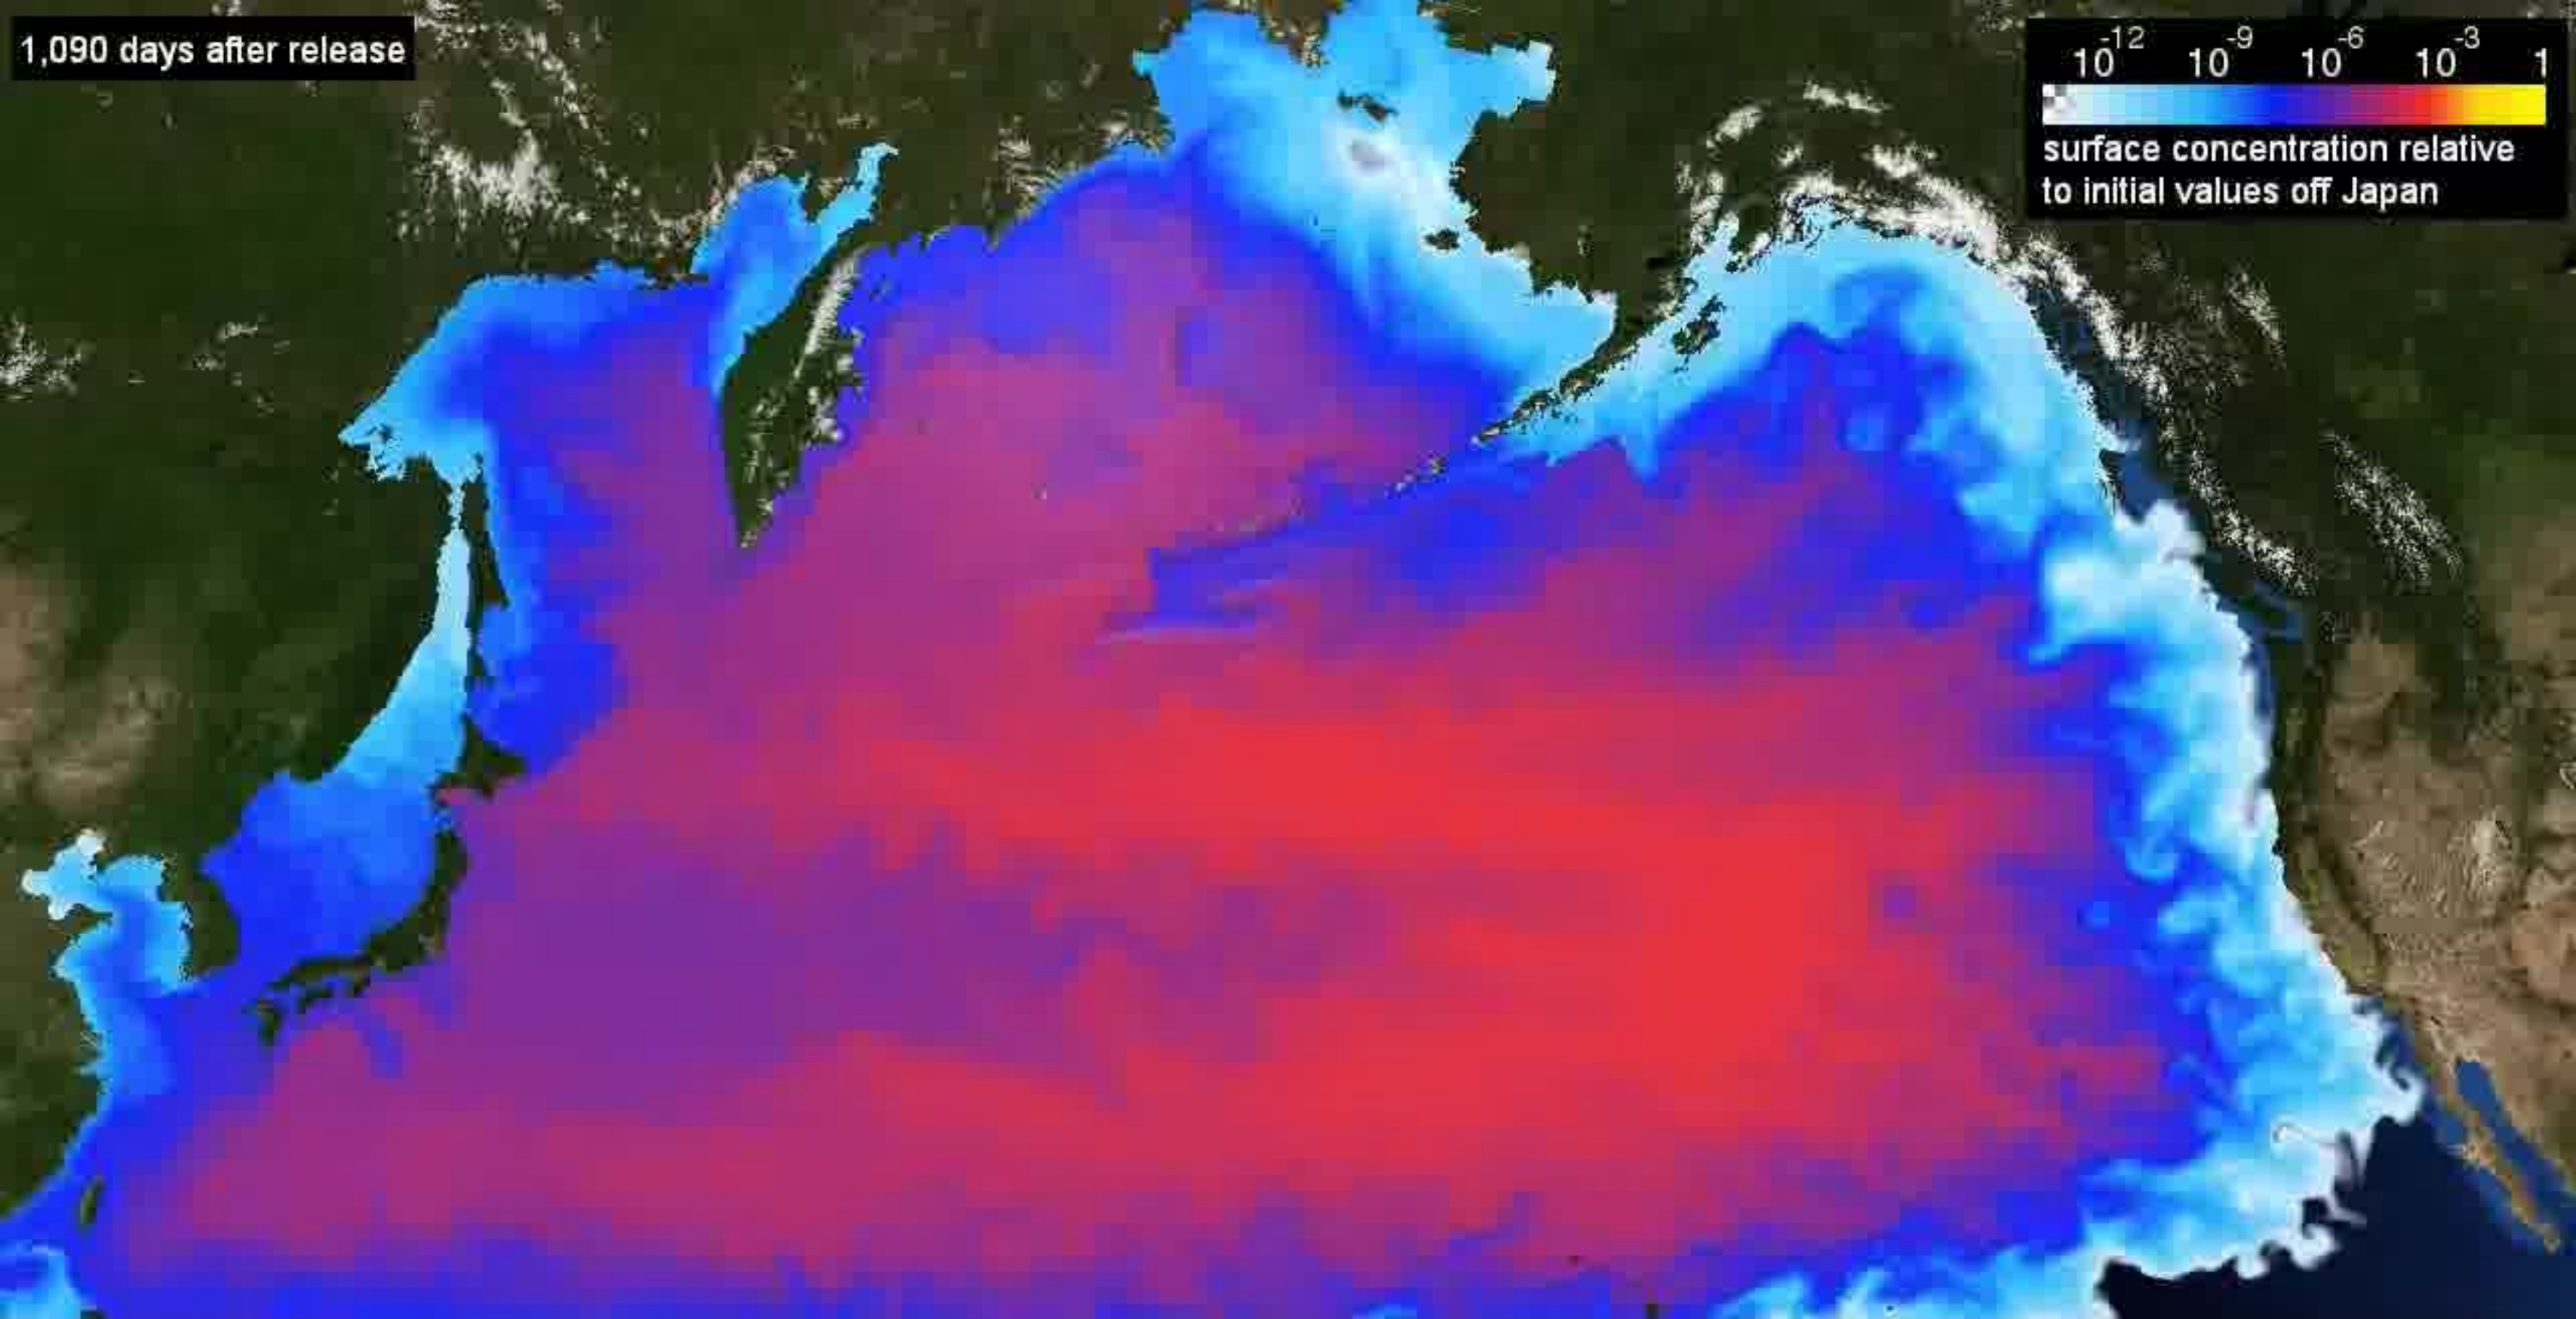

970 days after release

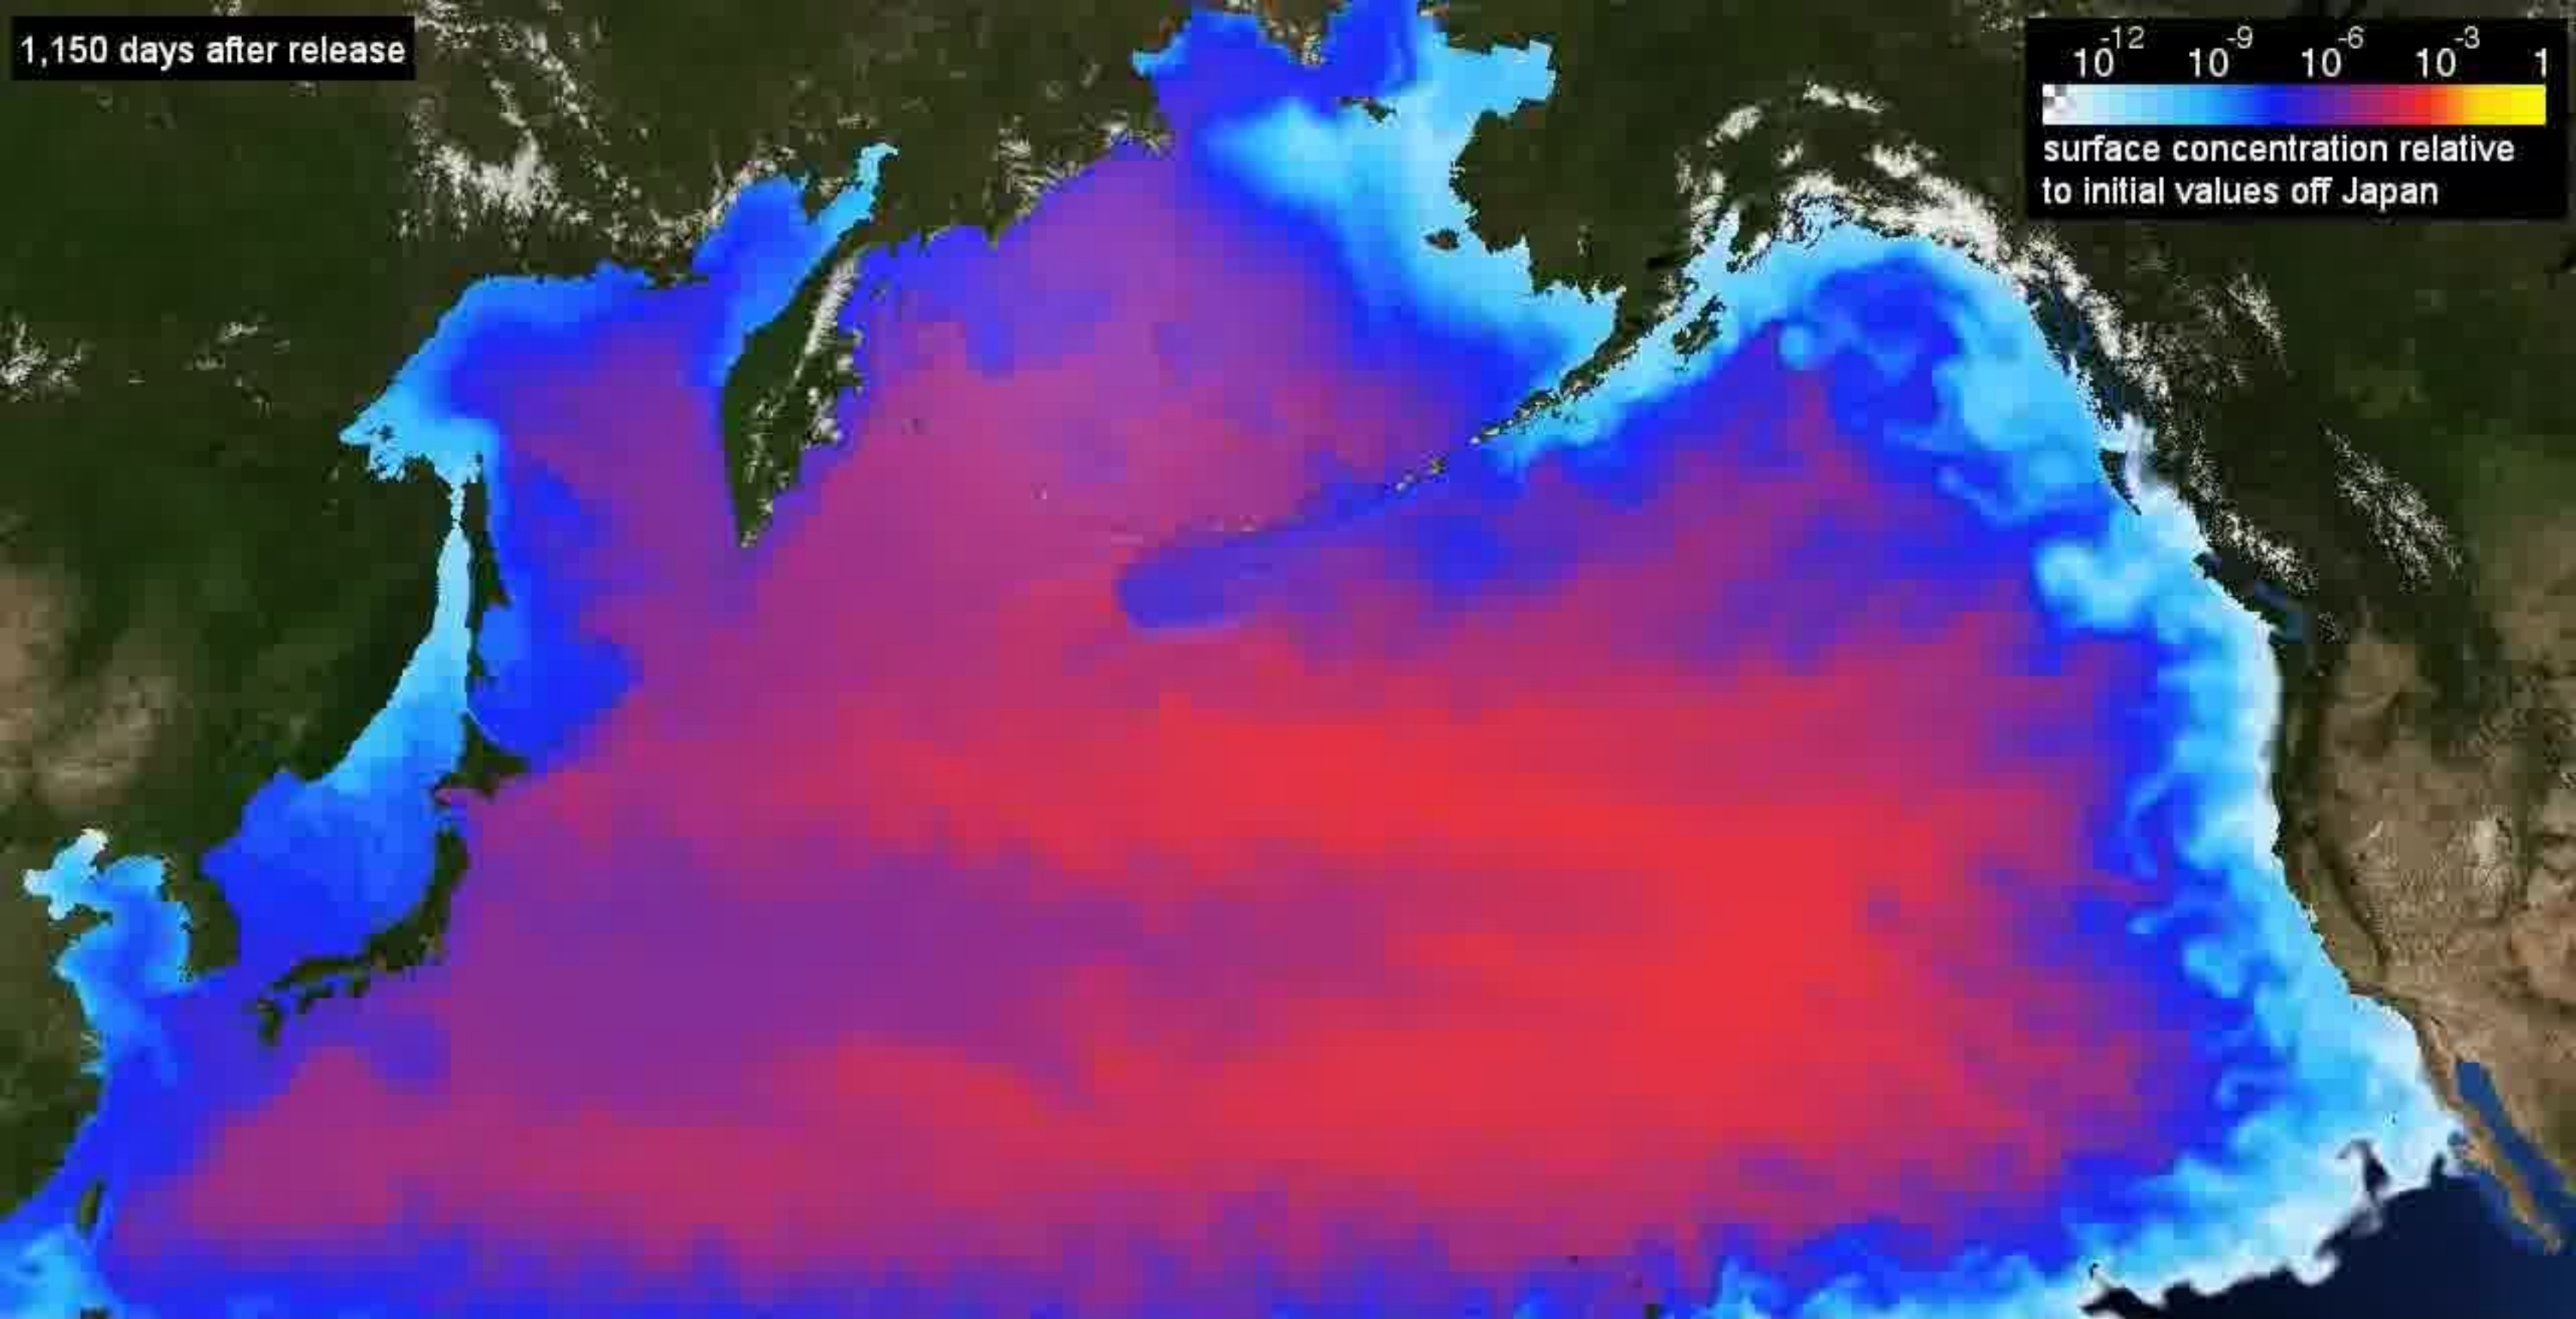

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

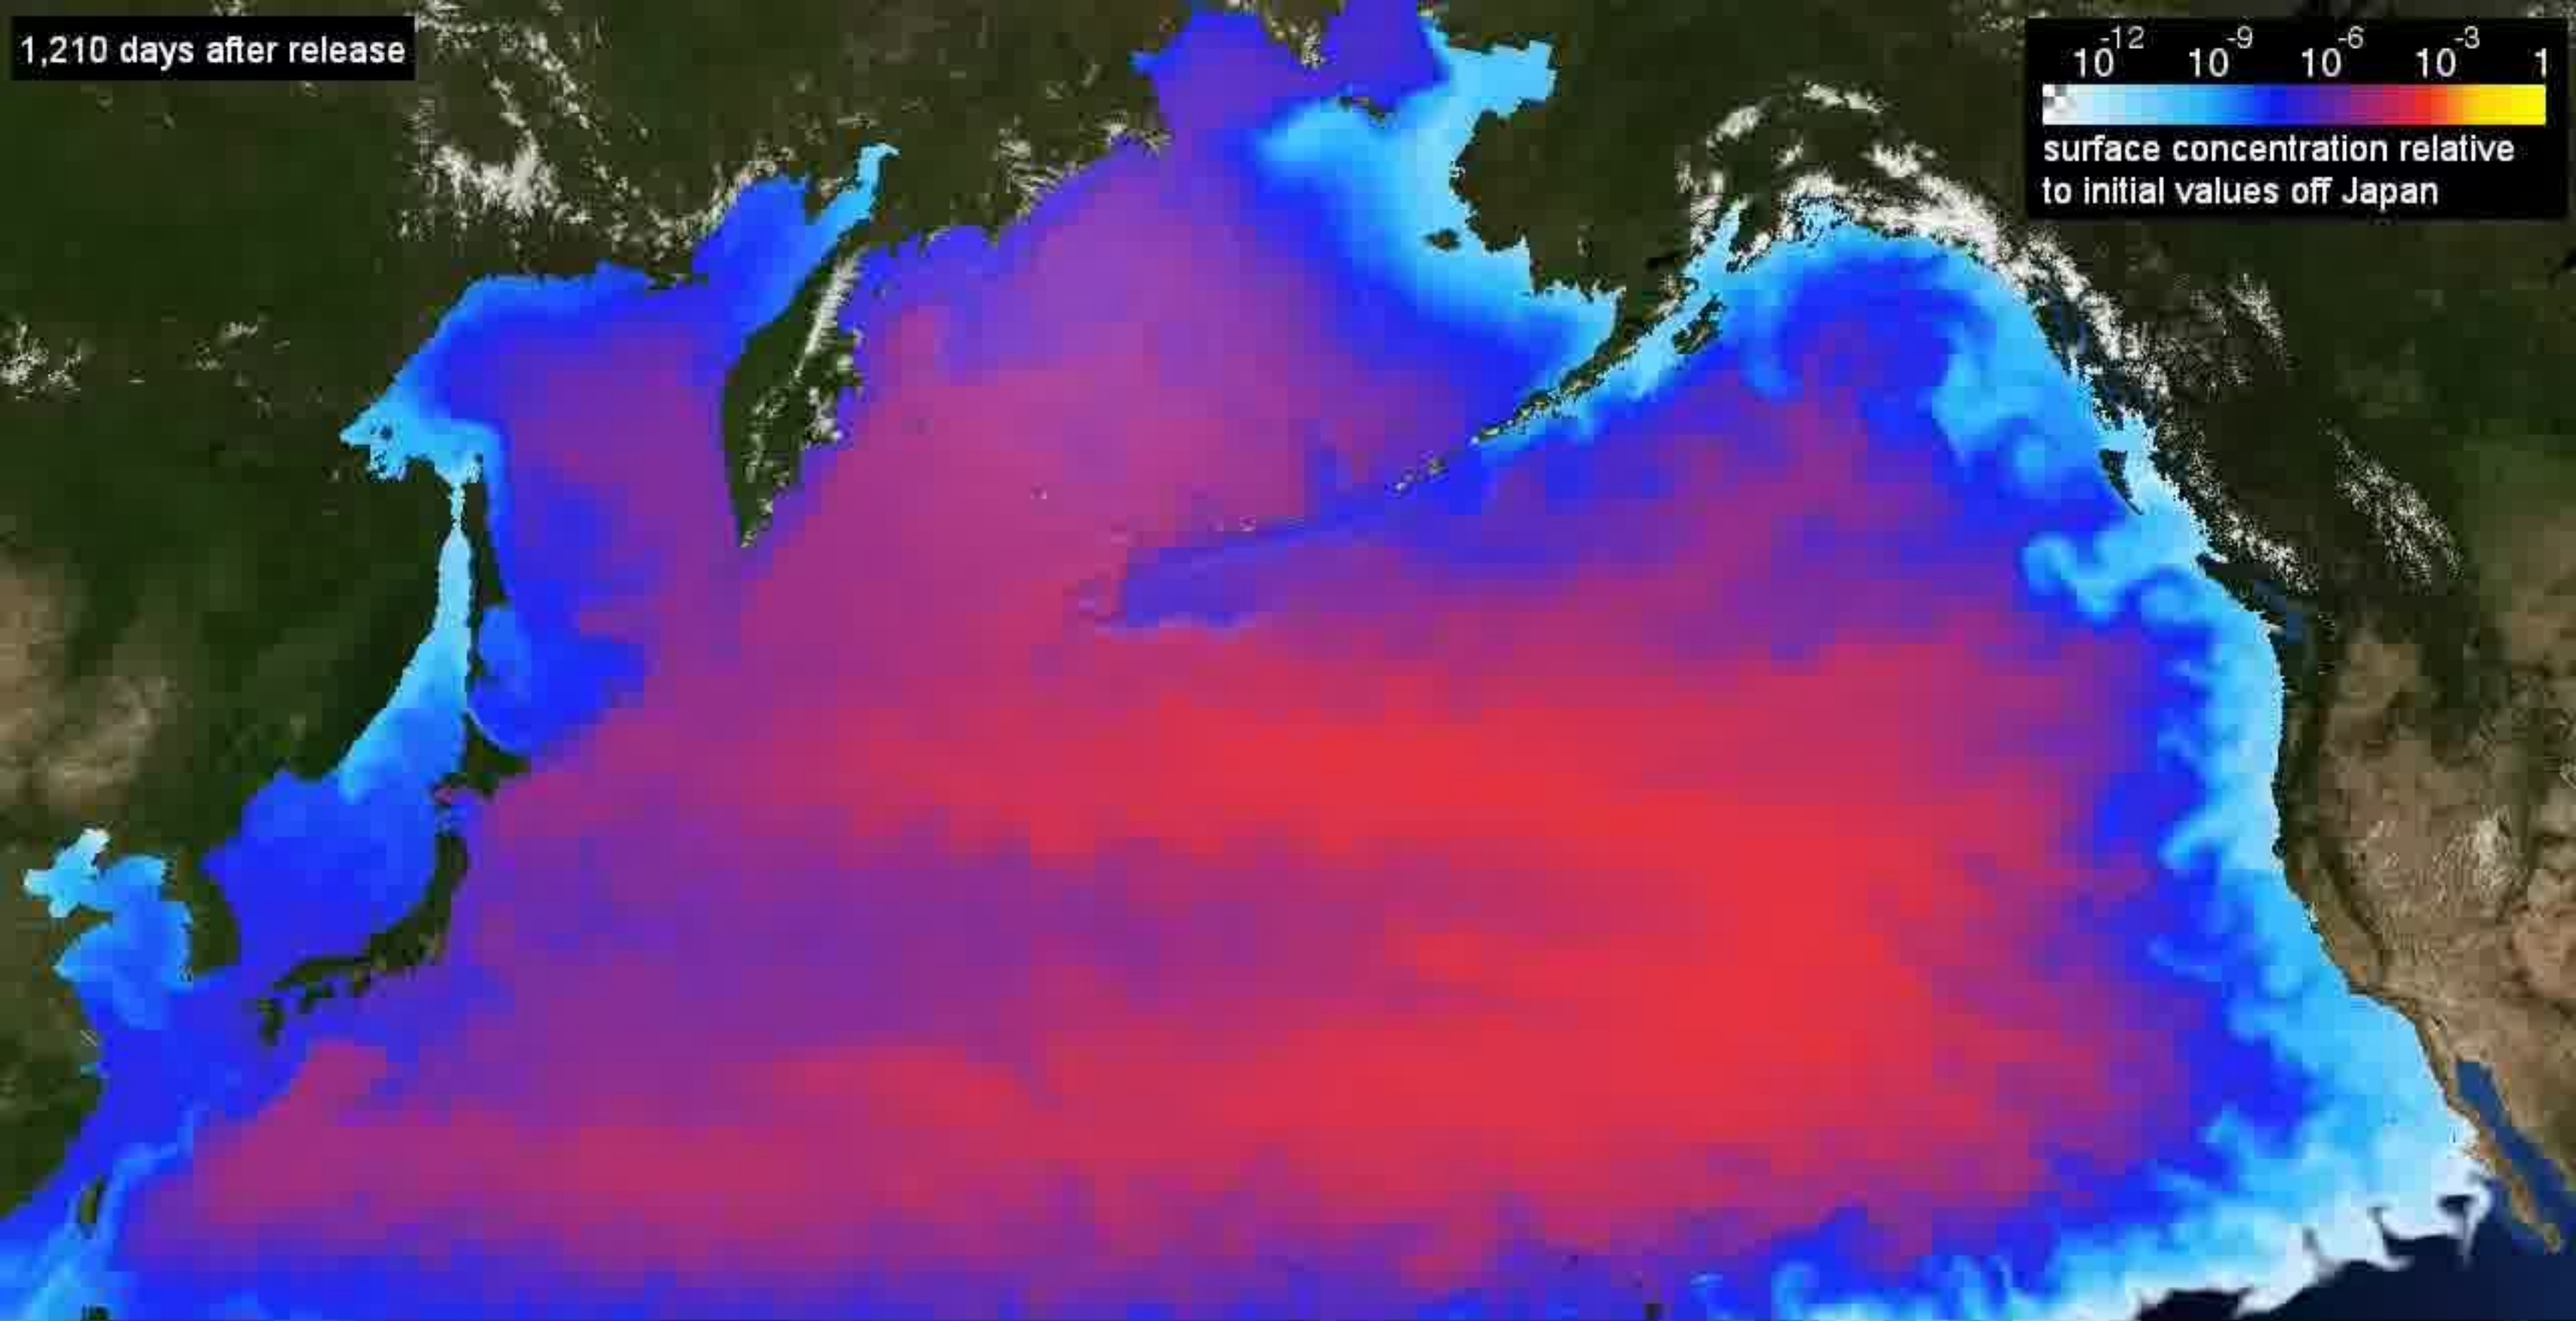

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

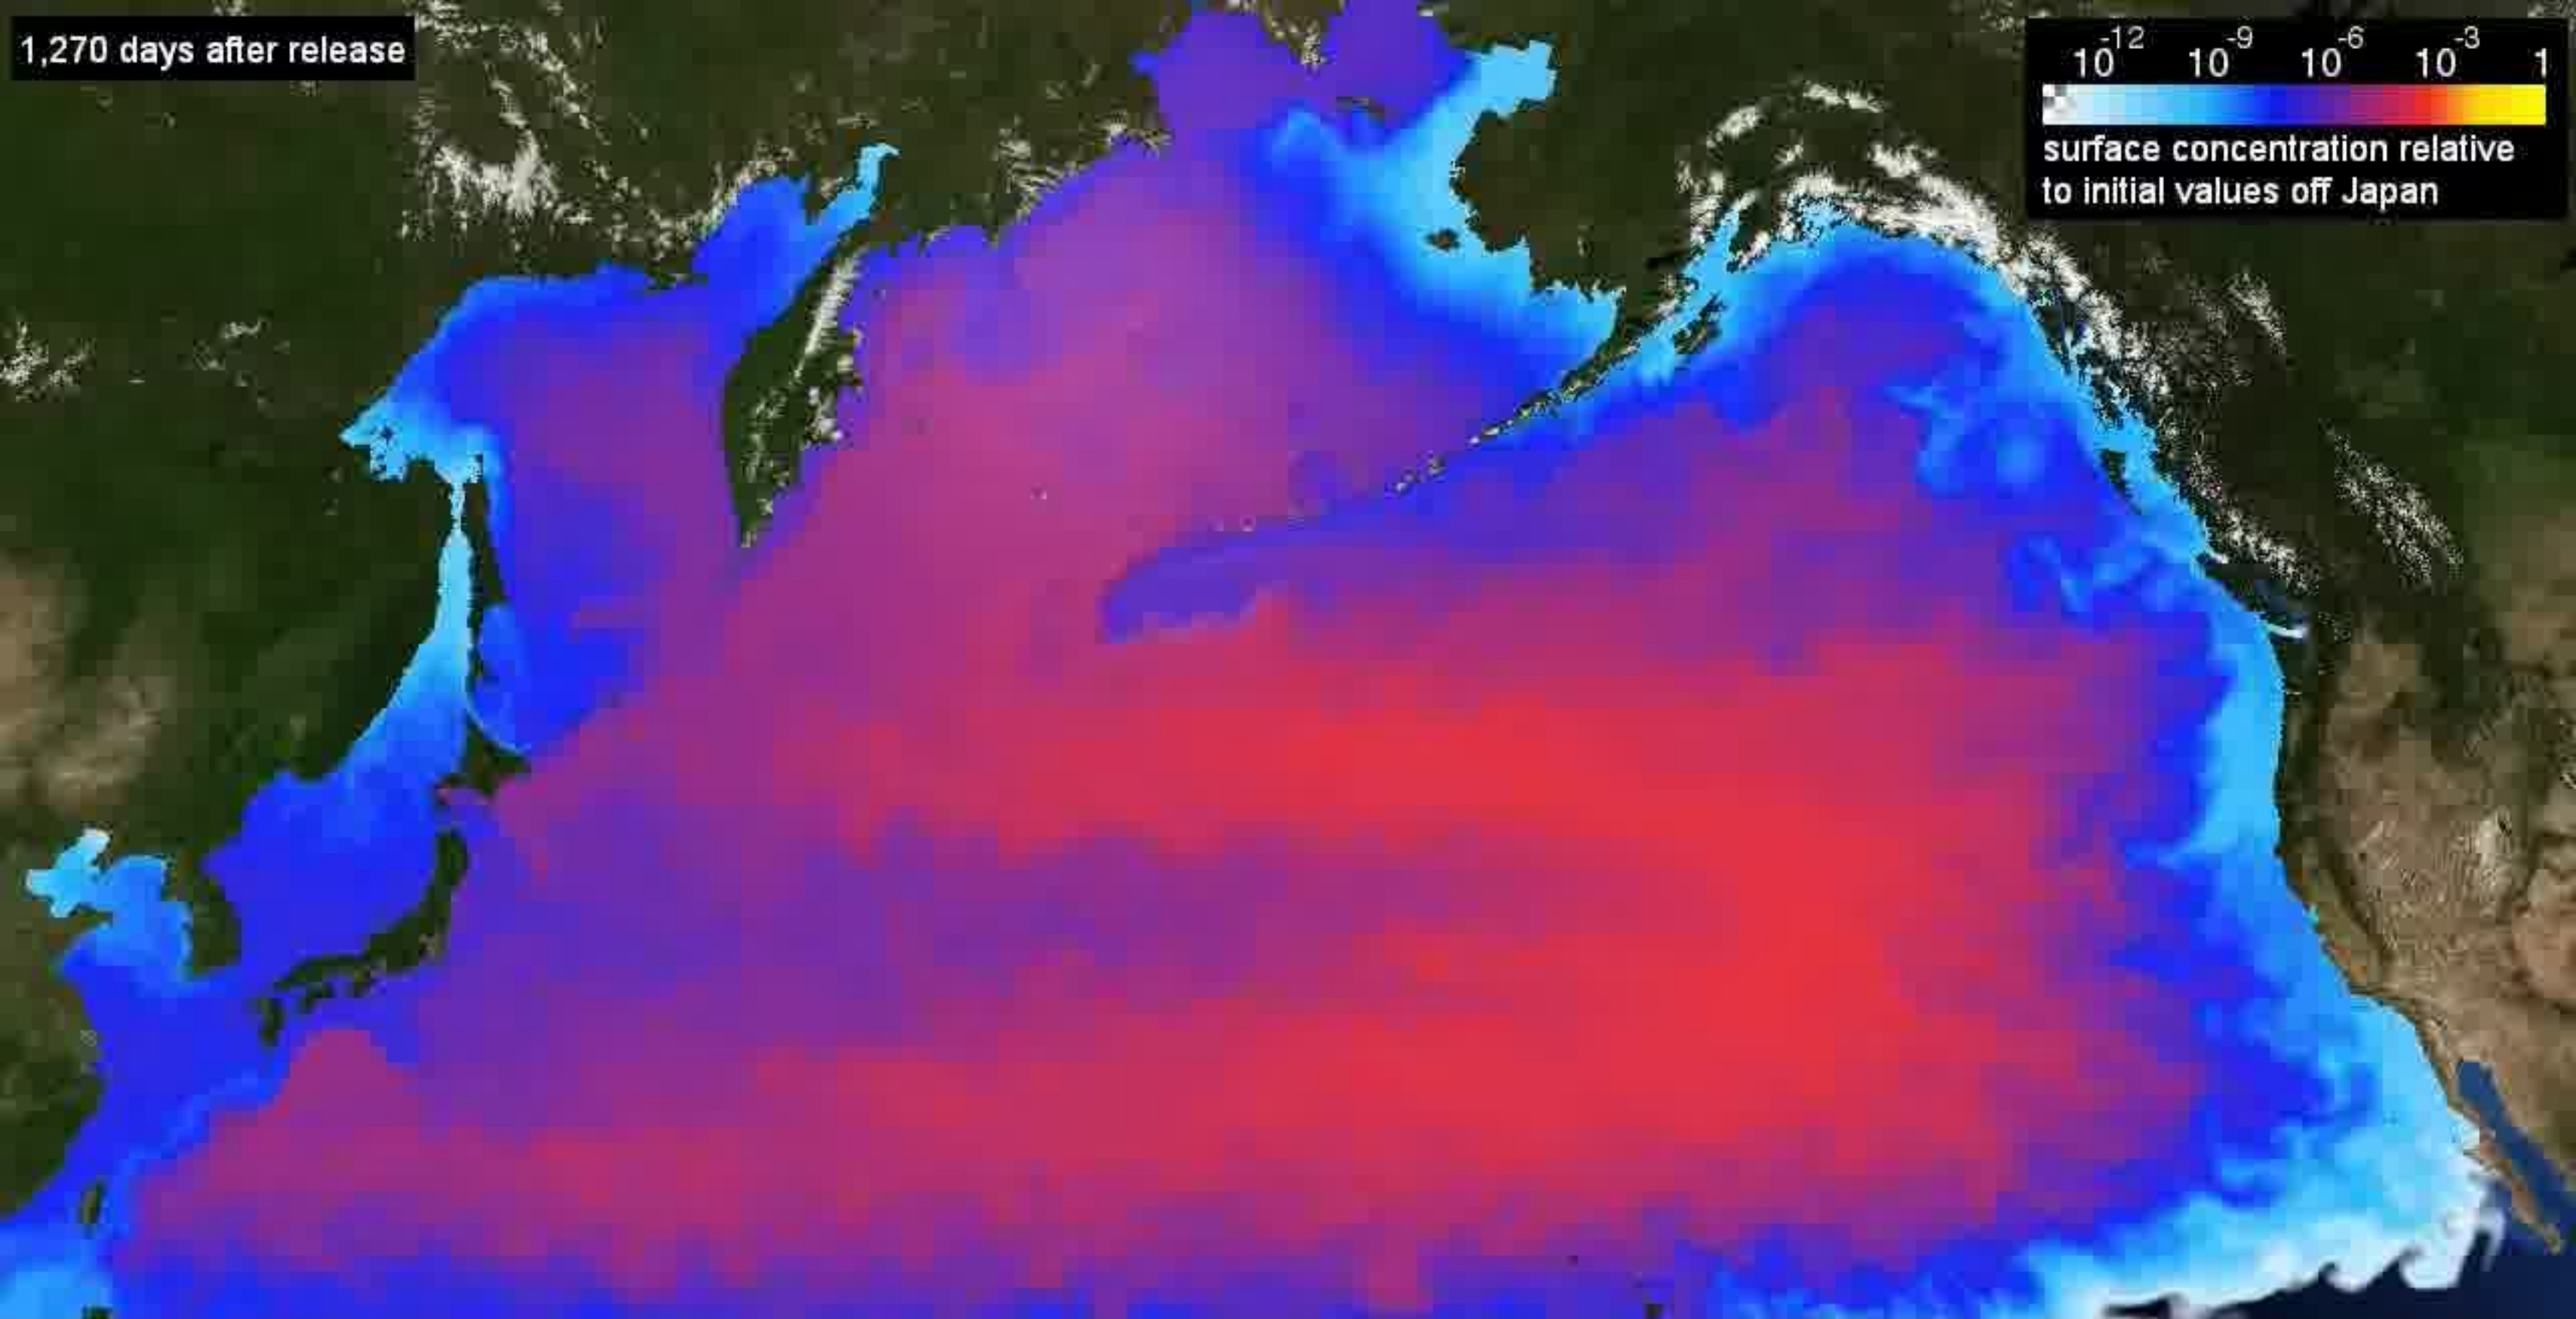

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

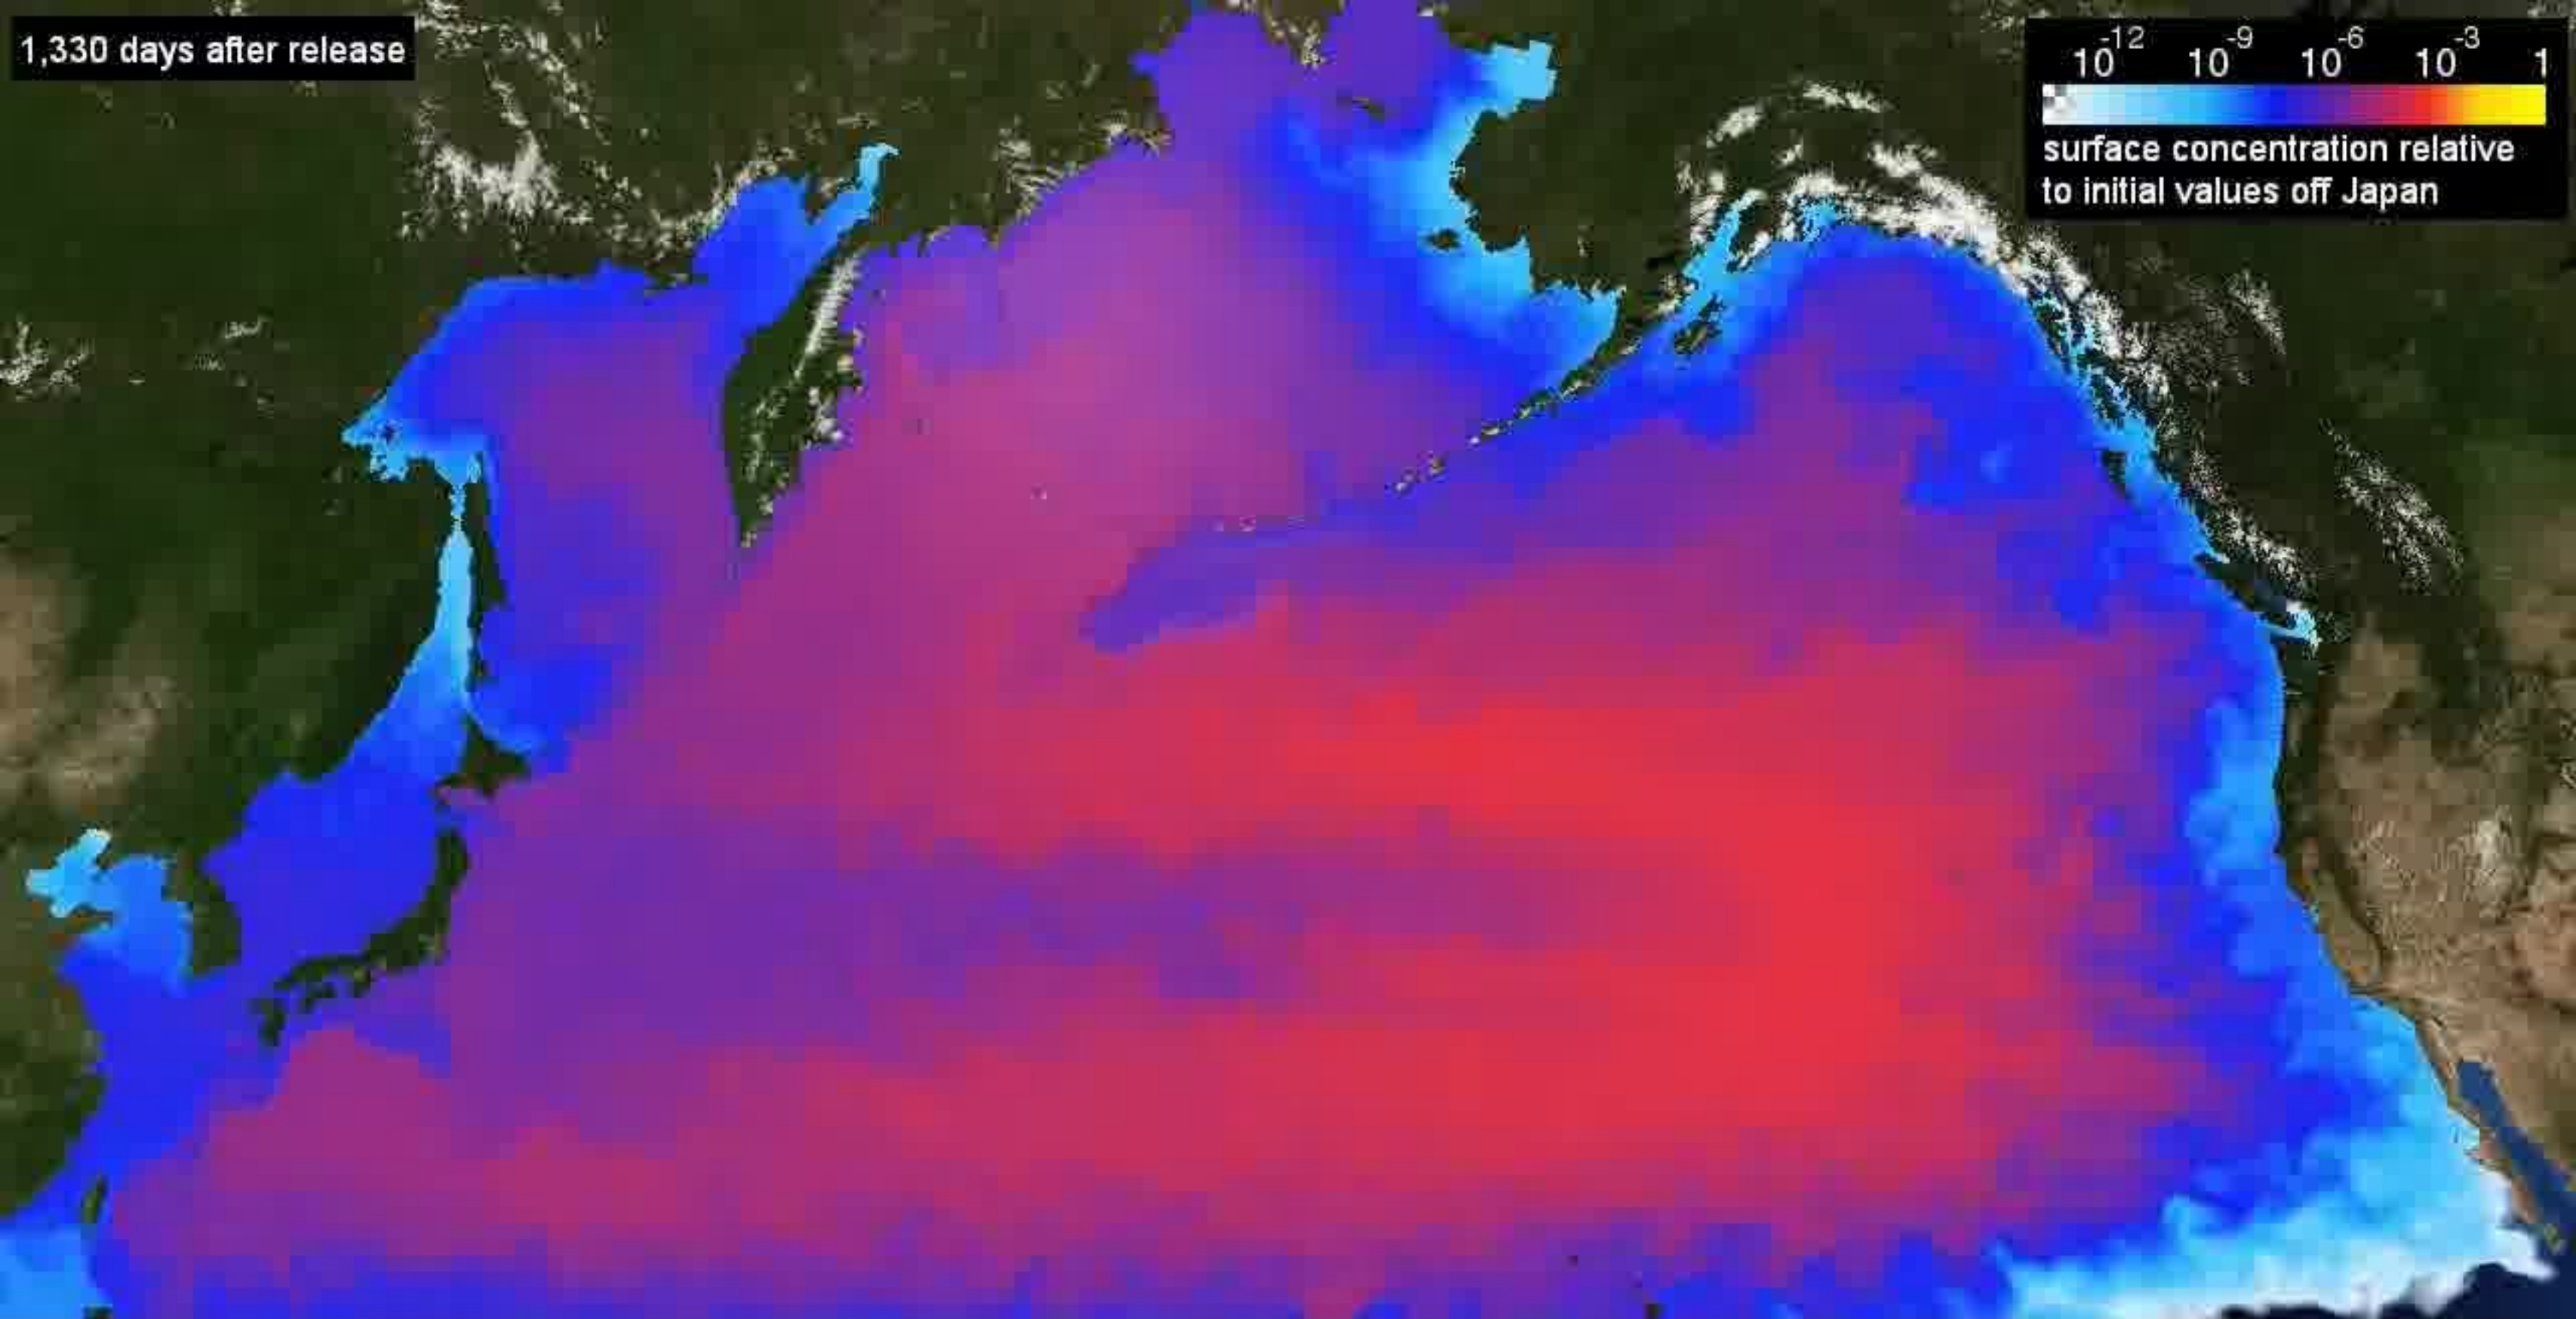

1,210 days after release

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

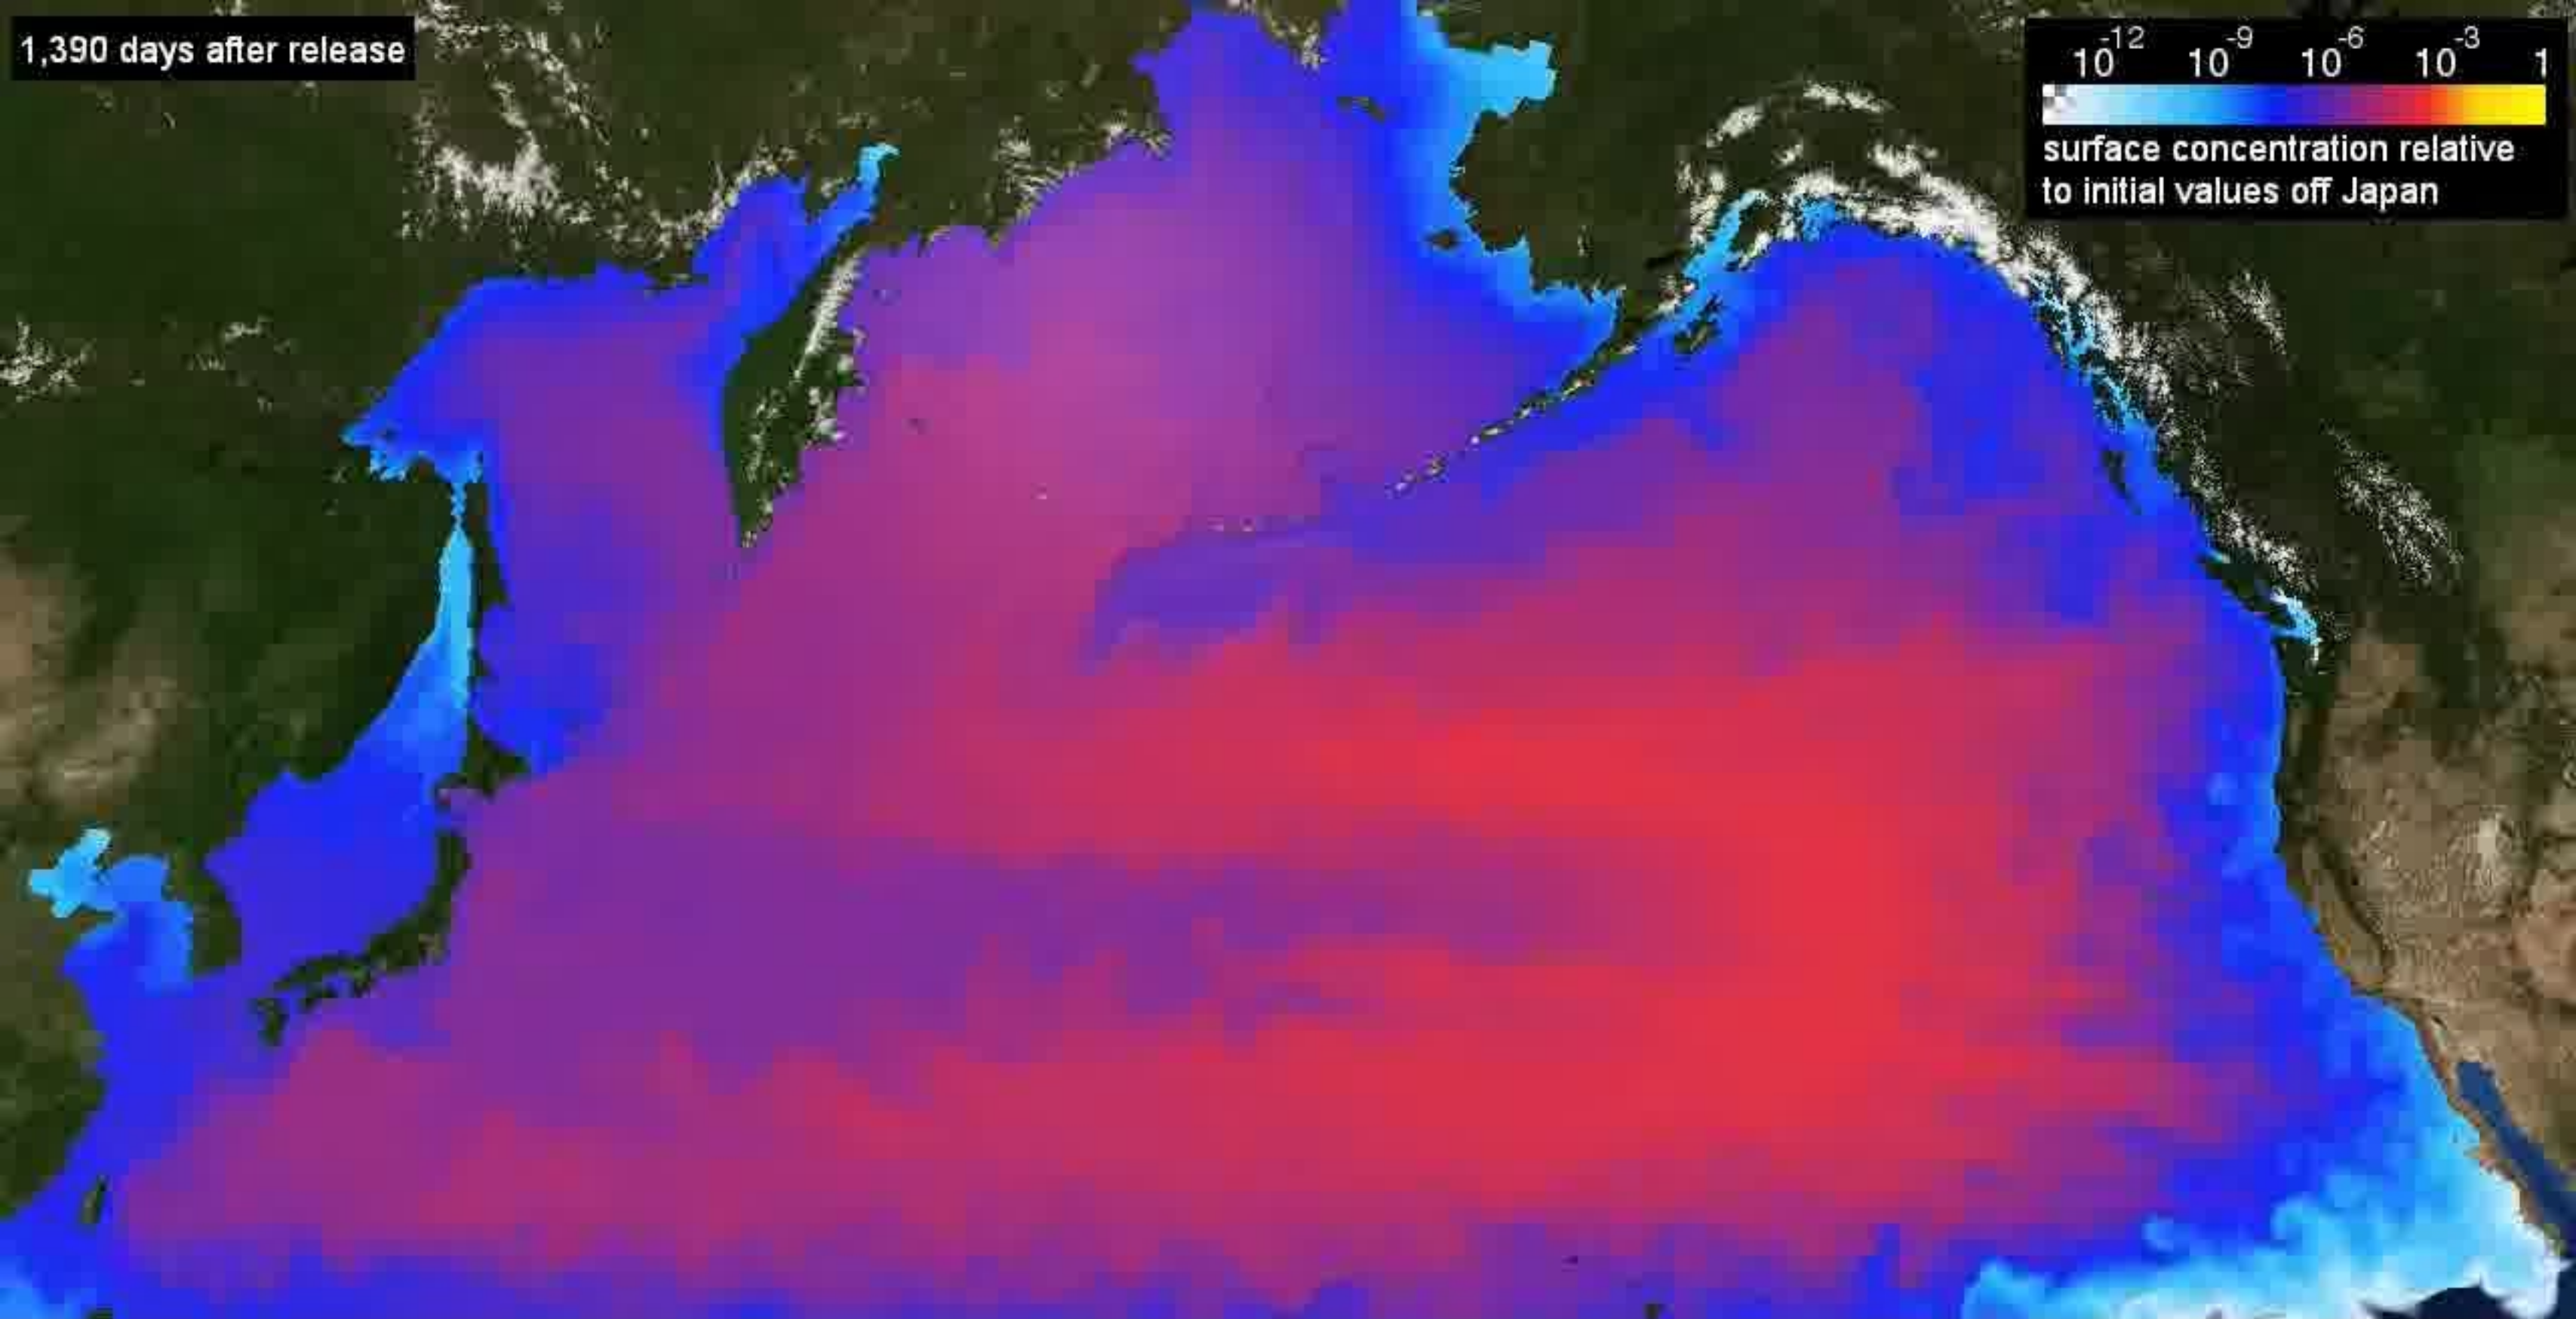

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

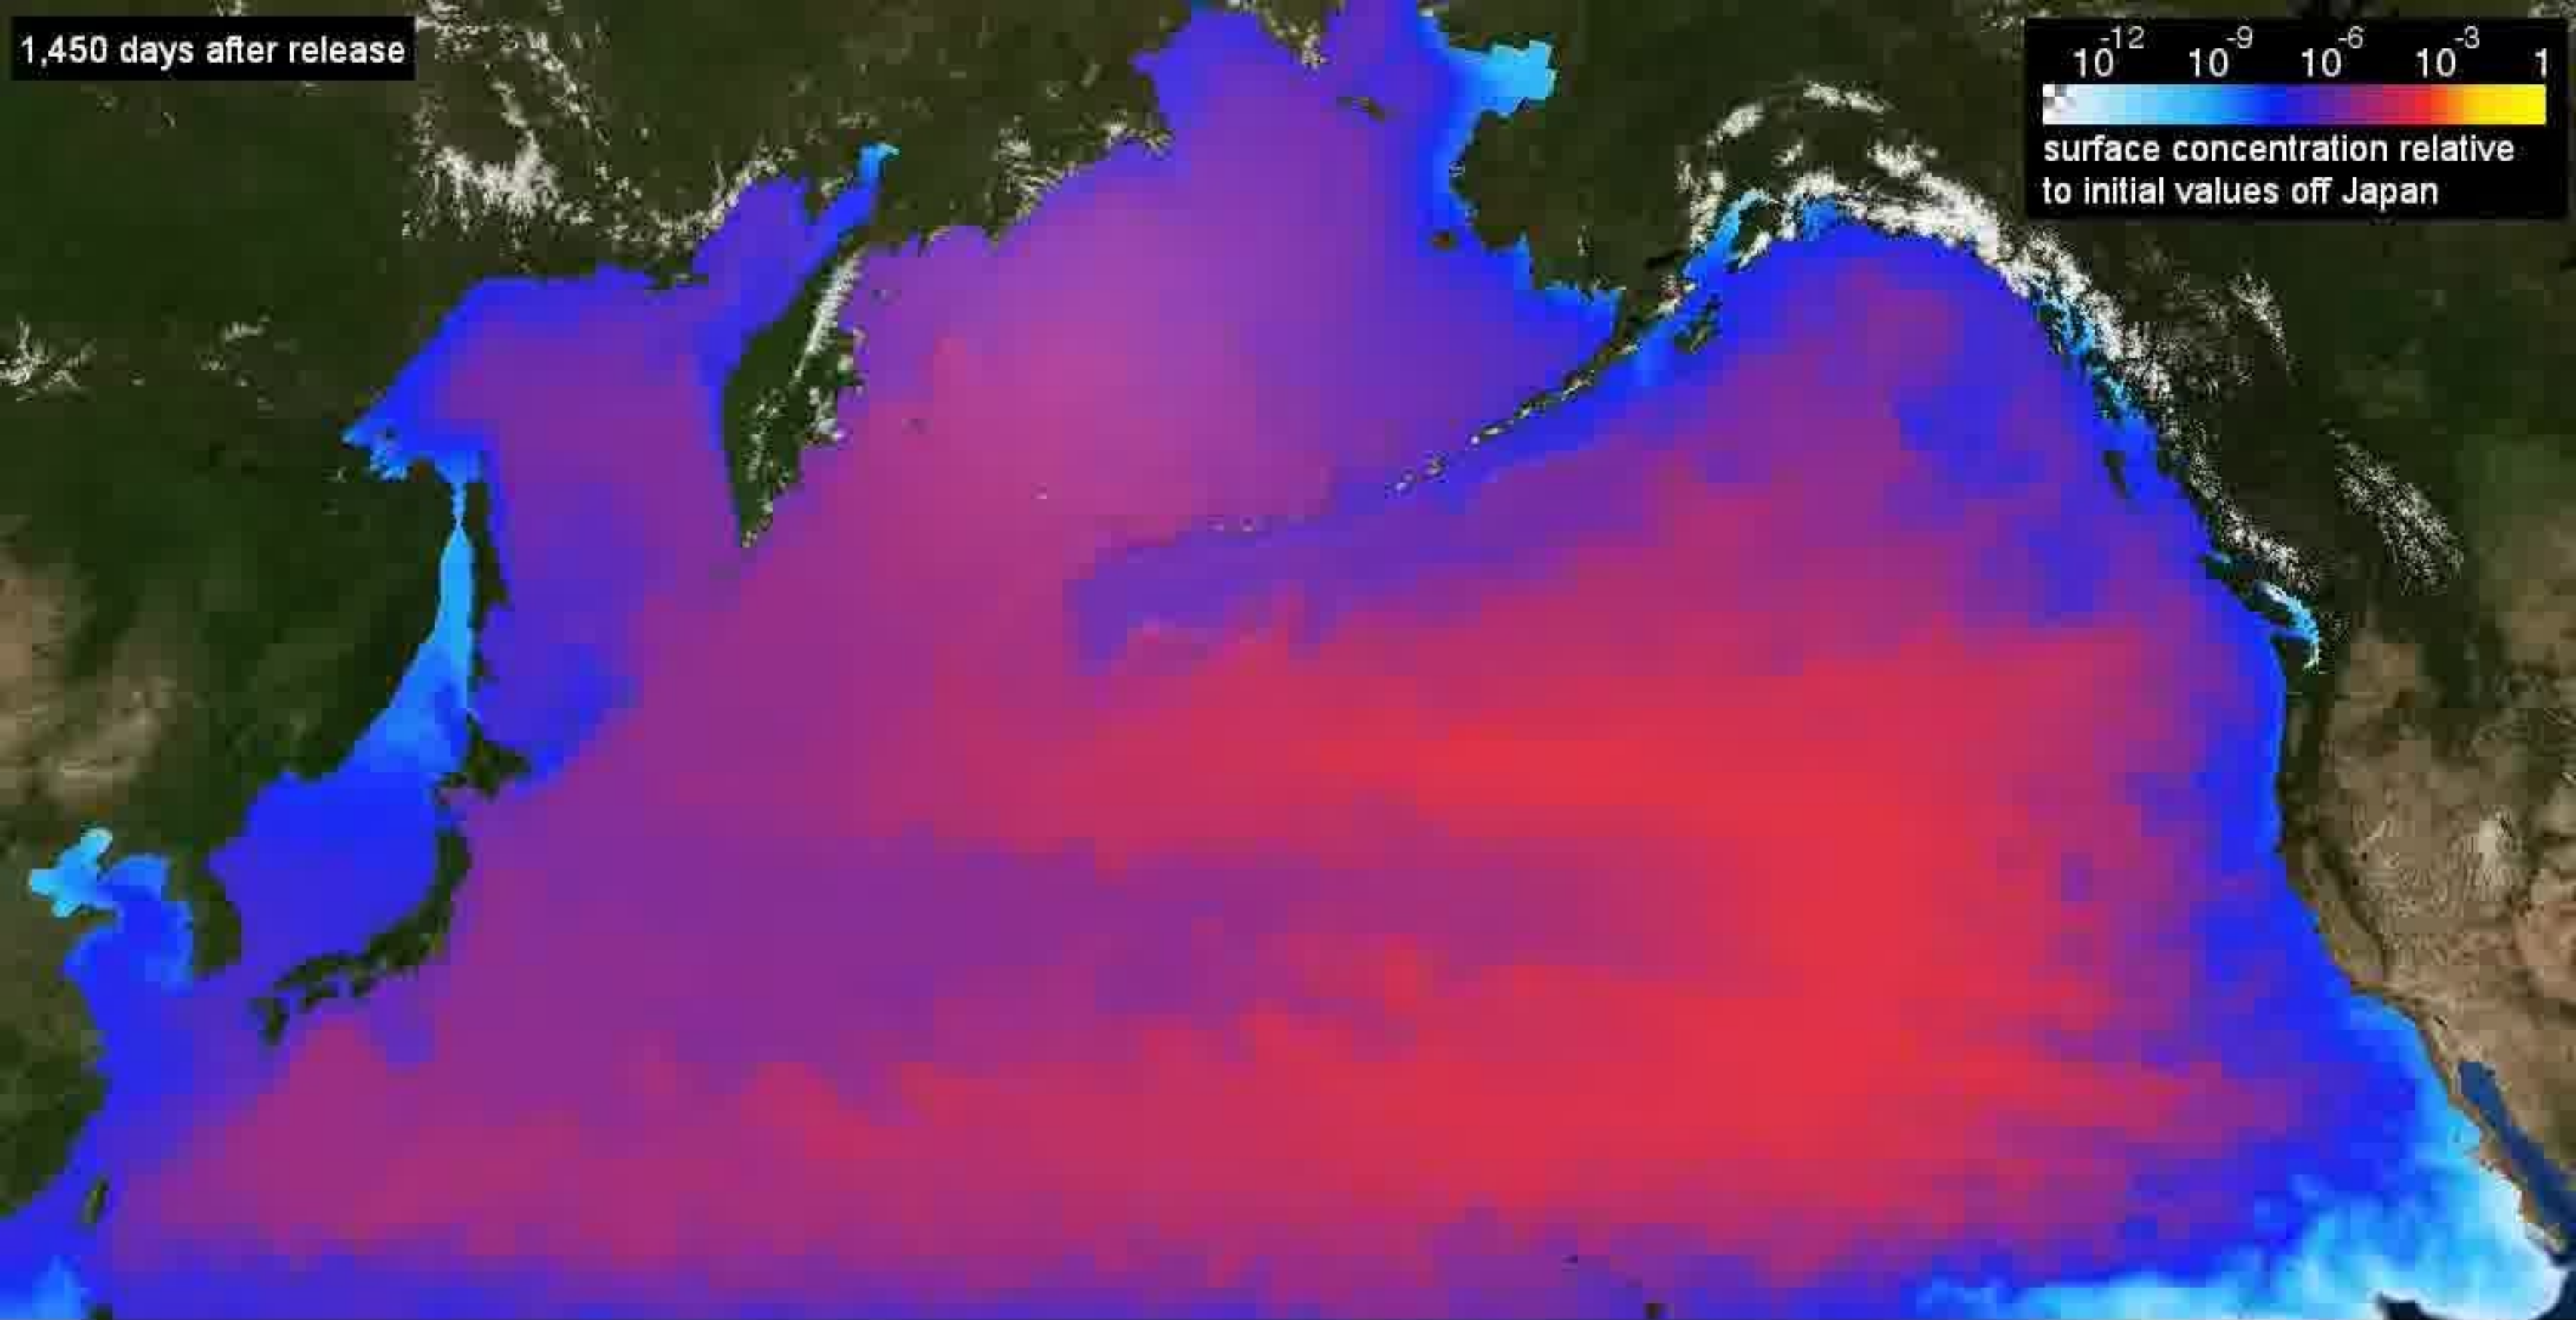

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

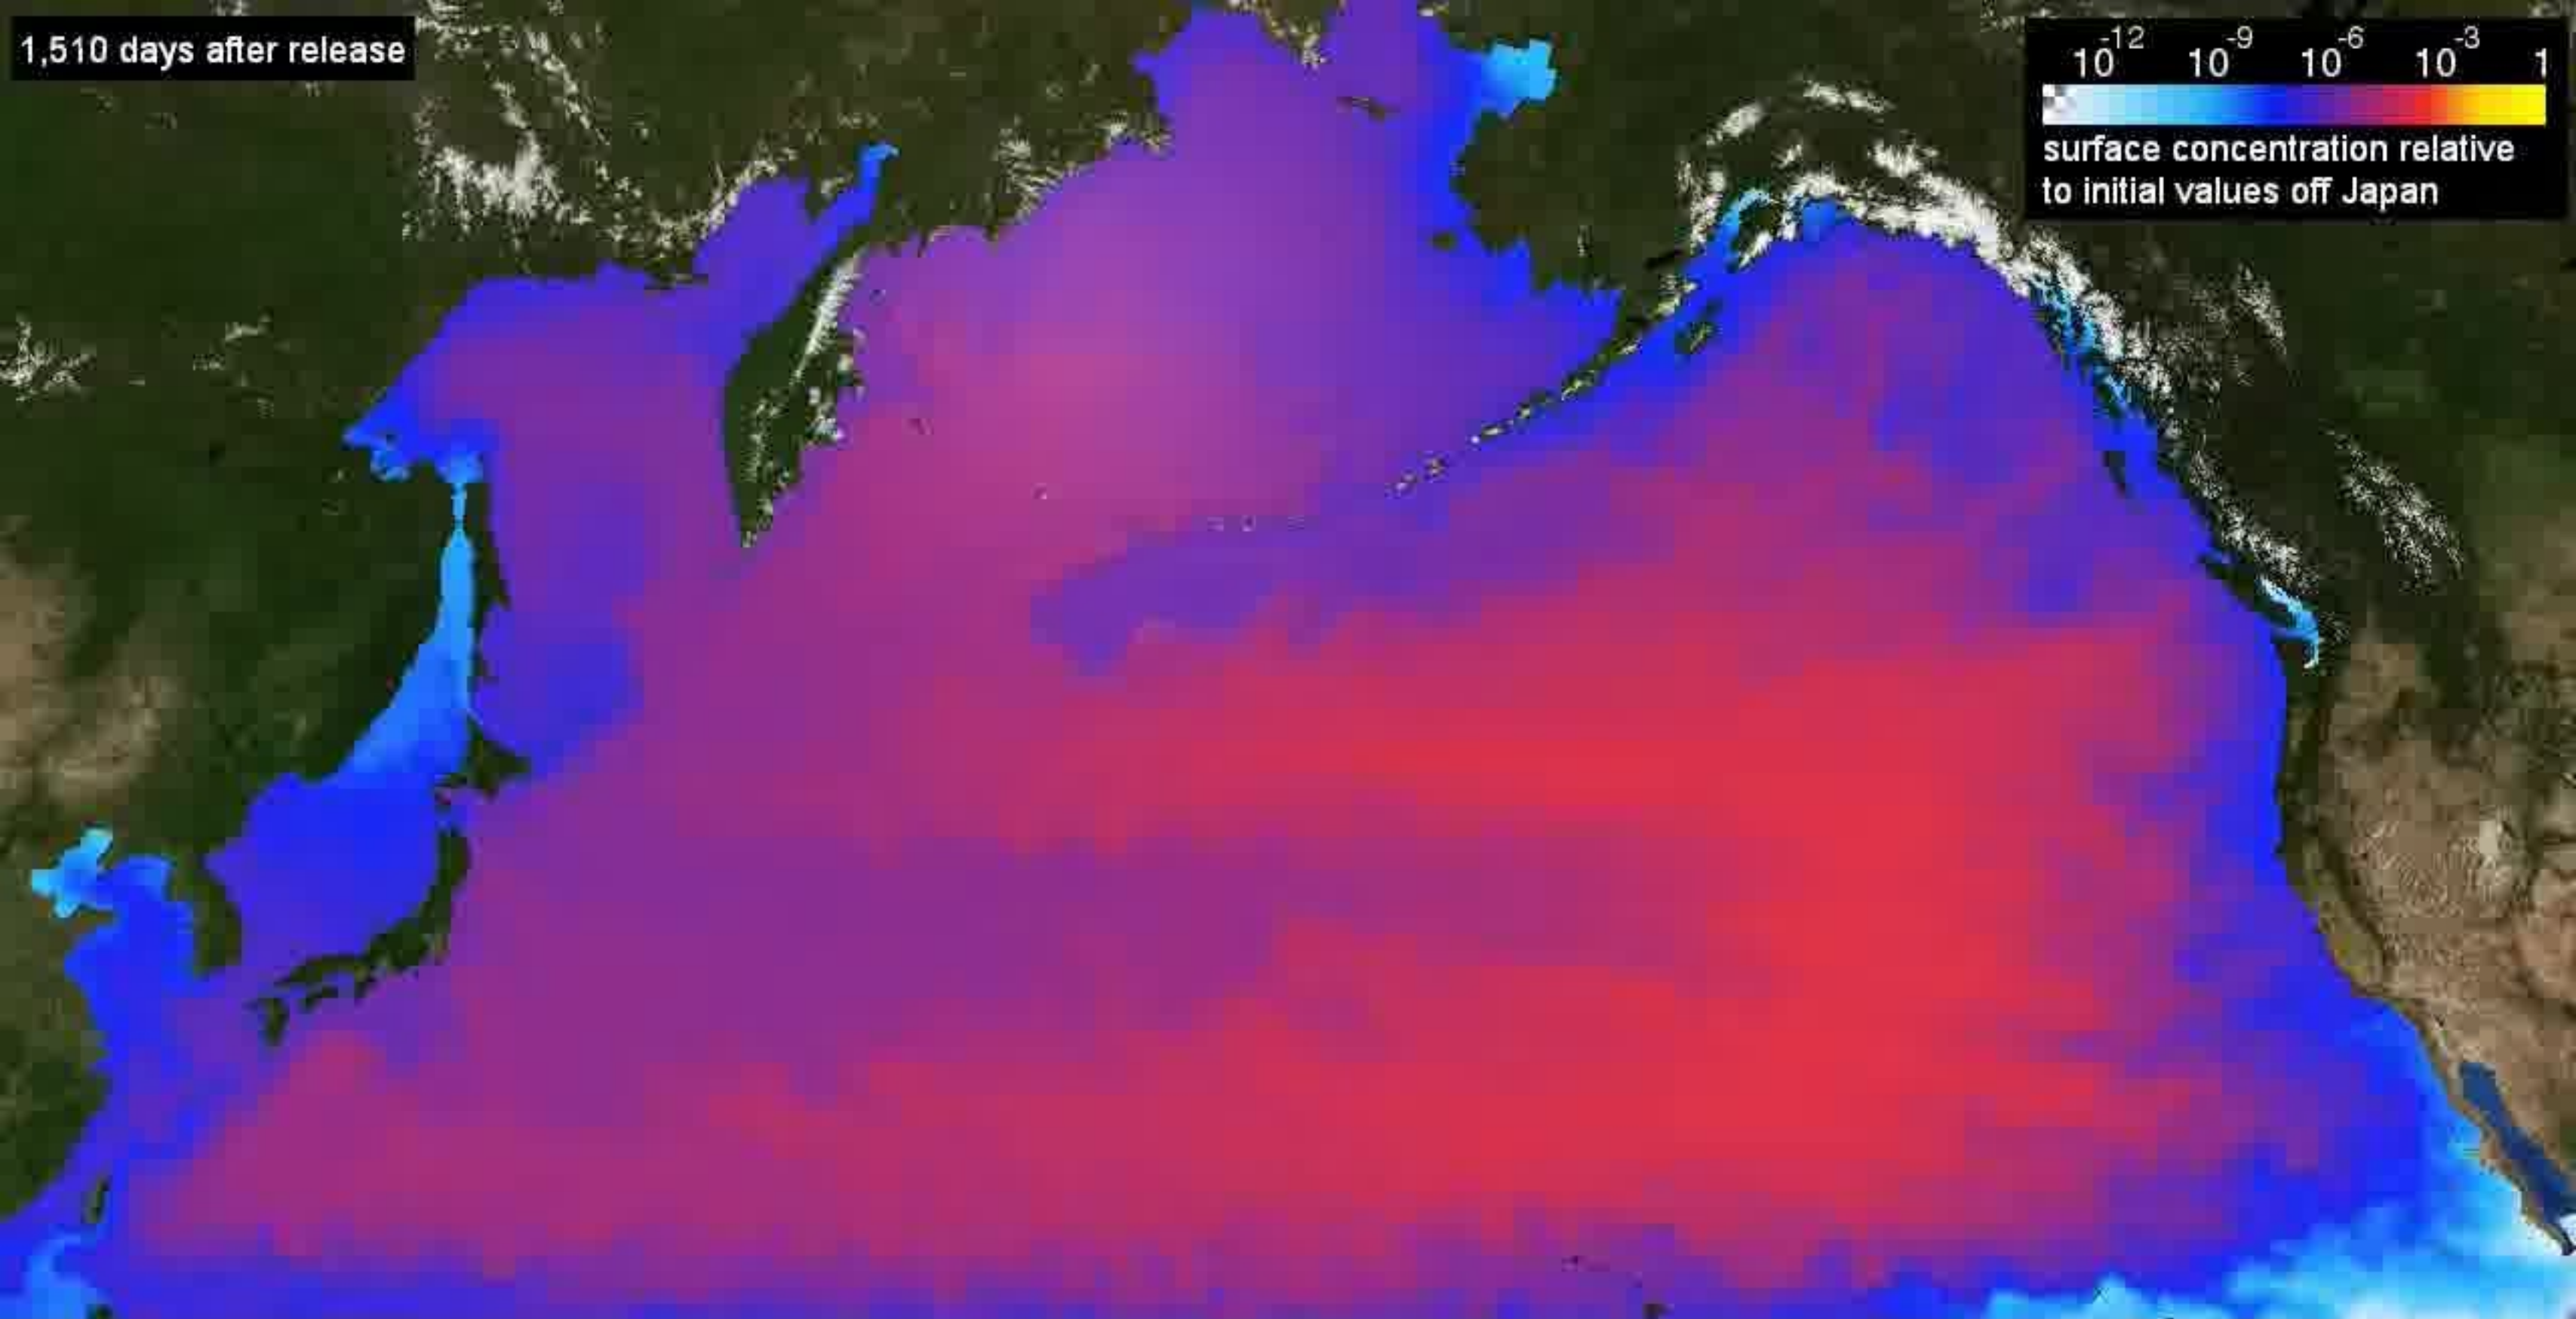

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

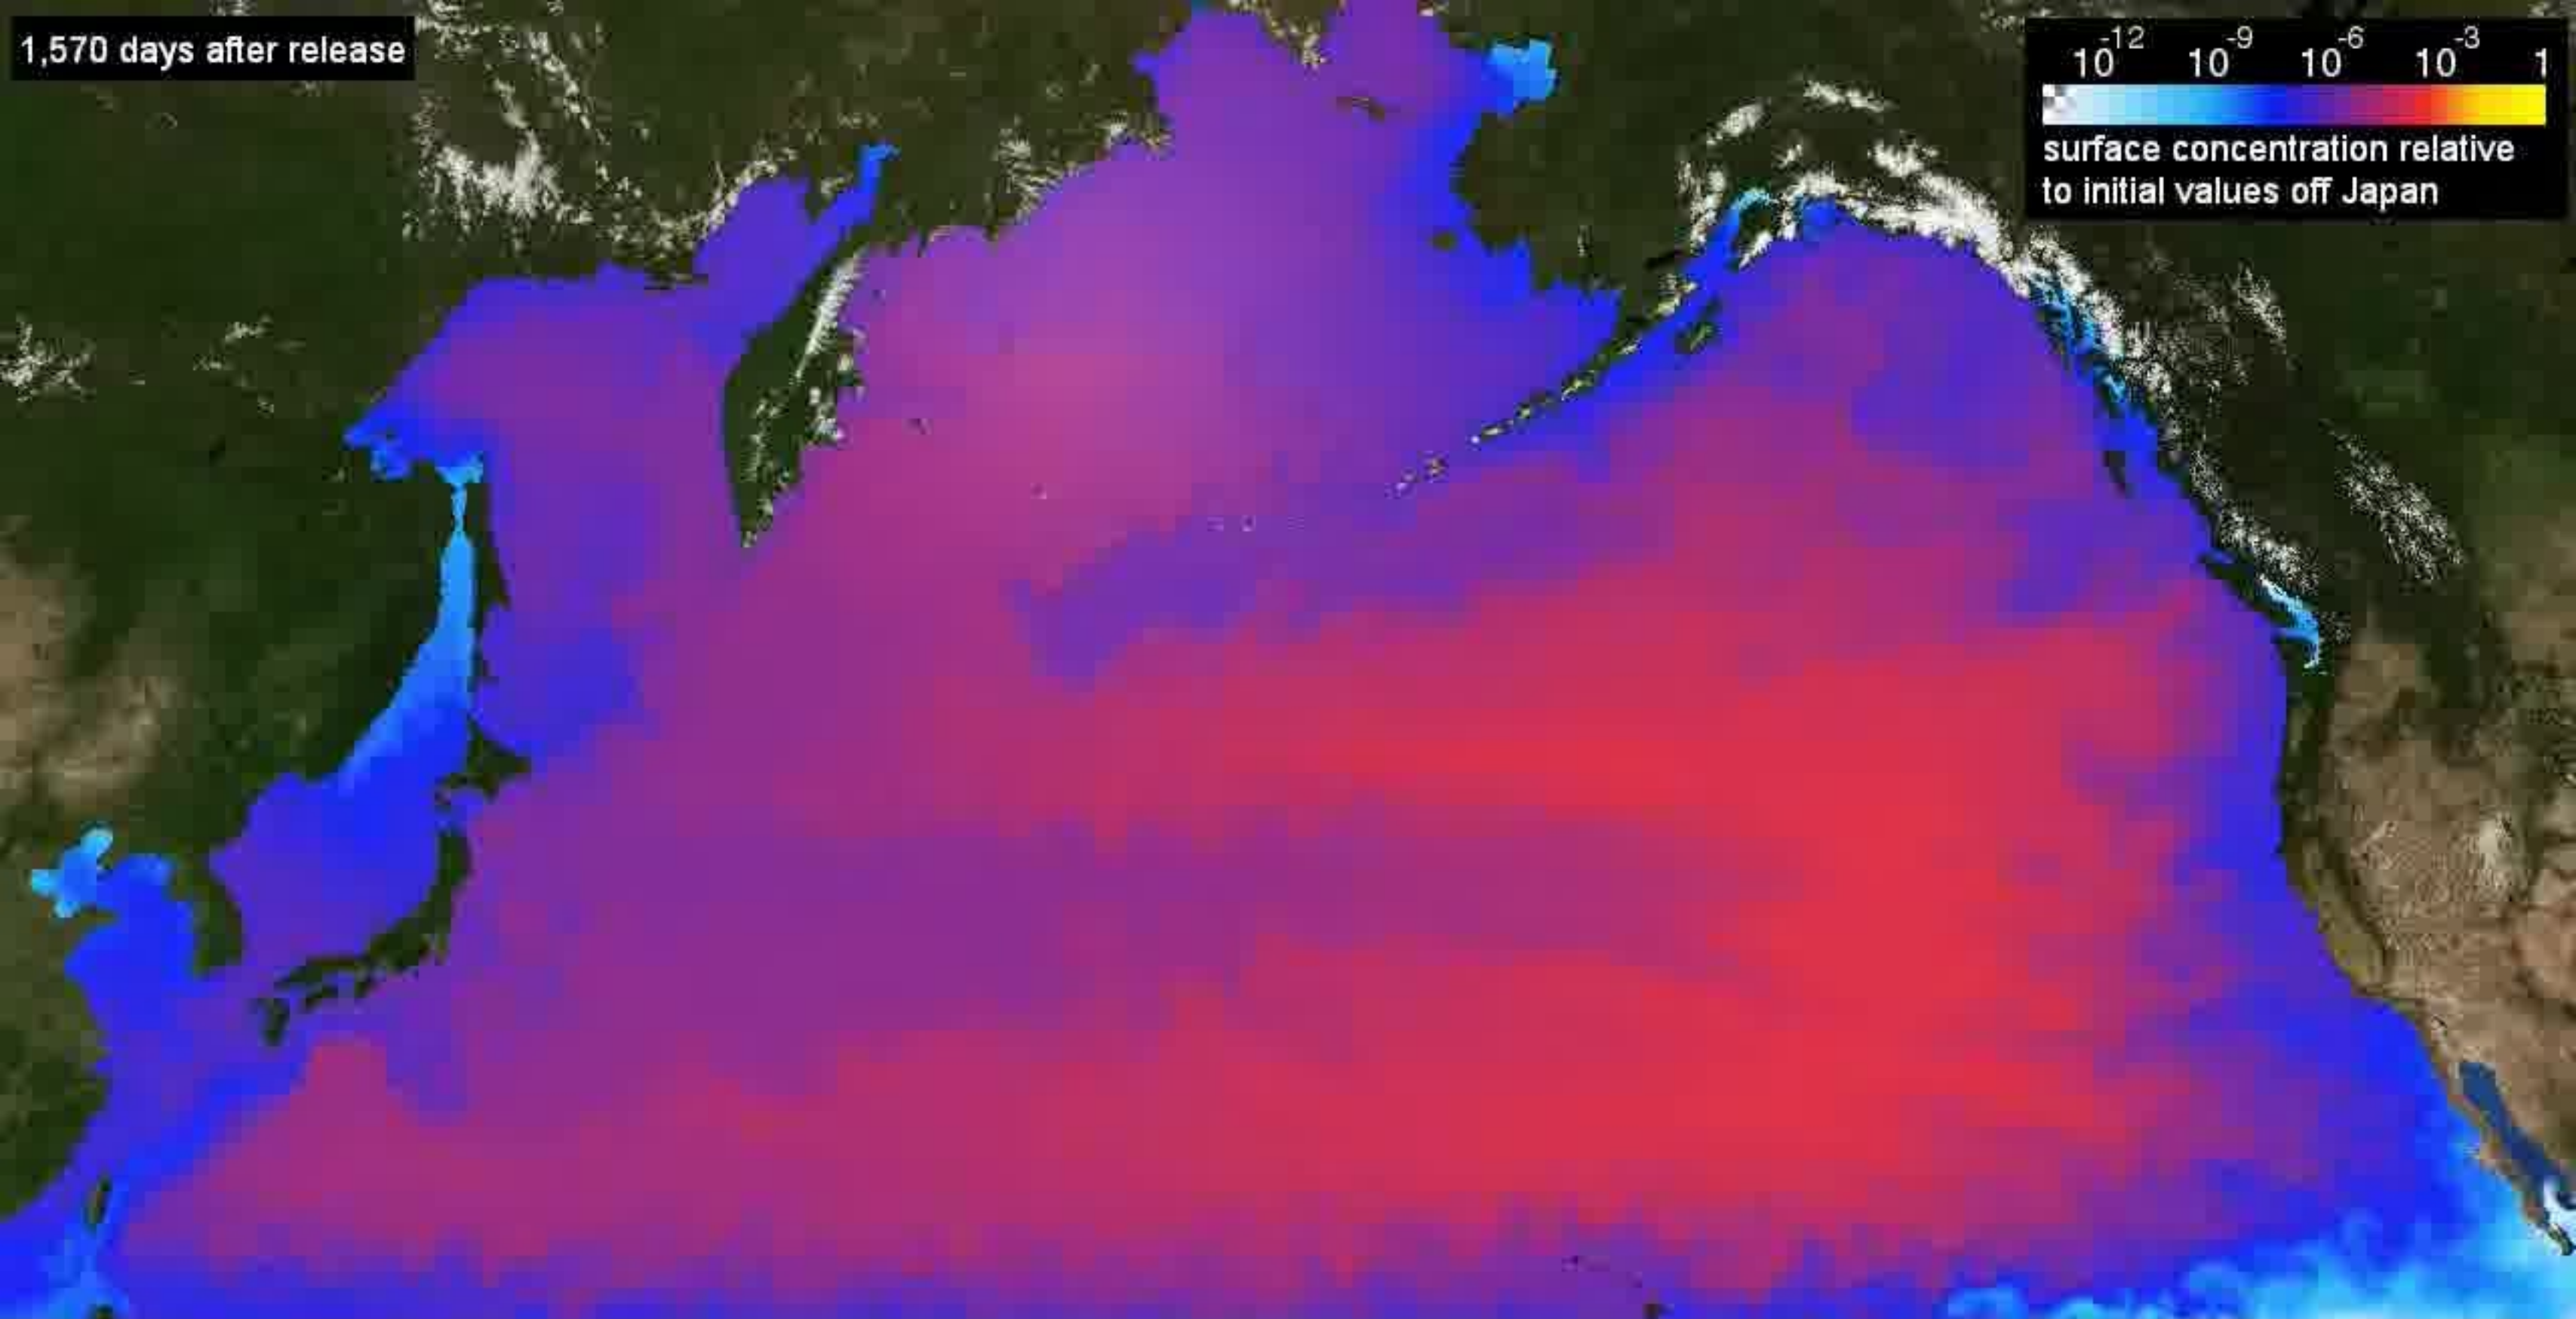

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

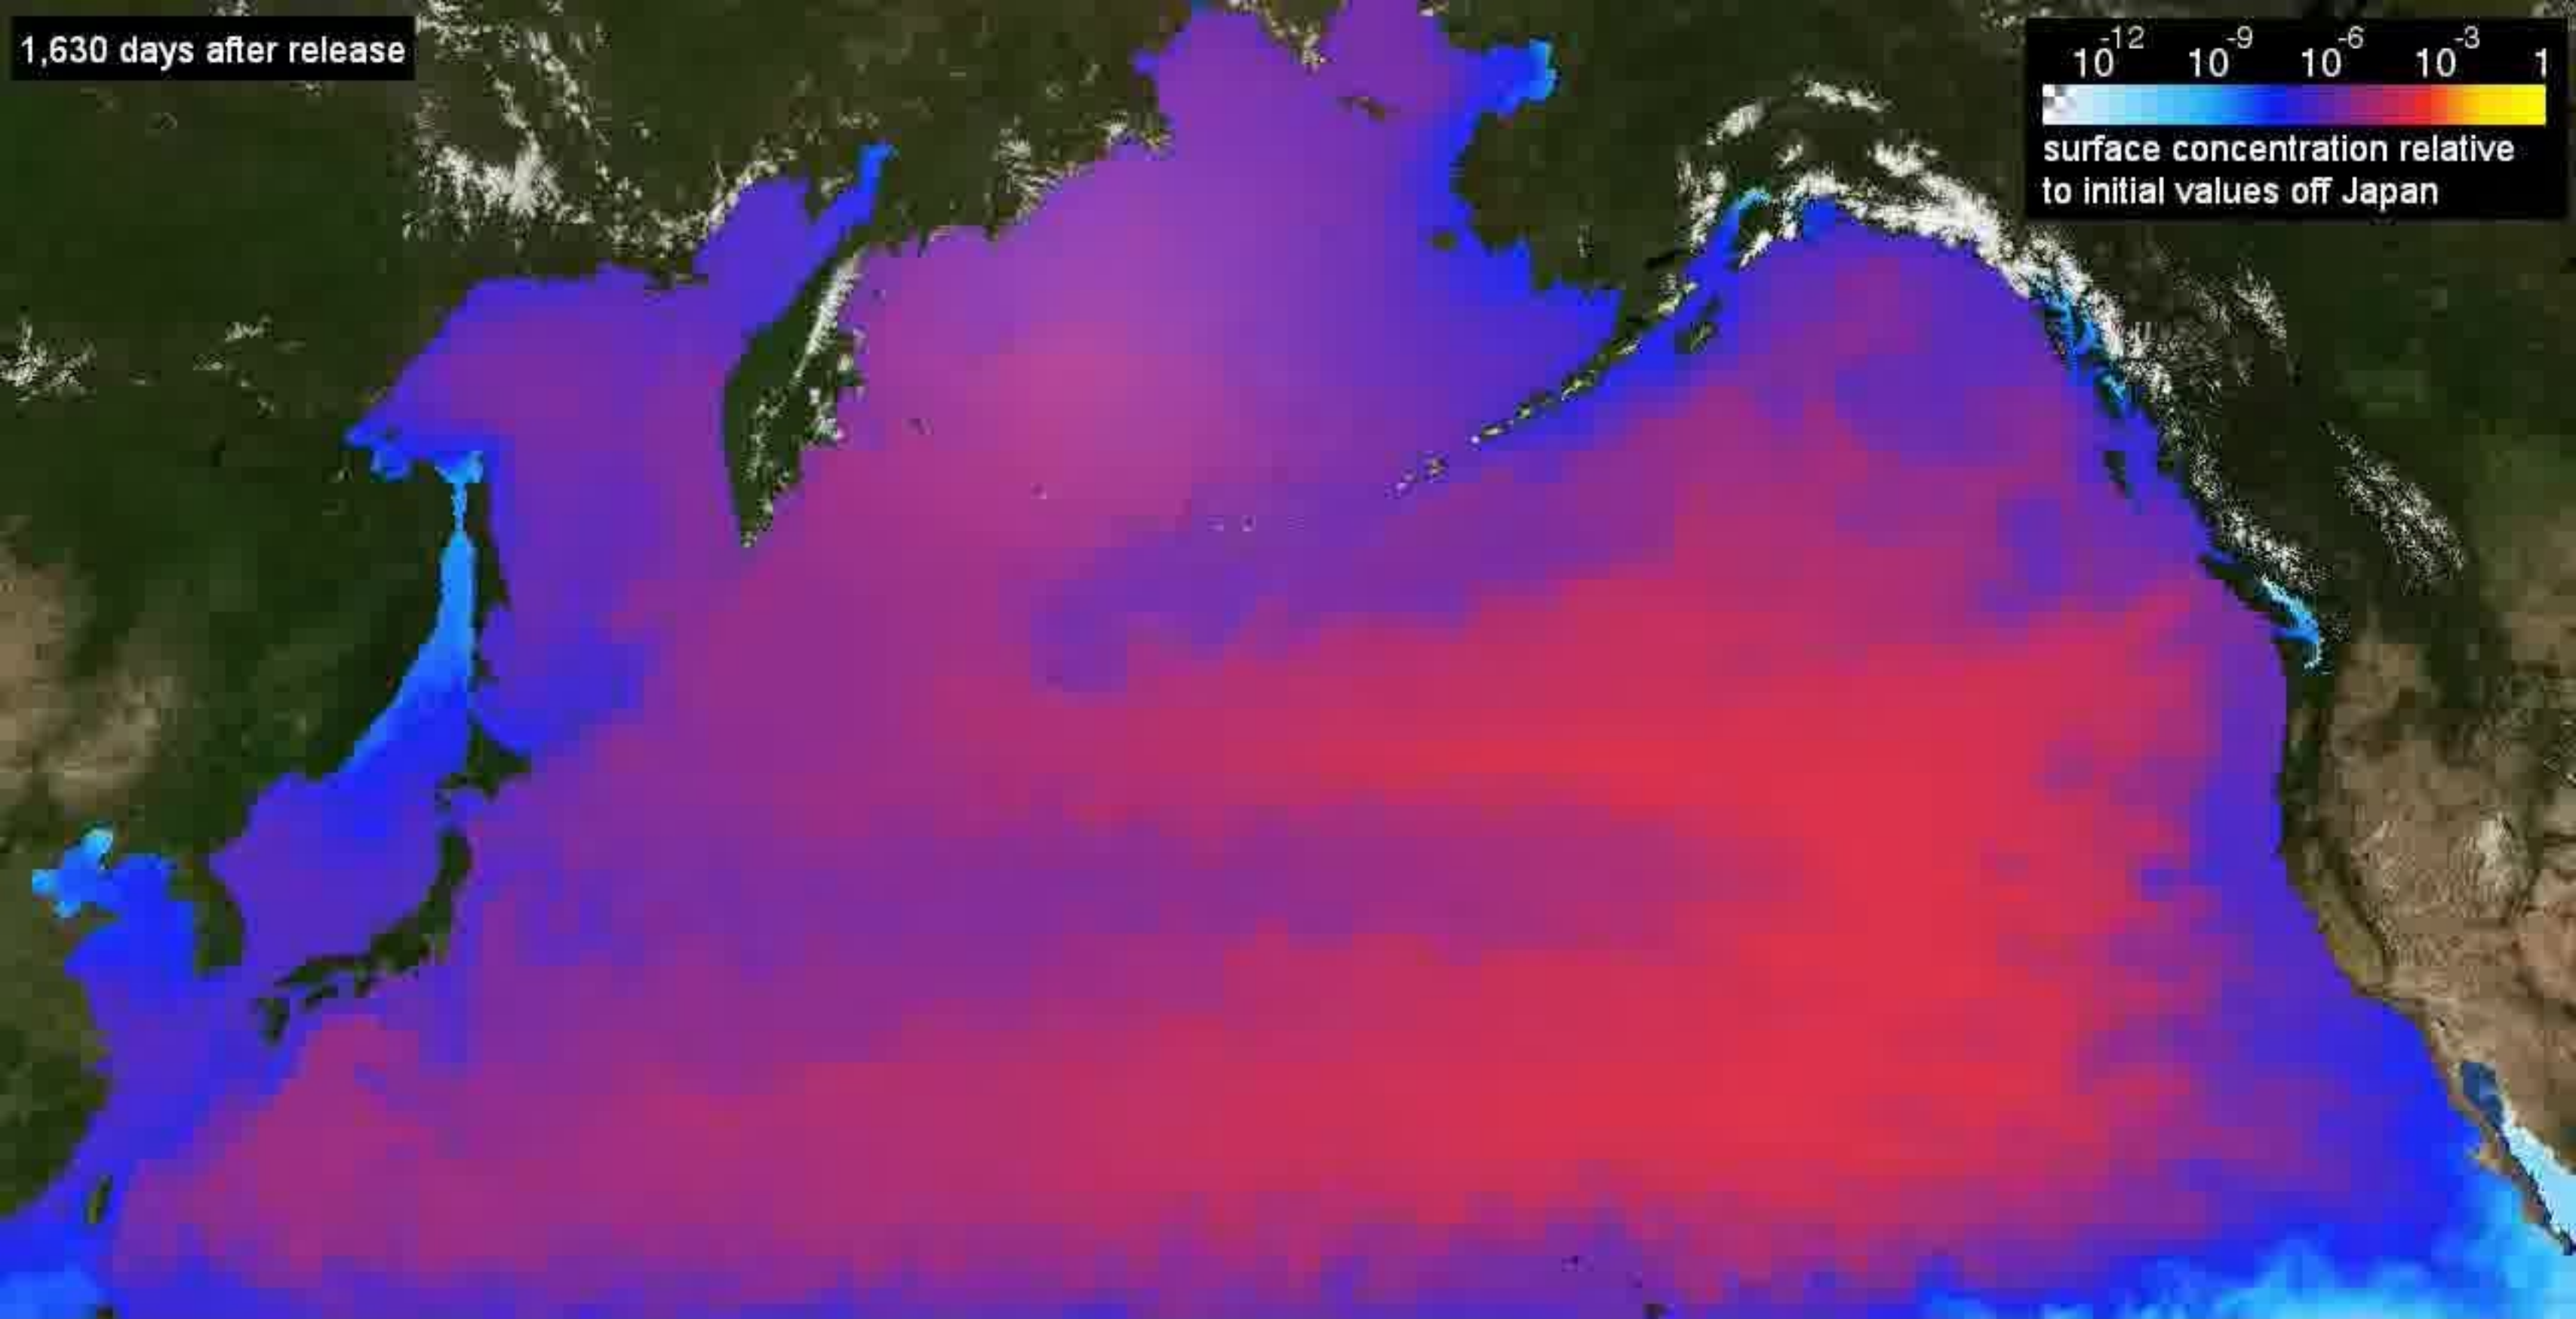

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

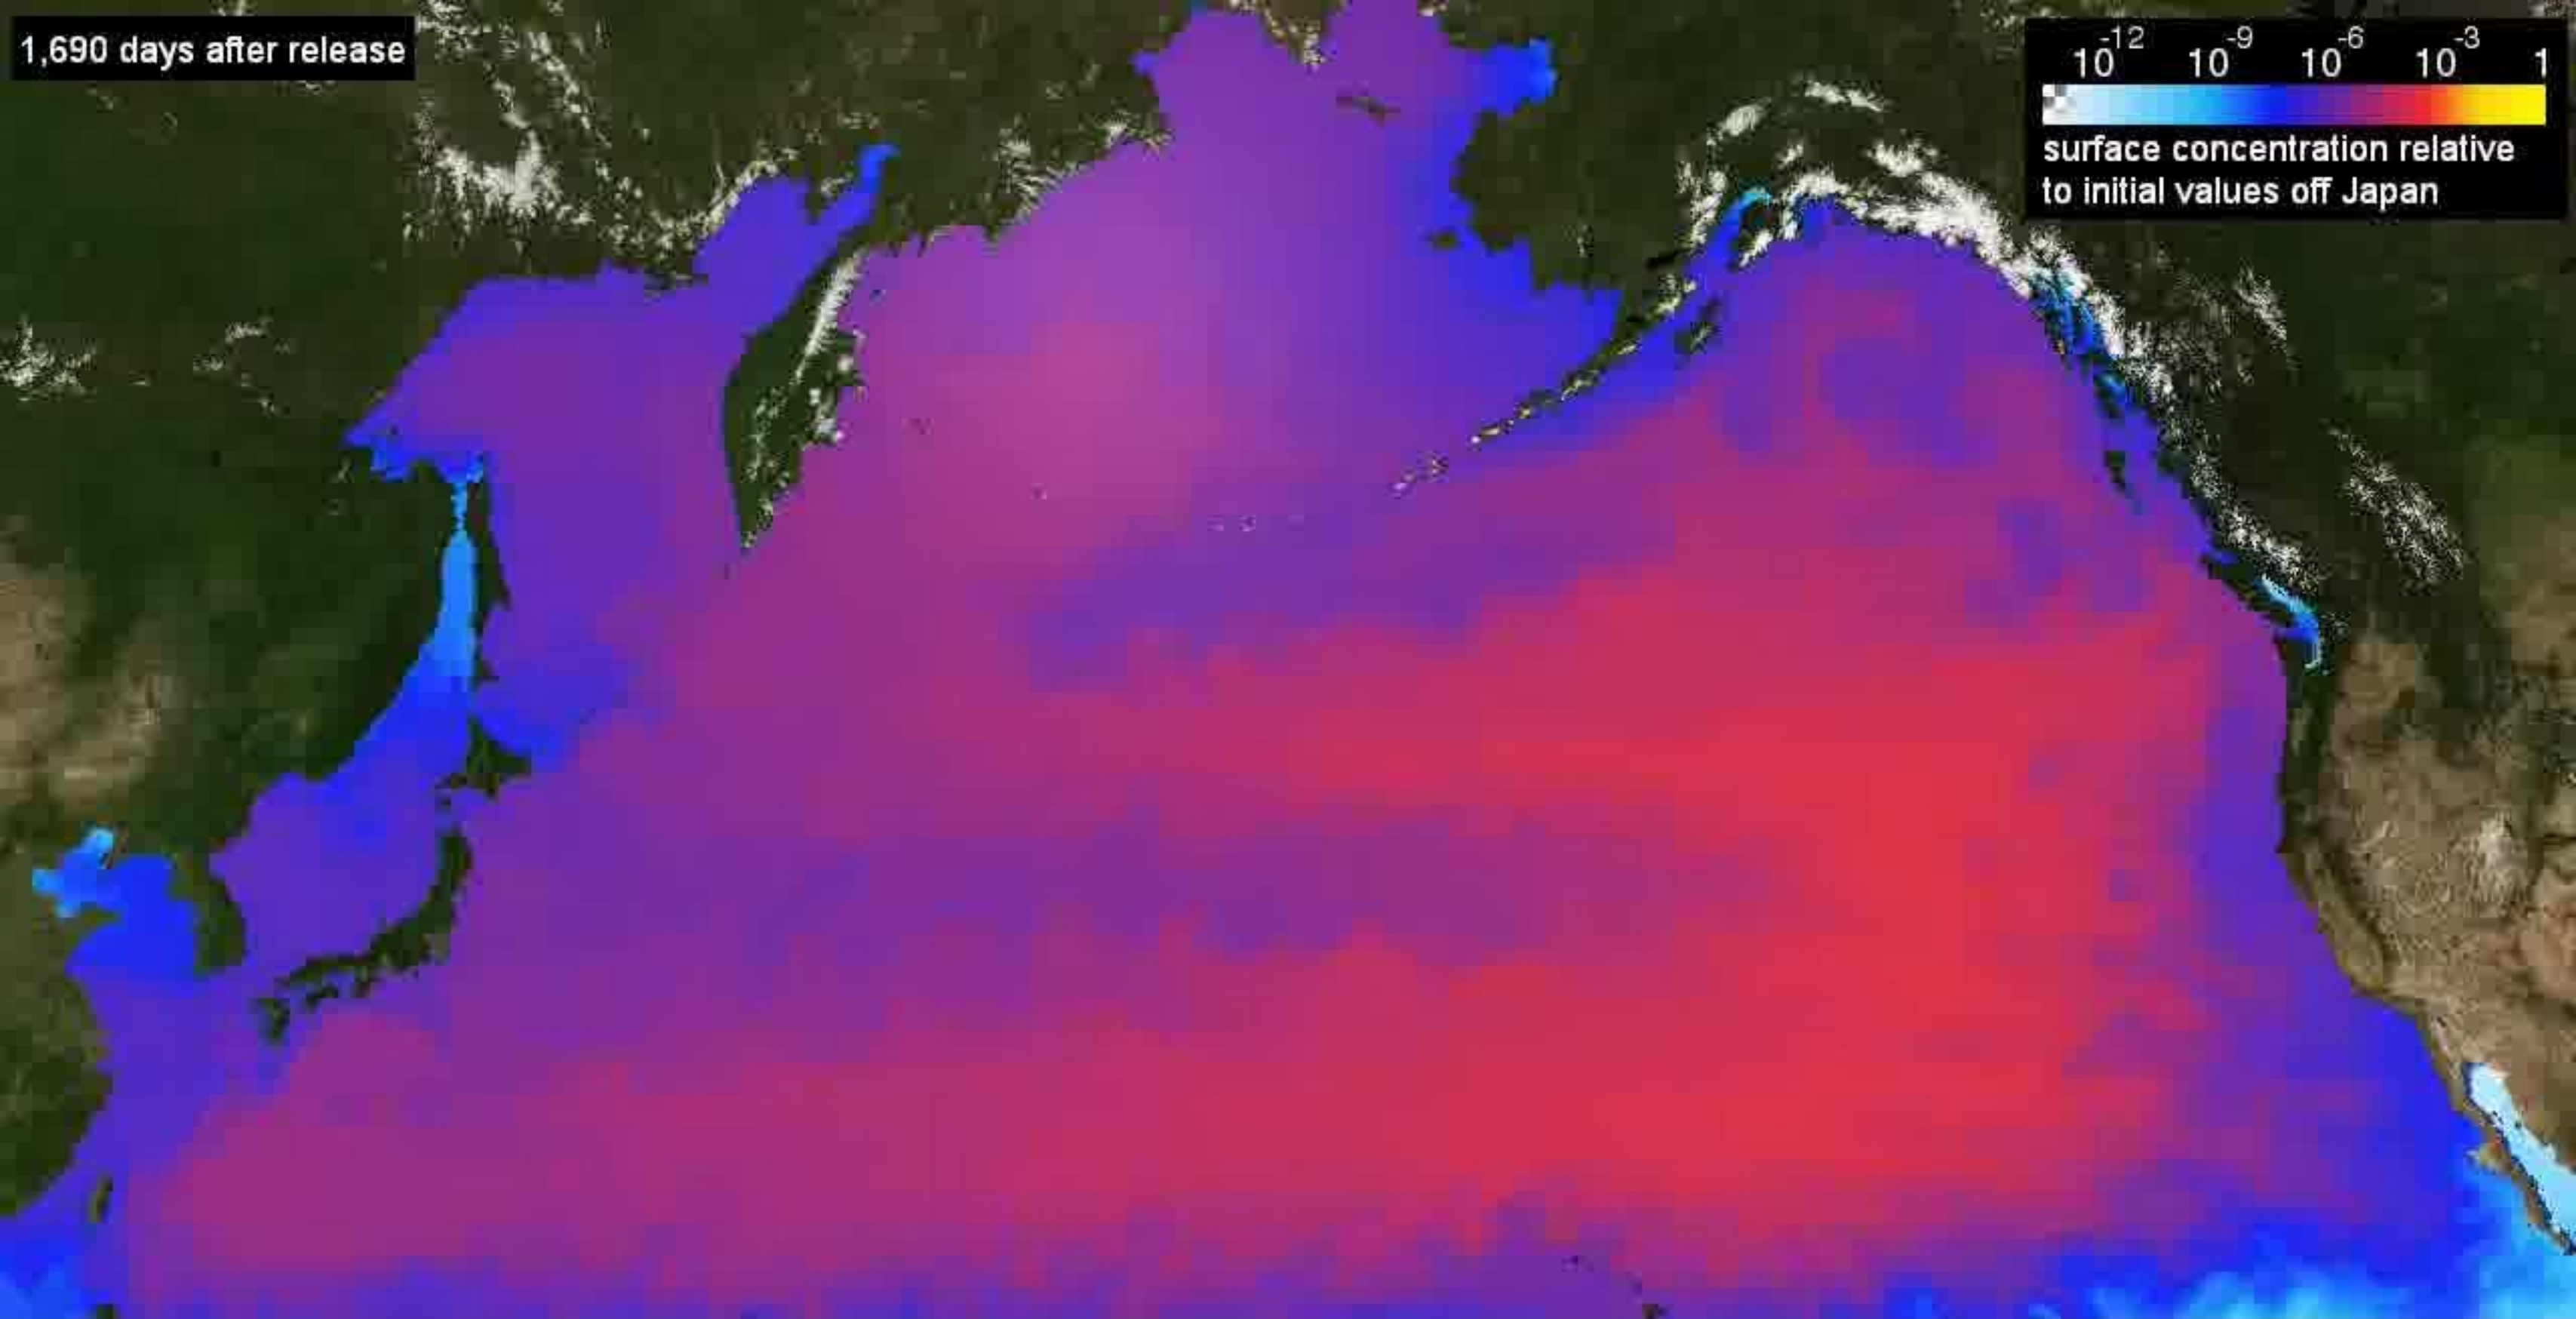

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima

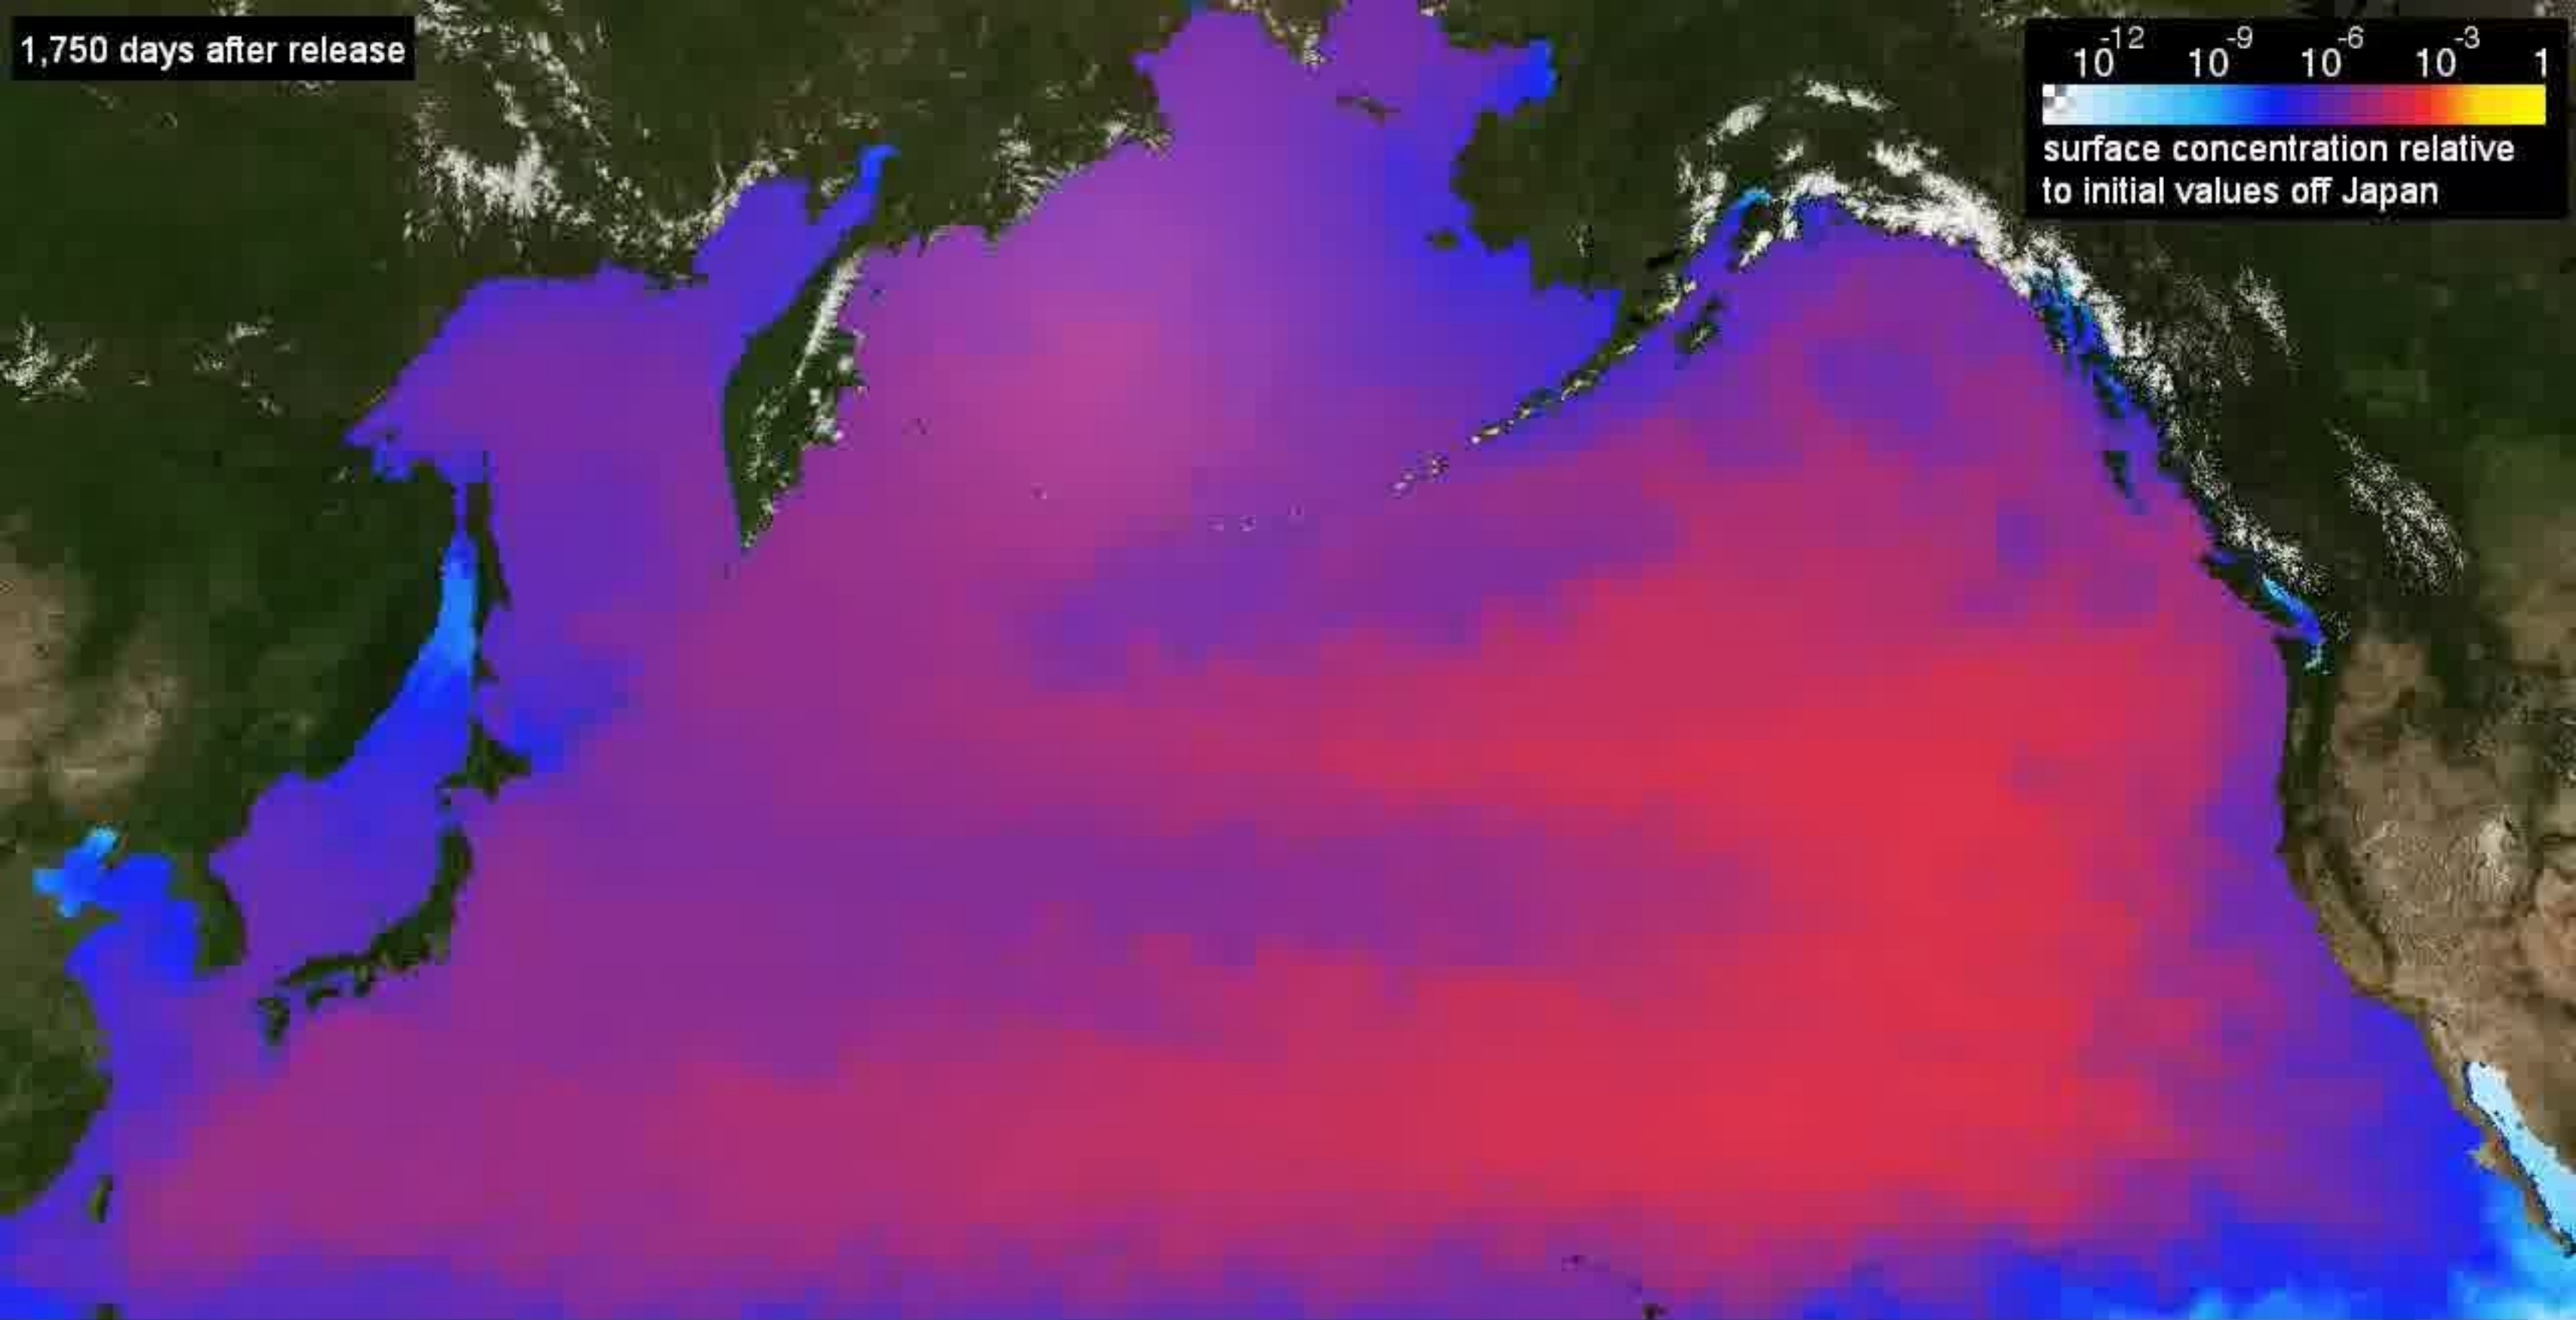

Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

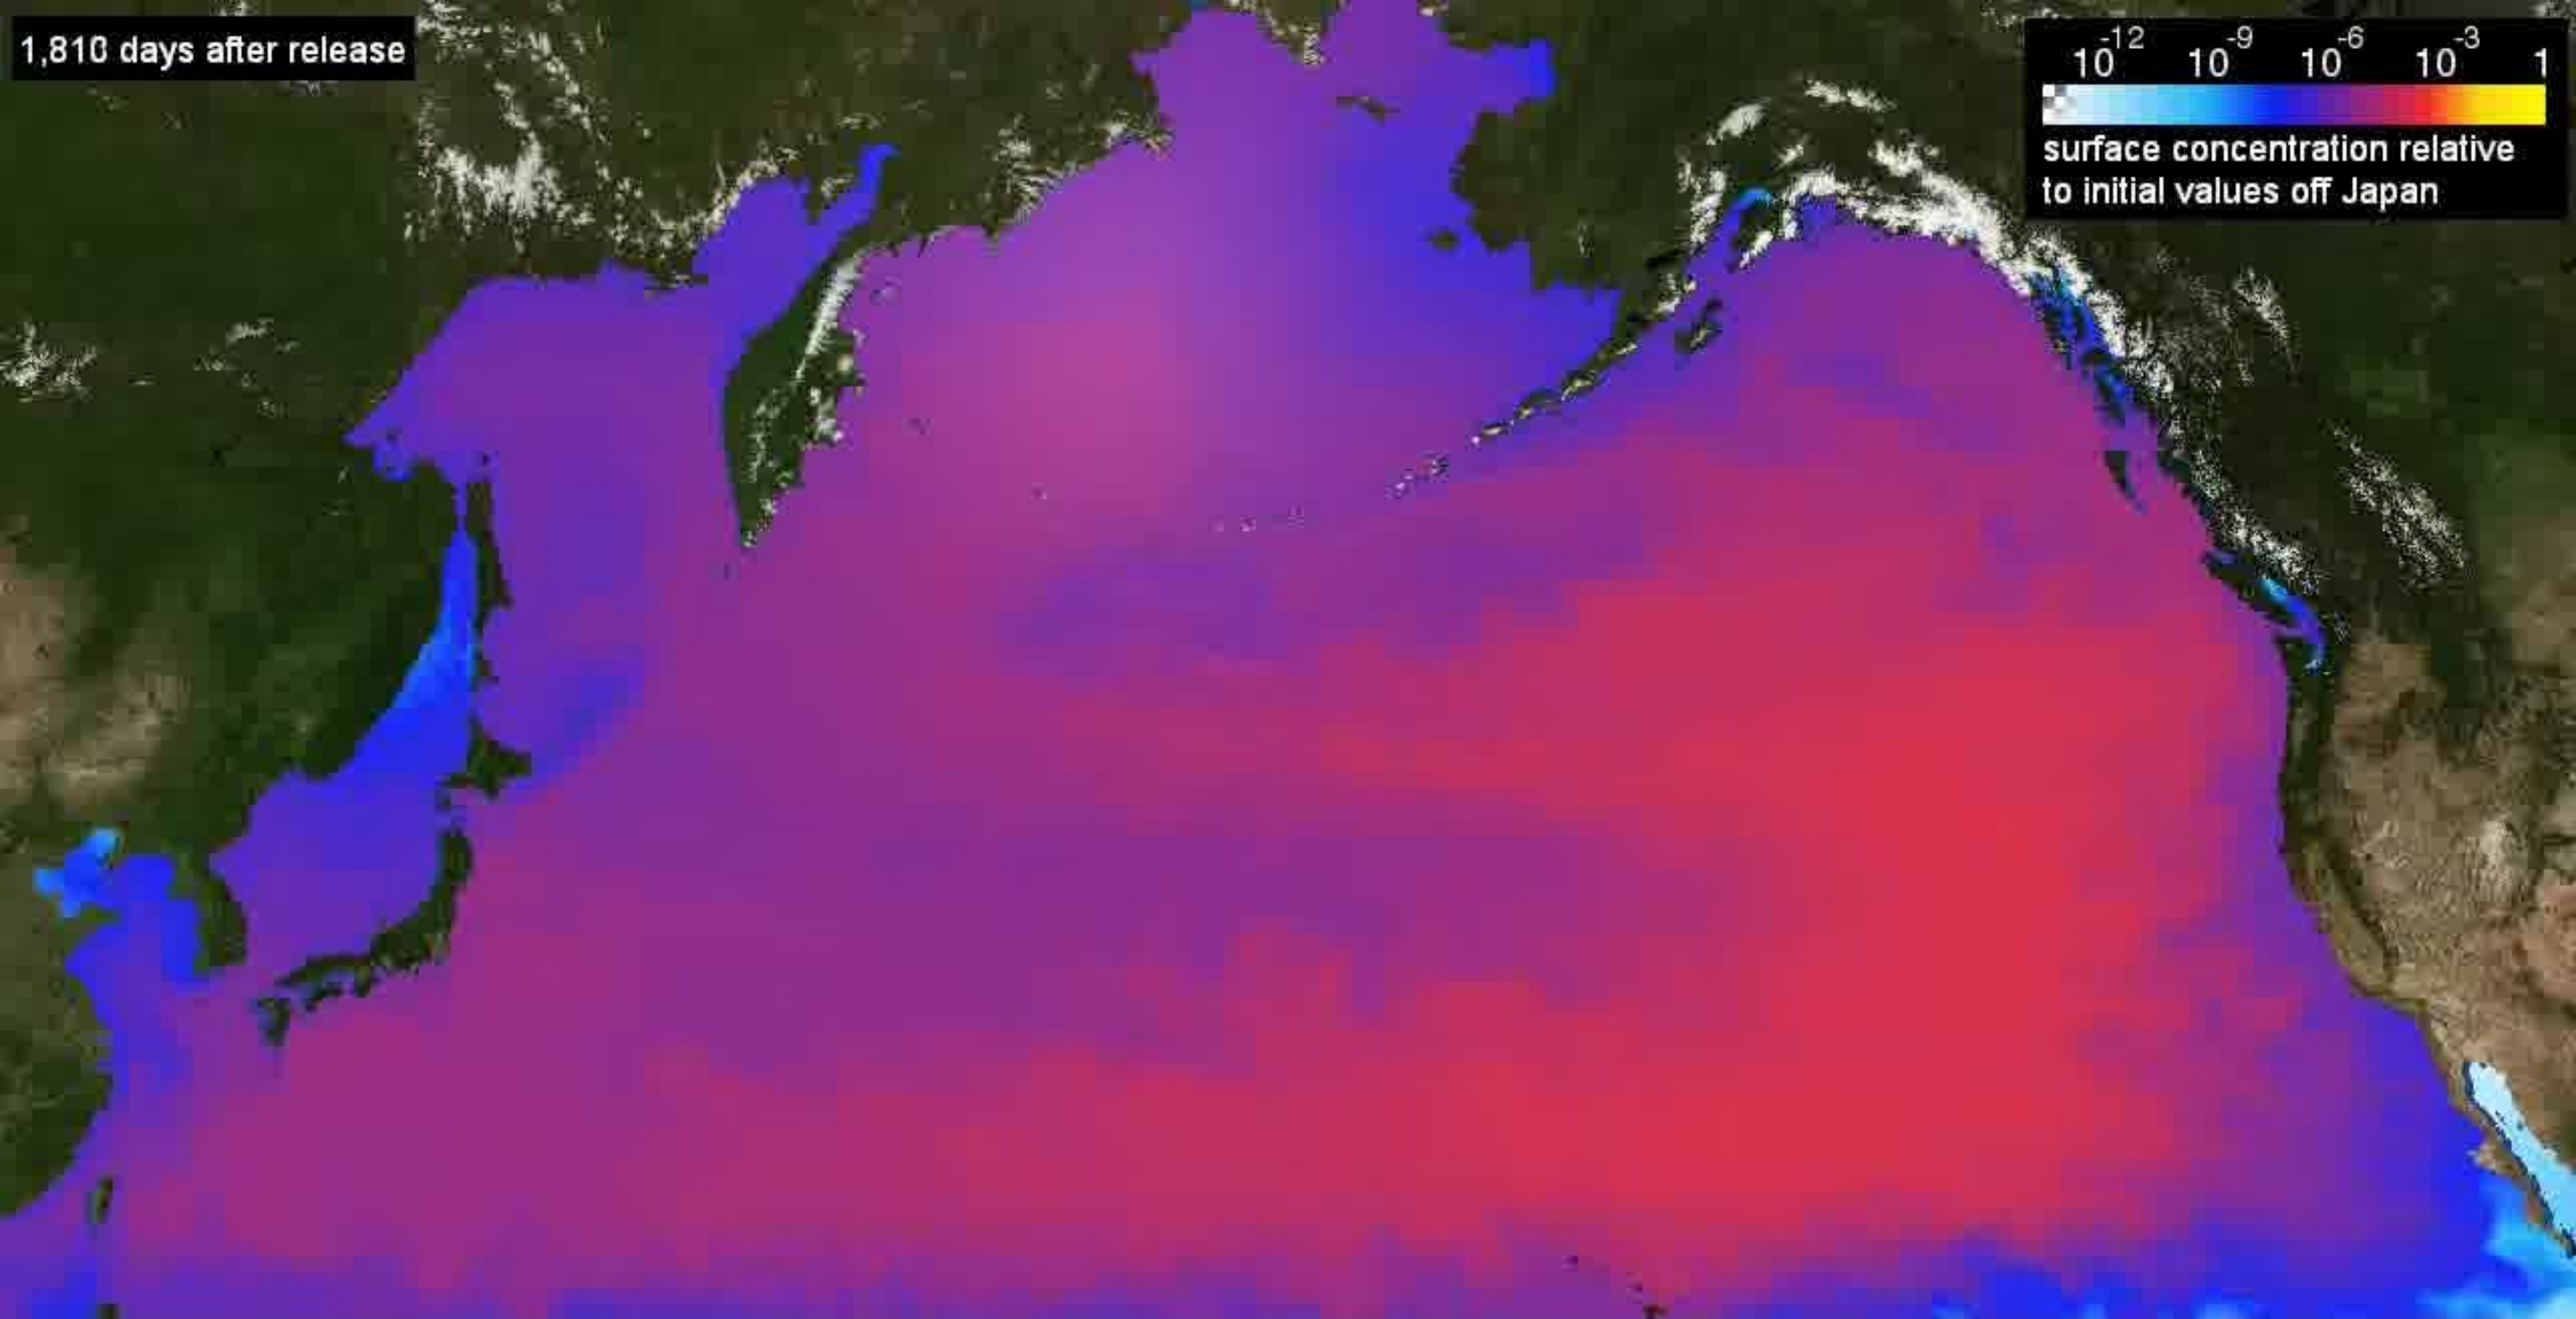

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

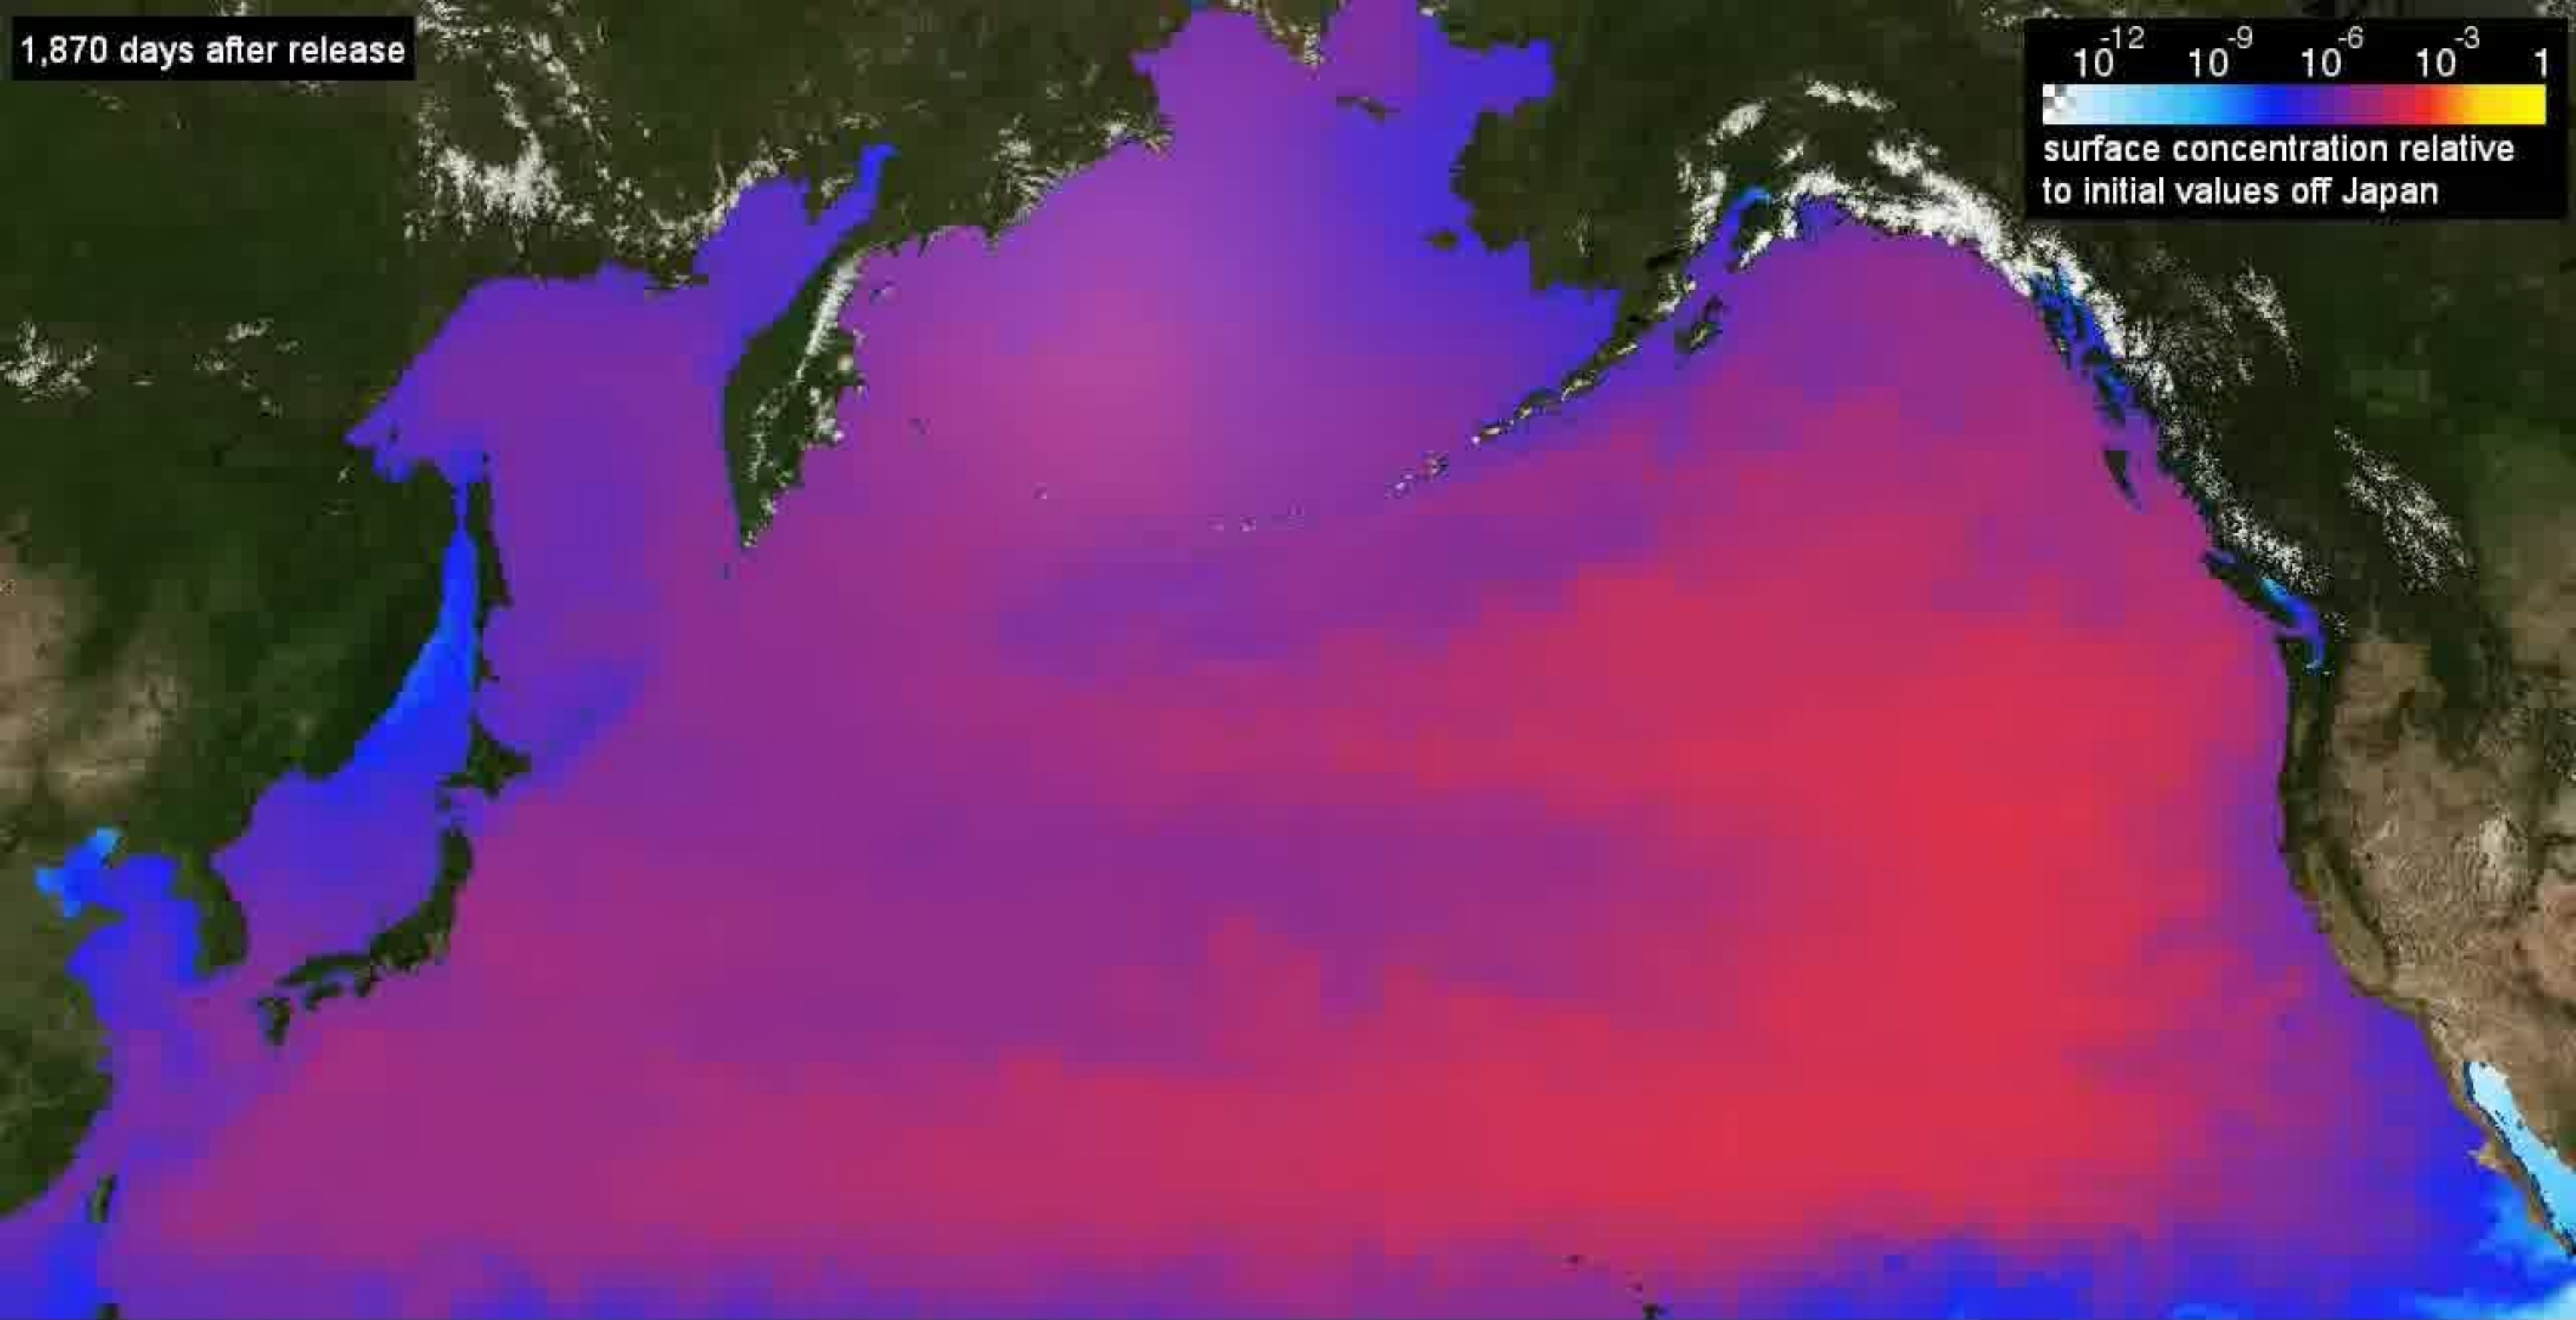

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

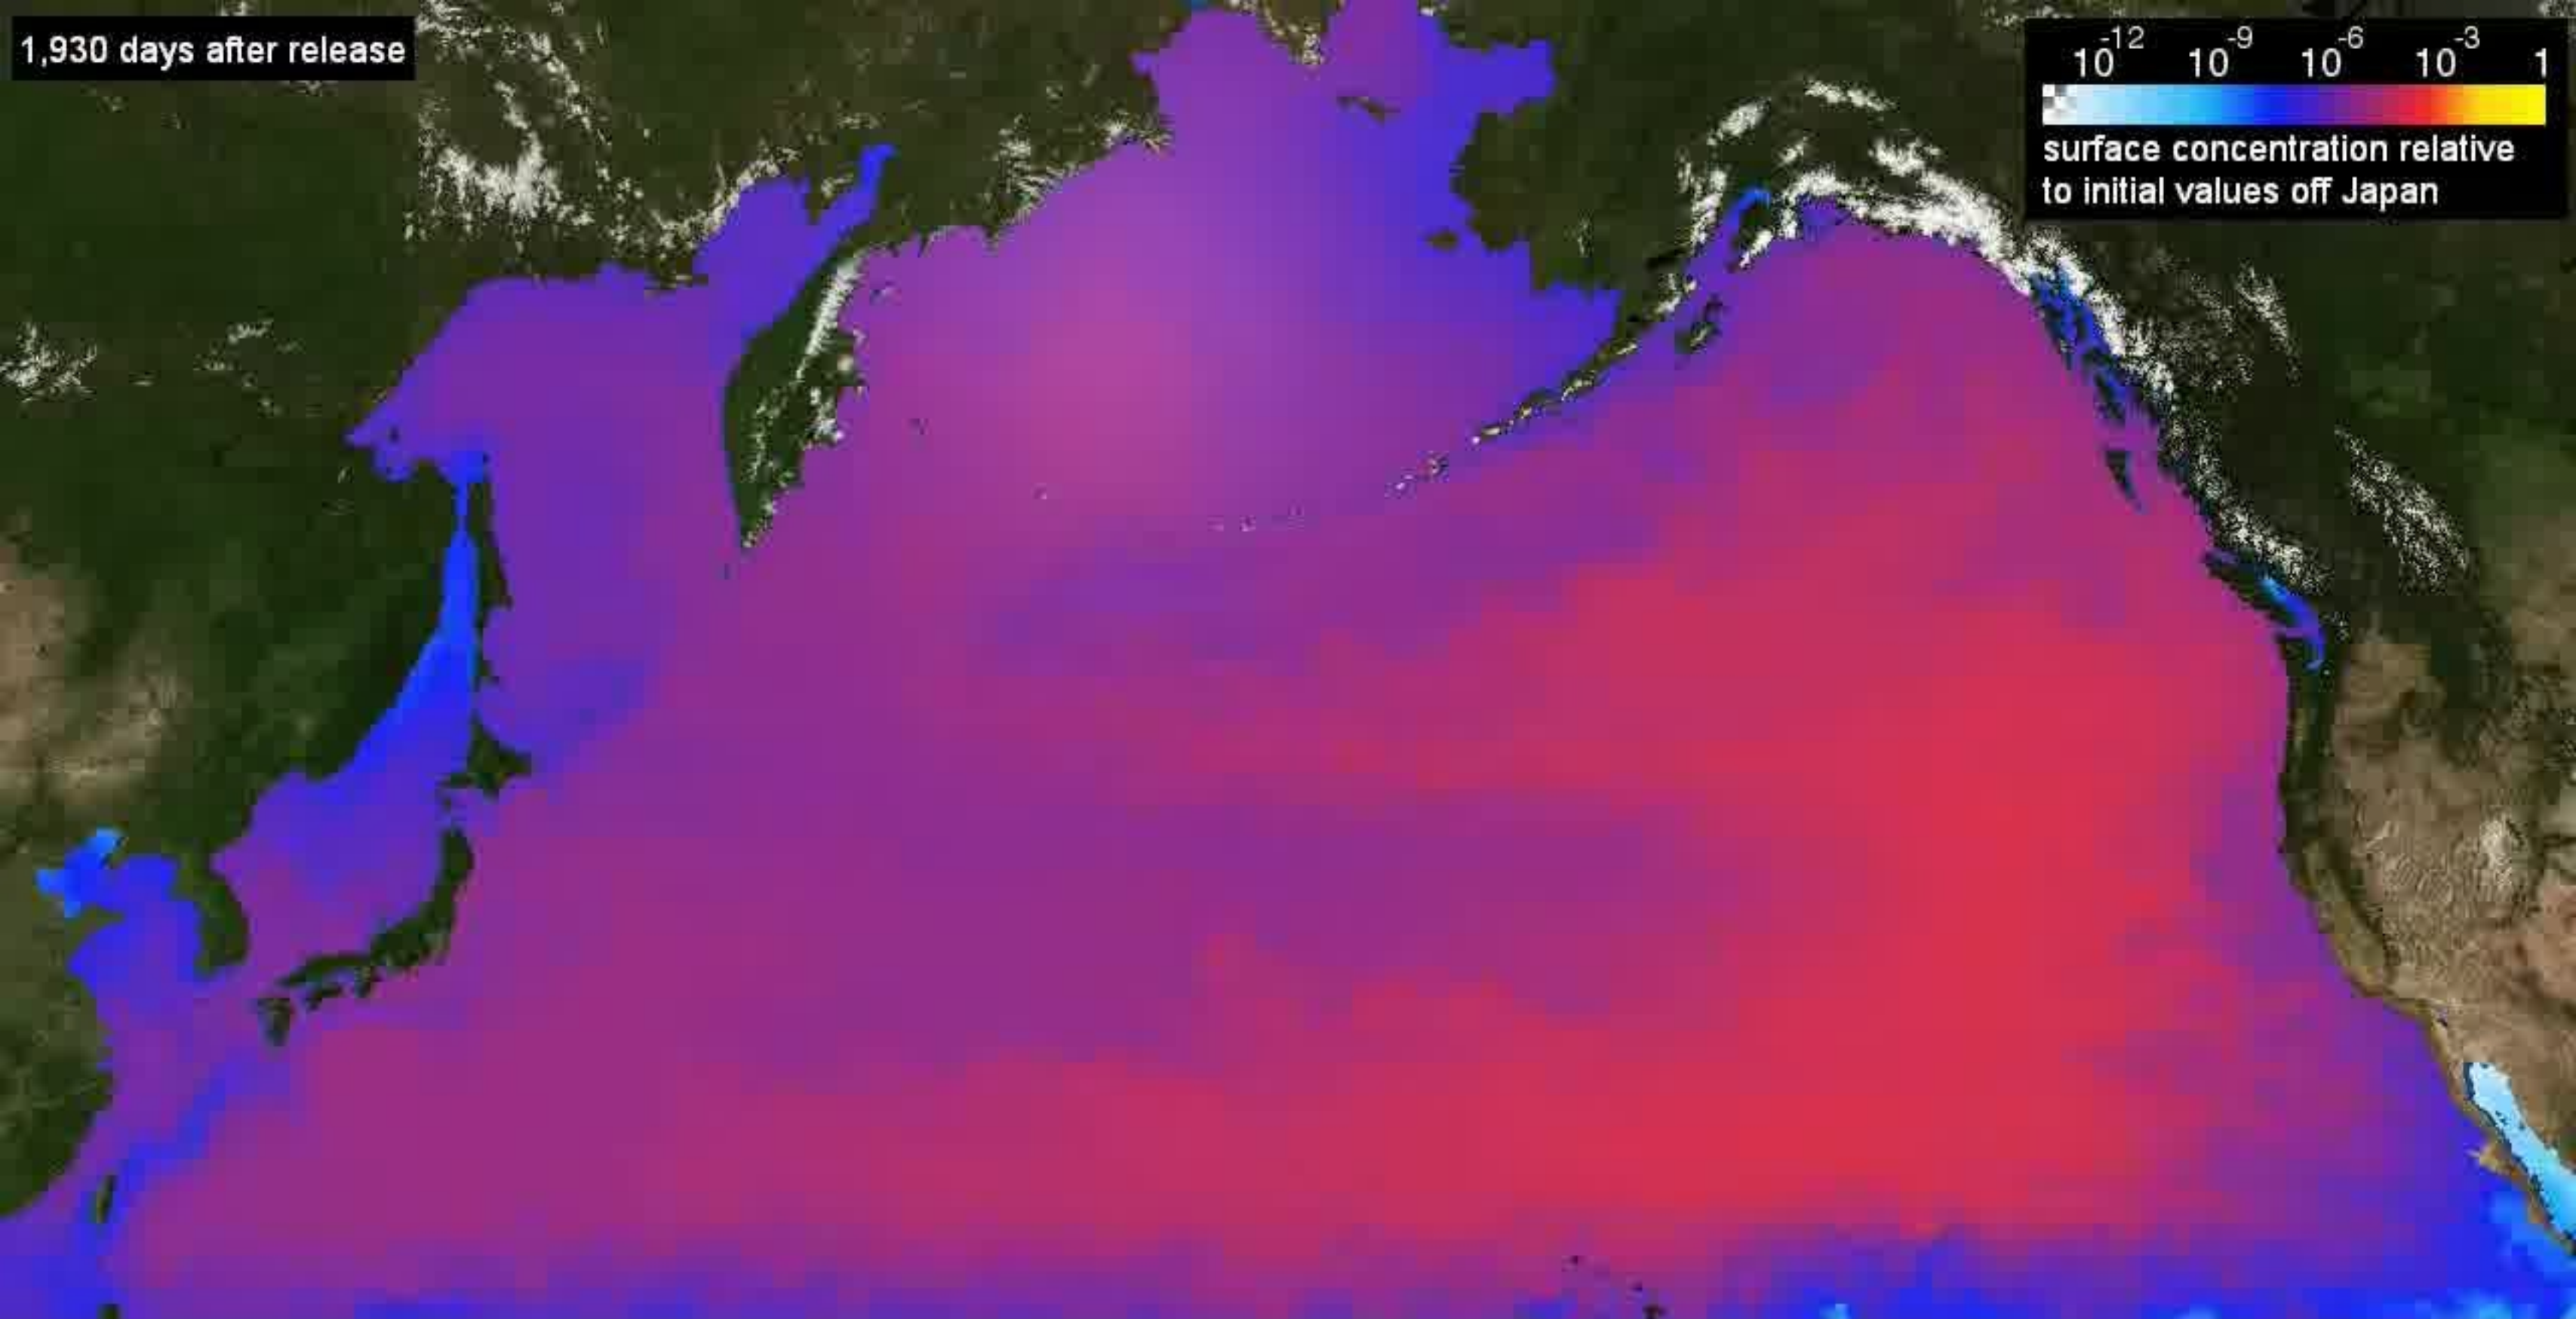

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
Erik Behrens, Franziska U. Schwarzkopf, Joke F. Lübbecke and Claus W. Böning

Model simulations on the long-term dispersal of Cs-137 released into the Pacific Ocean off Fukushima
